17. Funded Debt, Southern Pacific Co.—The funded debt outstanding on June 30, 1902—total, $46,033,500, as per general balance sheet—consisted of the three issues of bonds described hereunder. The details of funded debt outstanding on or about Aug. 1, 1903, will be found in the Ready Reference Bond List—see General Index:

$2,215,000 *steamship* 1st 6s *of Jan.* 1, 1911. The original amount was $3,000,000, but there have been retired $71,000 of bonds each year in 1892, 1893, 1894, 1896, 1898, 1900 and 1902, and $72,000 each year in 1895, 1897, 1899 and 1901.

$28,818,500 *collateral trust gold* 4s *of Aug.* 1, 1949. Secured by mortgage covering the preferred stock issued and to be issued of the Central Pacific Ry. Co.; also the $67,274,200 common stock of the same company purchased by the Southern Pacific Co. The authorized amount of bonds is $36,819,000, of which bonds amounting to $8,000,000 are reserved to be applied as follows: (1) $3,000,000 face value, are reserved to be used to provide additional funds, if required, for the payment from time to time of any of the 3½ p. c. bonds given by the Central Pacific RR. Co. to the U. S. Government, in the settlement of its debt pursuant to the Settlement Agreement of Feb. 1, 1899, or, when such notes have been paid, to be applied at their market value to provide for payment for, or the reimbursement of, the cost of betterments and additions to the properties of the Central Pacific Ry. Co., covered by the 1st refunding and 3½ p. c. mortgages. (2) $5,000,000 face value of such bonds are reserved to be applied at their market value to provide for payment for, or the reimbursement of, the cost of betterments and additions to the properties of the Central Pacific Ry. Co. The amount of such additional $5,000,000 bonds, so to be applied, is not, however, to exceed $200,000 per annum from the date of the mortgage. When and as any of such reserved bonds are issued by the Southern Pacific Co., the like amounts at par value of Central Pacific Ry. Co. preferred stock are to be forthwith deposited with the trustee under the mortgage, to be held as collateral security in the same manner as the preferred and common stock now pledged thereunder. The mortgage provides that the trustee (upon request of the holders of one-fourth in amount of the outstanding bonds) may sell the pledged stocks covered thereby, in case of six months' default in the payment of the principal or interest on the 4 p. c. bonds, and, upon the like default and request, it is provided that the trustee shall declare the principal of the bonds to be due, but this declaration may be rescinded and annulled at any time prior to the sale of the pledged stocks by the holders of a majority in amount of the outstanding bonds. The mortgage also provides that, while said 4 p. c. bonds remain outstanding, neither the preferred nor the common stock of the Central Pacific Ry. Co. shall be increased beyond the amounts now authorized; viz., $20,000,000 preferred and $67,275,500 common, unless arrangements have been made for depositing under said collateral trust mortgage (simultaneously with the issue of such increase of such stock) the same proportionate part of such increase of each class of stock, as the stock of such class theretofore covered by said mortgage was of the whole outstanding stock of such class as the same existed before such increase; and also that the Central Pacific Ry. Co. shall not be merged or consolidated with any other railroad company without the consent of the holders of a majority in amount of the 4 p. c. gold bonds of the Southern Pacific Co. then outstanding. The mortgage also provides that, while the 4 p. c. bonds are outstanding, no new mortgages (other than the 1st refunding mortgage and 3½ p. c. mtge. of the Central Pacific Ry. Co., dated Aug. 1, 1899) are to be made of the properties covered by such refunding and 3½ p. c. mortgages except to refund the bonds secured thereby, or either of such issues.

$15,000,000 *two-five-year 4½ p. c. gold mtge. bonds of Dec.* 1, 1905, redeemable at par and accrued interest on Dec. 1, 1902, or any interest day thereafter. Secured by mortgage covering stocks and bonds of an aggregate par value of $68,191,000 deposited with the trustee (see Sec. 18). The authorized issue is $30,000,000. The remaining $15,000,000 may be issued, under carefully guarded restrictions, against the deposit of additional stock and bonds of companies controlled by the Southern Pacific Co., or whose properties connect with the Southern Pacific System, or they may be issued against the mortgage or conveyance in trust as additional security, under the mortgage of properties to be used by or in connection with the properties of the Southern Pacific Co. or its controlled companies (see MANUAL for 1901, page 622). The mortgage provides that in no event is the amount of additional bonds issued thereunder to exceed 90 p. c. of the actual cost to the Southern Pacific of the additional securities or properties mortgaged. It is also provided that any or all of the securities or properties covered by the mortgage may be sold at any time, or from time to time, the proceeds to be paid over to the trustee and held as part of the trust fund. In case of three months' default in the payment of principal or interest of the bonds, the trustee upon the request of the holders of one-fourth in amount of the outstanding bonds may sell the collateral and any properties that may be pledged under the mortgage, and upon the like default and request the trustee may declare the principal of the bonds to be due; but this declaration may be rescinded and annulled at any time prior to the sale of the securities or properties covered by the mortgage, by the holders of a majority in amount of the outsanding bonds.

28. Land Department.—The transactions of the Proprietary Companies during the year in regard to proceeds from the sale of lands pledged for the redemption of bonds amounted to the following: Number of acres of land sold, 479,946; cash receipts from sales, $999,038.55; amount of sales made on time contracts, $1,789,025.17; total amount of sales for the year, $2,788,063.72; average price received per acre, $5.81; land contracts outstanding June 30, 1902, $5,632,734.63; face value of bonds purchased and cancelled by trustees from proceeds of the sales of land paid over to them, $1,049,000.

In the suit which has been pending for a number of years between the United States and the Southern Pacific RR. Co. (of Cal.) for the recovery by the United States of lands embraced in the conflict between the Southern Pacific and the Atlantic and Pacific RR. land grants, the Southern Pacific RR. Co. lost title to about 1,986,395 acres of land included in former reports in the statement of acreage in litigation. The title to about 453,280 acres of land is still unsettled.

There remained unsold at the close of the year 14,908,288 acres of land, including the 453,280 acres in litigation. This does not, however, include 2,446,843 acres of land formerly belonging to the Houston and Texas Central RR. Co., the proceeds of which are under the Trust Indenture executed by Frederick P. Olcott, the purchaser thereof at foreclosure sale, to be applied in the purchase and cancellation of 1st and consol. mtge. bonds of the Houston and Texas Central RR. Co. The land contracts outstanding June 30, 1902, for account of Olcott lands sold, amounted to $1,431,867.05.

The transactions of each company in respect to lands and the disposition made of their cash receipts therefrom are shown in detail in Sections 27 and 29.

Capital Stock.—The total authorized amount of common stock ($67,275,500) is outstanding; the authorized amount of preferred stock is $20,000,000. The preferred stock is entitled to cumulative dividends of 4 p. c. per annum, in gold, and to its *pro rata* share in any dividends in excess of 4 p. c. on the entire capital. It also has priority over common stock in the event of liquidation or dissolution of the company. No additional mortgage can be put upon the property, nor can the authorized amount of the preferred stock be increased without obtaining the consent of the holders of 75 p. c. of the whole amount of preferred stock and a majority of the whole amount of common stock at the time outstanding. The entire $12,000,000 of preferred stock and $67,274,200 of the common stock are deposited as security for the collateral trust bonds of the Southern Pacific Co.

Funded Debt.—The funded debt outstanding on June 30, 1902, consisted of $639,000 bonds of Central Pacific RR. Co., not presented for exchange ($515,000 California and Oregon Div. 5s of Jan. 1, 1918; $25,000 50-yr. 6s of Oct. 1, 1936, and $99,000 50-yr. 5s of April 1, 1939, the last being guaranteed as to principal and interest by the Southern Pacific Co.), and the following issues of the Central Pacific Ry. Co. (additional particulars will be found in the Ready Reference Bond List—see General Index):

$58,778,000 *1st refunding gold 4s of Aug.* 1, 1949, secured by mortgage on all the railroads, terminals and equipment formerly owned by the Central Pacific RR. Co., including 1,348.66 miles of first track and 405.61 miles 2d track and sidings. Unconditionally guaranteed, both principal and interest, by the Southern Pacific Co., by guaranty endorsed on each bond. The U. S. Government holds $39,808,000 of these bonds as collateral for the 3 p. c. notes of the company (see remarks on those notes below). According as these notes are paid an equivalent amount of the bonds will be returned to the company, and under the provisions of the mortgage they can then be reissued at the same or at a lower rate of interest. The total authorized issue is $100,000,000. Bonds are reserved for the retirement of the undeposited underlying bonds of the Central Pacific RR. Co. Pending the satisfaction of the underlying mortgages, the outstanding old bonds which have been exchanged are deposited under the mortgage and kept alive as additional security thereunder until not less than 95 p. c. of all the bonds of the same issue at any time outstanding or until not less than 95 p. c. of all outstanding old bonds have been deposited under the mortgage. Under the terms of the mortgage, the refunding mtge. bonds issuable in exchange for outstanding old bonds, are to be issued only as such outstanding old bonds are actually deposited with the trustee.

$18,834,500 *gold 3½s of Aug.* 1, 1929, secured by mortgage on all the railroads and properties covered by the 1st refunding mortgage, but subject in lien thereto, and by deposit with the trustee (when released from the lien of the prior mortgages) of all securities and moneys held in any sinking fund created or existing by or under any existing mortgage of the Central Pacific RR. Co., or any of its constituent companies. The bonds are also secured by lien upon all the lands covered by the mortgage securing the land bonds of the Central Pacific RR. Co., dated Oct. 1, 1870 (except in so far as the same shall be released from the lien of that mortgage, in accordance with its provisions), and also upon all notes given in payment for lands covered by said mortgage securing said land bonds. All income derived from said sinking fund securities, or from said lands, is to be applied primarily to the payment of the current interest on the 3½ p. c. gold bonds, and when such current interest shall have been paid or provided for, to the payment of any fixed charges secured by lien prior to the lien of said 3½ p. c. mortgage upon the properties of the company, or any of them (including interest on the 3 p. c. notes in favor of the United States); but the railway company, at its discretion, so long as no default exists in respect of the principal or interest of said 3½ p. c. mtge. gold bonds, may at any time and from time to time sell such securities or lands (free from the lien of the 3½ p. c. mortgage), and apply the proceeds thereof, or of any other securities held on deposit under such mortgage, and also collections on account of principal of such securities or notes, and any moneys held as security for such 3½ p. c. mtge. gold bonds, while the same shall be purchasable at not above par and accrued interest, otherwise to the purchase and cancellation, at the discretion of the railway company, either of the 3½ p. c. mtge. gold bonds, or of the 1st refunding mtge. 4 p. c. gold bonds, or of bonds secured by prior lien upon any of its properties. The mortgage contains a provision that no other new mortgage (except to refund the 1st refunding mtge. 4 p. c. gold bonds or the 3½ p. c. mtge. gold bonds) is to be made upon the properties covered by said mortgages, respectively, so long as any of such bonds of either class, or any of the 4 p. c. gold bonds of the Southern Pacific Co., are outstanding, and that no other new mortgage (except as aforesaid) is to be made by the company upon said properties, except with the assent of the holders of 75 p. c. of the preferred stock and a majority of the common stock at the time outstanding. The bonds are guaranteed, both principal and interest, by the Southern Pacific Co.

Notes to United States Government.—These were issued by the Central Pacific RR. Co. in settlement of its indebtedness to the United States. They are secured by deposit with the Government of $39,808,000 of 1st refunding mtge. bonds, and are also secured by a reserve of $3,000,000 collateral trust bonds of the Southern Pacific Co. The notes are for $2,940,635.78 each, due each six months from Aug. 1, 1902, to Feb. 1, 1909, but subject to redemption at any time. They bear interest at the rate of 3 p. c. per annum, payable on the 1st of Feb. and Aug. The note due Aug. 1, 1902, was paid at maturity, and the refunding bonds deposited as collateral thereto were returned to the company and have been sold.

History.—Chartered March 17, 1870, as successor of the Oregon Central RR. Co. of Salem, which was organized April 22, 1867. The Oregonian and the Portland and Yamhill RRs. were purchased July 31, 1893 (see MANUAL for 1893, page 1021). Leased for 34 years from Aug. 1, 1893, to the Southern Pacific Co. "By the terms of this lease the net earnings or income, after payment of all fixed charges, is to be applied by the lessee company to the payment of interest on the bonded indebtedness of the lessor company, which company shall be entitled to the residue of such net earnings up to 7 p. c. on preferred and 6 p. c. on the common stock, any excess of such amounts to be retained by the lessee. Should the excess of net earnings or income be insufficient to pay the interest, as aforesaid, then and in such event it shall be optional with the lessee company to make good the deficiency. Should it do so it may reimburse itself for such deficiencies or advances out of subsequent earnings, with interest at 6 p. c. per annum, the security therefor to be a lien on the property and income of the lessor company. The lessee company guarantees the payment, principal and interest, of the bonds already issued, or that may be issued thereafter, under a mortgage bearing date July 1, 1887, from the lessor company to the Union Trust Company of New York."

Funded Debt.—The funded debt outstanding, June 30, 1902, consisted of the following issues of bonds (additional particulars will be found in the Ready Reference Bond List—see General Index):

$30,217,500 1*st gold* 6*s of* 1875, in six series—"A" for $12,637,500, due April 1, 1905; "B" for $4,525,000, due Oct. 1, 1905; "C," for $4,016,000, and "D," for $3,915,000, both due Oct. 1, 1906; "E," for $3,160,000, and "F," for $1,964,000, both due April 1, 1912. Bonds of all classes are equally secured by mortgage on the land grant and on 1,044.99 miles of road, as follows: San Francisco to Tres Pinos, 100.49 m.; Huron to east bank of Colorado River, near Yuma, 530.79 m.; Los Angeles to San Pedro, 24.65 m.; Carnadero to San Miguel, 125.99 m.; Mojave to Needles, 242.51 m.; Huron to Alcalde, 20.56 miles. There is a sinking fund of $100,000 a year for the redemption of bonds at or under par, but if they cannot be got at that price the fund is invested. The gross receipts from land sales are also applied to the purchase of bonds at the lowest price for which they can be obtained.

$3,533,000 *Southern Pacific Branch Ry.* 1*st gold* 6*s of April* 1, 1937, secured by mortgage on the property formerly of the Southern Pacific Ry. Co. (see Manual for 1888, page 1105). There is a sinking fund of $50,000 per annum, but bonds cannot be drawn. Guaranteed, both principal and interest, by the Southern Pacific Co.

$500,000 *Stockton and Copperopolis RR.* 1*st gold* 5*s of Jan.* 1, 1905, secured by mortgage on the line from Stockton to Copperopolis, Cal., 32.65 miles, and branch from Peters to Milton, 11.99 miles. Guaranteed, both principal and interest, by the Southern Pacific Co.

$1,000 *Southern Pacific RR. consol.* 5*s of Oct.* 1, 1938, secured by a lien, subject to prior mortgages, on the entire property owned by the company at the time of executing the 1st consolidated mortgage, except the Mojave Division. The amount authorized was $38,000,000, and $12,932,000 of the bonds were issued, but all except $1,000 have been retired by issue of 1st consol. mtge. bonds. Guaranteed, both principal and interest, by the Southern Pacific Co.

$27,125,000 *Southern Pacific RR.* 1*st consol. gold* 5*s of Nov.* 1, 1937, secured on the entire property of the company, except the Mojave Division, but subject to prior liens, a sufficient amount of the bonds being reserved for the satisfaction of such prior liens. If payment is received under the contract for sale of the Mojave Division to The Atchison, Topeka and Santa Fe Ry. Co., the amount so received is to be applied to purchase of bonds under this mortgage; but if The Atchison, Topeka and Santa Fe Ry. defaults in its obligations under the contract and the contract of sale thereby terminates, then this mortgage shall also cover the Mojave Division. The total amount of bonds is limited to $30,000,000, exclusive of the bonds to be issued against underlying securities. It is provided that no prior mortgages shall be extended beyond their maturity, so that these bonds will eventually become a first lien upon the company's property. All prior lien bonds exchanged for these shall be held in trust as collateral security for this mortgage until all the outstanding bonds issued under each of the prior mortgages shall have been retired. By agreement with the holders thereof a majority of the bonds outstanding are stamped with a notice to the effect that the coupons thereof, in addition to being payable in United States gold coin in New York, are also payable in Berlin and in Frankfort-on-the-Main at the rate of M. 4.20 per dollar, and that the Southern Pacific RR. Co. reserves the right to redeem the principal at 107½ p. c. and accrued interest on or after April 1, 1905, on four weeks' prior notice. In case the company shall increase the aggregate amount of its mortgage indebtedness by the execution of any additional mortgage, except for newly acquired property, the bonds made redeemable at 107½ and accrued interest on and after April 1, 1905, shall be included among the bonds secured by such additional mortgage, and shall be entitled to participate pro rata in the security given by the additional mortgage, but in determining the amount of mortgage indebtedness, any mortgage indebtedness held as security for other mortgage indebtedness shall not be counted (for provisions of supplementary mortgages see Manual for 1901, page 640). There is a sinking fund of $20,000 a year until and including the year 1912, and of $120,000 a year thereafter, the fund to be invested in good securities or used to redeem the bonds by purchase at the lowest price for which they can be obtained. The coupon bonds of this issue, amounting to $27,093,000 on June 30, 1901, are guaranteed by the Southern Pacific Co., both as to principal and interest.

$5,156,000 *Northern Ry.* 1*st* 6*s of Jan.* 1, 1907, secured on lines from West Oakland to Martinez, Cal., 31.02 m.; Woodland to Tehama, Cal., 100.85 m., and Benicia to Suisun, Cal., 16.34 m.—total, 148.21 miles. There is a sinking fund of $40,000 a year, commenced in 1886. Guaranteed, both principal and interest, by the Southern Pacific Co.

$4,751,000 *Northern Ry. 1st 5s of Oct.* 1, 1938, secured by second mortgage on the property covered by the Northern Ry. 1st 6s of Jan. 1, 1907, and by first mortgage on the rest of the property formerly of the Northern Ry. Co. (see Manual for 1898, page 773). There is a sinking fund of $20,000 a year, commenced in 1898. The authorized issue was $21,000,000, but under the supplement to the 1st consolidated mortgage of the Southern Pacific RR. Co. no further issue of these bonds can be made. Guaranteed, both principal and interest, by the Southern Pacific Co.

$1,074,000 *Northern California Ry. 1st gold 5s of June* 1, 1929, secured on the lines from Oroville to Marysville and from Marysville to Knight's Landing, a total of 53.72 miles. Guaranteed, both principal and interest, by the Southern Pacific Co.

$2,232,000 *California Pacific RR. 1st gold 4½s of Jan.* 1, 1912, secured on the lines from Vallejo to Sacramento, 60.39 m.; Davis to Knight's Landing, 18.64 m.; and Napa Junction to Calistoga, 34.48 m.—total, 113.51 miles. There is a sinking fund of $10,000 a year. Guaranteed, both principal and interest, by the Southern Pacific Co.

$1,595,000 *California Pacific RR. 2d 4½s of Jan.* 1, 1911, secured by second mortgage on the property formerly of the California Pacific RR. Co. (see preceding paragraph). There is a sinking fund of $5,000 a year. Guaranteed, both principal and interest, by the Southern Pacific Co.

$2,998,500 *California Pacific RR. 3d mtge. bonds of July* 1, 1905, secured by third mortgage on the property formerly of the California Pacific RR. Co. (see description of C. P. RR. 1st mtge. bonds above). The bonds are in two series—"A," for $1,998,500, bearing interest at the rate of 6 p. c. per annum, and "B," for $1,000,000, the rate of interest on which is 3 p. c. per annum. Series "A" bonds for $1,500 are reserved for the retirement of old California Pacific RR. bonds and coupons outstanding. There is a sinking fund of $10,000 per annum for retirement of series "B" bonds. Guaranteed, both principal and interest, by the Southern Pacific Co.

$10,000,000 *Southern Pacific RR. of Arizona 1st mtge. 6 p. c. 30-yr. gold bonds,* Series "A," $6,000,000, due March 1, 1909, and Series "B," $4,000,000, due March 1, 1910. Secured on the line from east bank of Colorado River to Arizona-New Mexico line, 392.9. There is a sinking fund of $100,000 a year. Guaranteed as to principal and interest by the Southern Pacific Co.

$4,180,000 *Southern Pacific RR. of New Mexico 1st gold 6s of Jan.* 1, 1911, secured on the road from Arizona-New Mexico line to east bank of Rio Grande, 167.45 miles. There is a sinking fund of $50,000 a year. Guaranteed as to principal and interest by the Southern Pacific Co.

Funded Debt outstanding on June 30, 1902, consisted of $4,756,000 Eastern Div. 1st gold 6s of Feb. 1, 1910; $1,000,000 Eastern Div. 2d gold 7s of June 1, 1905; $13,418,000 Western Div. (M. & P. Ext.) 1st gold 5s of May 1, 1931; and $6,354,000 Western Div. (M. & P. Ext.) income gold 6s of July 1, 1931. The 1st mtge. Eastern Division bonds are secured on the main line east of San Antonio, on the La Grange Branch, and on the old lands of the company. The 2d mtge. Eastern Division bonds are also secured on the main line east of San Antonio and on the land grant. The proceeds from the sale of the lands go to the trustees to be used in the purchase of bonds. The 1st mtge. bonds are further secured by a sinking fund of 1 p. c., which commenced in 1880, and for which bonds are drawn annually. It is optional with the holders, however, whether they surrender or retain their bonds. In case of their retention the interest continues, and the bonds remain as if they never had been drawn. The 1st mtge. Mexican and Pacific Extension bonds are secured on the line from San Antonio to El Paso, and also on the Eagle Pass Branch. The 2d mtge. (income) Western Division bonds are secured on the line from San Antonio to El Paso, subject to the lien of the 1st mortgage, and are also secured on the lands due from the State for construction of the M. & P. Extension, by which the company became entitled to 110,750 sections of 640 acres each, equal to 70,880,000 acres. Of these bonds, $355,000 are in the company's treasury. By an agreement made in 1893 with the holders of these bonds the charge for interest accrued thereon was waived, and interest now becomes due only if earned above all prior charges, and is non-cumulative.

History.—The route of this road originally formed the western extension of what is now known as the New Orleans and Mobile RR. Some preliminary work had been done in the way of grading, etc., when, in 1876, the property was sold under foreclosure; this portion was purchased by Morgan's Louisiana and Texas RR. Co., which subsequently transferred it to the Louisiana Western RR. Co. The construction of the road was commenced in 1879, and the whole line put in operation in Aug., 1880. This road was included in the "Omnibus Lease" to the Southern Pacific Co., but the lease terminated on Dec. 31, 1901, and the road is now operated by its own organization.

History.—Reorganization in 1874 of the old Texas and New Orleans RR., which was built in 1861 and dismantled in 1865. The reconstructed road (Houston to Orange) was opened on Aug. 1, 1876. The line from Sabine to Rockland, 103.11 miles, formerly the Sabine and East Texas Ry., was purchased in April, 1883. The Texas Transportation RR., from Houston to Clinton, 7.9 miles, was purchased on June 1, 1896; the Texas Trunk RR., from Dallas to Cedar, 53 miles, and the Louisiana Western Extension RR., from Sabine River to Beaumont, 6.8 miles, were acquired in Dec., 1899. The Texas Trunk RR. and the Louisiana Western Extension RR. were purchased under authority of an act of the Legislature of Texas, which also authorized the company to construct an extension from Cedar to Rockland, about 165 miles, and to issue $4,435,000 of 4 p. c. bonds to cover the cost of the lines purchased and of the extension from Cedar to Rockland (see MANUAL for 1901, page 615). On June 30, 1902, the extension from Cedar was in operation to Jacksonville, 63 miles, and the extension from Rockland was in operation to Mahl, 56 miles, leaving about 46 miles to be constructed. The company acquired 818,789 acres of State subsidy land through the purchase of the main line and 663,680 acres through the purchase of the Sabine and East Texas Ry. The company is controlled by the Southern Pacific Co. through ownership of all except $2,500 of its capital stock, but is operated as an independent organization.

2. History.—Chartered as the Delaware, Lehigh, Schuylkill and Susquehanna RR. Co., September 20, 1847; under existing title, January 7, 1853. (See MANUAL for 1899, page 130.) The National Docks Ry. and the terminals and warehouses of the National Storage Co. were purchased on December 8, 1899, the company assuming $5,000,000 of trust certificates of the latter company. The National Docks Ry. is operated separately. The Easton and Northern RR., 12.78 miles in length, is owned by this company, but a section of it 8.14 miles in length is leased to the Bangor and Portland Ry. Co.

On May 7, 1902, the company acquired the entire capital stock, of the par value of $300,000, of the Righter Coal Co., operating the Mount Carmel Colliery, at Mount Carmel, Pa., and issued in partial payment for it purchase-money bonds to the amount of $270,000.

NOTE.—The fiscal year of the company having been changed to close on June 30 instead of Nov. 30, the regular income account would cover only the seven months from Dec. 1, 1901, to June 30, 1902; but for the purpose of making a comparison of the results of a full year's operation the statistics for the year ending June 30, 1902, and for the year ending June 30, 1901, are published (see preceding statement; also Sec. 13). For the sake of continuity in the accounts the results for the seven months ending June 30, 1902, are given in Sec. 14.

6. Valuation of Equipment.—The valuation of equipment on June 30, 1902, as carried on the books of the company, was as follows: Locomotives, $6,621,616.52; passenger train cars (473), $1,326,152.55; freight train cars (34,576), $18,434,040.42; road-

The Lehigh Valley RR. Co. owns all the bonds of the Greenville and Hudson Ry. Co., Morris Canal and Banking Co., Schuylkill and Lehigh Valley RR. Co., Rochester Southern RR. Co., and Hazleton Coal Co., besides owning $271,400 of the preferred stock and $318,300 of the consolidated stock of the Morris Canal and Banking Co., $164,000 of the bonds of the Middlesex Valley RR. Co., and $6,140,000 of the bonds of the Lehigh Valley Coal Co. Total owned by Lehigh Valley RR. Co., $12,350,700; annual charge thereon, $632,922. The latter amount is included in the Income Account under the head of dividends and interest on stocks and bonds owned, while the rentals of the Waverly and State Line RR. and Depew and Tonawanda RR. are included in the same statement under the head of "sundry receipts."

The Lehigh Valley RR. Co. does not guarantee the $300,000 1st mtge. 6 p. c. bonds of the Canastota Northern RR. Co., nor $750,000 1st preferred mortgage 6 p. c. bonds of the Elmira, Cortland and Northern RR. Co., but they are both included in the preceding statement, because they are mortgage liens on property which is a part of the Lehigh Valley system by ownership of capital stock. The details of the guaranties are in the statements for the subsidiary companies in Sections 24-27.

16. Capital Stock.—The capital stock as per general balance sheet consists of $106,300 of 10 p. c. preferred stock and $40,334,800 of common stock, in shares of $50 each. The last dividends were paid in July, 1893.

17. Funded Debt.—The funded debt outstanding on June 30, 1902—total $41,900,000, as per general balance sheet—consisted of the following issues of bonds:

$5,000,000 *1st gold* 4*s of June* 1, 1948. Secured on the main line, 322.44 miles, and equipment. The bonds matured in 1898, and were extended, principal and interest being made payable in gold.

$6,000,000 *2d* 7*s of Sept.* 1, 1910. Secured on the same property, but subject to the lien of the first mortgage.

$23,000,000 *consol. mtge. bonds*, $15,700,000 of them being 6 p. c. bonds and the remaining $7,300,000 4½ p. c. bonds; $10,062,000 of the 6 p. c. bonds and $2,538,000 of the 4½ p. c. bonds are designated "annuity bonds" and are irredeemable; the remaining $5,638,000 of 6 p. c. bonds and the remaining $4,762,000 of 4½ p. c. bonds are payable on Dec. 1, 1923. The authorized issue is $40,000,000, and $12,000,000 of the unissued bonds are reserved for retirement of the 1st and 2d mtge. bonds, at maturity. The bonds are in two classes, those due in 1923 being known as Class B, and the irredeemable "annuity" bonds as Class C. Of Class B, $1,319,000 6s and $1,669,000 4½s are coupon bonds, while $4,319,000 6s and $3,093,000 4½s are in registered form. The bonds are secured on the main line and branches, 322.44 miles, subject to prior liens.

$7,000,000 *mtge. and trust gold* 5s *of May* 1, 1997. Secured on the railroad and equipment of the company (subject to prior liens); on various real estate mortgages held by the company; on various pieces of real estate owned by the company in Philadelphia, Pottsville, and Jersey City; on sundry stocks of various companies owning railroad (about 170 miles) and steamship lines belonging to the Lehigh Valley System, and on the car trust bonds of the Lehigh Valley Terminal Ry. Co. owned by this company. (See statement of stocks and bonds owned, Sec. 20.) The authorized issue is $15,000,000, of which $7,000,000 may be issued at not exceeding the rate of $1,000,000 in any calendar year commencing with the year 1900, for the construction or acquisition of extensions, terminals, rolling stock, or betterments, or for the acquisition of additional bonds of the Lehigh Valley Coal Co. secured by its mortgage dated April 30, 1897—all of such acquisitions to be subjected to the lien of the mortgage. The $7,000,000 of reserved bonds may bear interest at a rate less than 5 p. c. per annum. The bonds are redeemable on any interest day, at 107½ p. c. and accrued interest, on 60 days' notice.

The mortgages do not cover the income of the company, and none of them except the collateral trust mortgage cover any of the securities owned by the company. Bonds with liens prior to that of the mortgage and collateral trust bonds may be extended, or new prior lien bonds may be issued, but the aggregate principal sum of such bonds, or the rate of interest thereon, may not be increased except as provided in the consolidated mortgage for the retirement of bonds prior in lien thereto.

18. Equipment Trust Obligations.—These consist of the following issues: $400,000 5 p. c. Series A car trust, payable $50,000 semi-annually to Feb. 1, 1906, interest Feb. and Aug.; $225,000 5 p. c. Series B car trust, payable $25,000 semi-annually to Aug. 1, 1906, interest Feb. and Aug.; $1,400,000 4½ p. c. FUNDED DEBT, June 30, 1902, consisted of (1) $11,514,000 1st 5s of Jan. 1, 1933; (2) $5,000,000 1st 5s of May 1, 1947; (3) $367,000 Snow Shoe 1st 5s of Jan. 1, 1910, and (4) $1,102,000 Delano Land 1st 5s of Jan. 1, 1932. The L. V. RR. Co. owns the bonds of 1947 and guarantees the 1sts of 1933 and the Delano Land bonds, both as to principal and interest; the Snow Shoe bonds are not guaranteed. The 1st mtge. bonds of 1933 are secured on 16,290 acres of land owned by the company, 7,437 acres of which are within the coal measures and estimated to yield at least 124,000,000 tons of merchantable coal. The mortgage provides for a sinking fund of 10 cents for each ton of coal shipped from the mortgaged property, with a minimum of $25,000 per annum. Under this provision $30,954.85 was set aside during the seven months ending June 30, 1902, to be applied to the purchase of bonds for cancellation. Trustee: E. P. Wilbur Trust Co., South Bethlehem, Pa. The $5,000,000 mtge. bond of 1897, owned by the L. V. RR. Co., is a first lien on anthracite coal lands and interests in Schuylkill County, Pa., covering about 8,000 acres, of which about 6,000 are within the coal measures and estimated to yield about 237,000,000 tons of merchantable coal. and is also secured on bituminous coal lands in the same State, which cost $975,000, subject to a lien of $500,000, and on wharves and yards in Chicago, costing about $500,000 (subject to $200,000 lien on one wharf), and in West Superior, Wis., costing about $350,000. In addition to the anthracite coal directly covered, the mortgage embraces, through ownership of stocks of coal companies, about 240,000,000 tons of merchantable coal, not covered by any other mortgage. The bond also has a junior lien on the property covered by the first mortgage. Trustee: The Girard Trust Co., Philadelphia, Pa. The Snow Shoe bonds are secured on property in Centre County, Pa. The Delano Land bonds are secured on 5,229 acres in Rush Township, Schuylkill County, Pa. There is a minimum sinking fund of $30,000 per annum; bonds may be retired at par or under. The interest and sinking fund of these bonds are provided from royalties on coal mined from the property. Trustee: The Girard Trust Co., Philadelphia, Pa.

STOCKS AND BONDS OWNED.—6,304 shares (par, $315,200) Locust Mountain Coal and Iron Co. stock; and $20,000 L. V. RR. 6 p. c. annuity bonds.

latter leased in 1861. (See MANUAL for 1892, page 834.) The other lines were acquired from time to time as shown in previous numbers of the MANUAL. The Trenton Cut-off RR. and the Schuylkill and Juniata RR., two of the company's leased railroads, were absorbed by consolidation on April 1, 1902. Six other of the leased or operated roads—the Western Pennsylvania, the South Fork, the Turtle Creek Valley, the West Chester, the Downingtown and Lancaster and the Riverfront—in which the Pennsylvania RR. Co. was the only stockholder, were absorbed by consolidation after Dec. 31, 1902. Statements for those roads will be found subjoined hereto.

16. Dividends.—Since 1856 the Pennsylvania RR. Co. has paid cash dividends in every calendar year. The average yearly rate of dividends during the past 47 years is over 7 p. c. and resulted in the disbursement of over $223,000,000. Previous to 1856 interest at the rate of 6 p. c. per annum was paid on all stock subscription installments with the approval of the board of directors and the stockholders, and under authority conferred by the Legislature of the State of Pennsylvania. The dividends paid upon the capital stock in 1899 amounted to 5 p. c., and in addition thereto an allotment of 10 p. c. of the capital stock was declared, to which the stockholders were entitled to subscribe at par. (See GENERAL INDEX for table of DIVIDENDS PAID BY RAILROAD COMPANIES.)

17. Capital Stock.—The authorized amount of capital stock of the Pennsylvania RR. Co. on Dec. 31, 1901, as shown in the MANUAL for 1902, pages 658-659, was $251,700,000, divided into 5,034,000 shares of the par value of $50 each. Of these shares 4,065,442 of an aggregate par value of $203,272,100 were outstanding. During the year ending Dec. 31, 1902, shares amounting at par to $1,102,750 were issued, $978,950 par value thereof for the purpose of acquiring the stock of the Pennsylvania and Northwestern RR. Co., and the remaining $123,800 in payment for stock of the Philadelphia, Wilmington and Baltimore RR. Co. and in the conversion of dividend scrip. The total amount of capital stock outstanding on Dec. 31, 1902, was $204,374,850.

17a. Additional Capital Stock Issued or Authorized.—On March 10, 1903, the stockholders voted authority for an increase of the capital stock to 8,000,000 shares of the par value of $50 per share, an aggregate par value of $400,000,000. In May, 1903, shares amounting at par to $20,903,300 were issued in exchange for $29,302,500 of the convertible gold bonds of 1902-1912 (see Sec. 27), and at about the same time shares amounting at par to $750 were issued on account of allotment of stock made in Jan., 1900, and shares amounting at par to $5,350 were issued to acquire stock of the Pennsylvania and Northwestern RR. Co.; making the total amount of capital stock issued up to May 9, 1903, $225,284,250. Under resolutions adopted at a meeting of the board of directors, held March 25, 1903, the stockholders of record May 9, 1903, got the privilege of subscribing for new stock to the extent of 33⅓ per cent. of their holdings, at the price of $60 per share, payments to be made in three installments due respectively in June, 1903, in Oct., 1903, and in June, 1904. The proceeds of the additional stock, amounting to $90,113,700 cash, will provide necessary capital for construction and equipment expenditures on the main and leased lines and branches, for the construction of new lines in Pennsylvania and of the Tunnel Line in the city of New York, and for other purposes. In pursuance of action taken by the board of directors on June 10, 1903, shares amounting at par to $878,250 have been issued for the purpose of acquiring, on or before July 15, 1903, the $390,350 capital stock of the Pittsburgh, Virginia and Charleston Ry. Co. held by parties other than the Pennsylvania RR. Co., by issuing therefor 2¼ shares of the capital stock of the Pennsylvania RR. Co. for each share of stock of the Pittsburgh, Virginia and Charleston Ry. Co. The following statement shows the amount of capital stock issued or to be issued as stated before:

Outstanding Dec. 31, 1902, as per general balance sheet	$204,374,850
Issued in April, 1903, in exchange for $29,302,500 convertible bonds	20,903,300
Issued on account of allotment of stock, Jan., 1900	750
Issued to acquire stock of Pennsylvania & Northwestern RR. Co.	5,350
Issued or to be issued under resolution of Board of Directors, adopted March 25, 1903	75,094,750
Issued to acquire the outstanding balance of capital stock of the Pittsburgh, Virginia and Charleston Ry. Co.	878,250
Issued in June, 1903, in exchange for convertible 3½ p. c. bonds	7,250
Total issued, or issue provided for, July 1, 1903	$301,264,500

18. Funded Debt.—The amount of bonded debt, including mortgages on real estate and ground rents, Dec. 31, 1902, was $140,619,856.91, being an increase of $51,726,533.34 during the year. Of this increase $50,000,000 represents the 3½ per cent. 10-year convertible bonds bearing date Nov. 1, 1902, issued for the construction of the tunnel line to and under the city of New York, the erection of a passenger station in that city and for other purposes. The Sunbury, Hazleton and Wilkesbarre Ry. Co. and the Sunbury and Lewistown Ry. Co., two of the constituents of the Schuylkill and Juniata

RR. Co., having at the date of the absorption of that company by the Pennsylvania RR. Co., April 1, 1902, outstanding bonds to the amount respectively of $2,350,000 and $500,000, the same now appear upon the balance sheet. The Navy Yard bonds of the company for $1,000,000 having been cancelled, that reduction appears upon the balance sheet, and also a decrease of $94,466.66 in real estate mortgages and ground rents. The remaining $29,000 reduction represents consol. mtge. bonds redeemed by action of the sinking fund (see Sec. 19).

19. Sinking Funds.—Under the provisions of the consolidated mortgage, the sum of $402,100 was set apart out of the net income for the redemption of the outstanding bonds secured by that mortgage; $29,000 of the bonds issued thereunder were purchased and cancelled, and this reduction in funded debt appears in the balance sheet. The remainder of the sum was placed to the credit of the trustees of the sinking fund for investment under the terms of the mortgage. Their report shows the amount of $8,306,376.49, in securities and cash, in the fund for the redemption of the bonds.

The trustees of the sinking fund for the redemption of the trust certificates issued for the purchase of the shares of the capital stock of the Philadelphia, Wilmington and Baltimore RR. Co. were not able to purchase any of these certificates during the year. The total amount purchased and cancelled to Dec. 31, 1902, was, therefore, $2,298,000, leaving outstanding $7,702,000.

The trustees of the sinking fund for the redemption of the 4½ p. c. collateral trust loan were also unable to obtain any of these securities during the year at the limit fixed in the agreement. The amount of this loan outstanding Dec. 31, 1902, was $9,900,000.

Under the provisions of the 4 p. c. equipment trust gold loan, there was paid to the trustee during the year, for the sinking fund, the sum of $136,400. The trustee was unable to obtain any of the bonds at the price fixed in the lease, and, in accordance with the terms thereof, the amount has been invested in additional equipment.

In pursuance of the terms of the first mortgage of the Sunbury, Hazleton and Wilkesbarre Ry. Co., securing $1,000,000 of bonds due May 1, 1928, the sum of $5,000 was paid to the trustee to be applied to the redemption of these securities.

20. Securities of Other Corporations.—The entire cost of the securities of other corporations held by the Pennsylvania RR. Co. Dec. 31, 1902, was $225,948,825.75. The increase over last year is due mainly to a larger holding of the common stock of the Baltimore and Ohio RR. Co., resulting from an allotment made by that company, to the purchase of the stock of the Pennsylvania and Northwestern RR. Co., to investment in the stock of the Pennsylvania, New York and Long Island RR. Co., which is building the tunnel extension under the city of New York, and to the acquisition of additional securities upon roads embraced in the system. The direct revenue received from securities during the year was $8,118,860.65, which amounted to 3½ per cent. upon the cost thereof.

21. Car Trusts.—The issue of Car Trust securities made during the year consisted of $4,729,000 of certificates of Series "F," "G," "H," "I" and "K," Pennsylvania Equipment Trust, $10,000,000 of the Pennsylvania Steel Car Trust, being Series "A" to "K," and $590,000 of the Pennsylvania Steel Equipment Trust, all bearing interest at the rate of 3½ p. c. per annum. There will thus be furnished for The Pennsylvania RR. Co. 4,000 box cars, 2,960 long gondolas, 3,000 steel gondolas; for the Pennsylvania Co., 1,500 steel gondolas, 100 steel underframe long gondolas, 500 steel flat cars, 500 refrigerator cars; for the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co. 300 steel gondolas, 400 steel underframe long gondolas; for the Grand Rapids and Indiana Ry. Co. 85 refrigerator cars; for the Cincinnati and Muskingum Valley RR. Co. 200 steel gondolas; an aggregate of 13,545 cars. The exceptional demand for equipment referred to in the MANUAL for 1902, page 660, continued throughout the year, and it was necessary to arrange for the building of 12,000 additional cars for the lines in the systems, the greater portion of which will represent an increase in the regular equipment east and west of Pittsburgh.

The outstanding certificates of Series "A," "B," "C" and "D" of the Pennsylvania Rolling Stock Trust having matured during the year were paid and cancelled. These series covered 4,500 box, 54 long gondolas, 2,000 hopper gondolas, and 115 steel gondola cars in service on the Pennsylvania Railroad, representing in all 6,669 cars and a total cost of $4,000,000. These cars have therefore now become the property of The Pennsylvania RR. Co.

The Car Trust Series in existence at the beginning of the year were:

Pennsylvania Rolling Stock Trust, Series A, B, C, D, E, F, G, H, I, and K.
Pennsylvania Car Trust Series A, B, C, D, E, F, G, H, I, and K.
Pennsylvania Equipment Trust, Series A, B, C, D, E, and $271,000 of Series F.

Those issued during the year were:

Pennsylvania Equip. Trust, $4,729,000, being the remainder of Series F, and Series G, H, I, and K.
Pennsylvania Steel Car Trust, Series A, B, C, D, E, F, G, H, I, and K.
Pennsylvania Steel Equipment Trust, $590,000.

The total amount of certificates issued under the said series of the above Car Trusts was $40,590,000 00

The payments made on account thereof during the year were as follows:

Total amount expended for construction, equipment, and real estate during 1902........ $6,682,892 72

23. Capital Stock and Funded Debt of Western System.—In pursuance of the agreement of Sept. 1, 1897, between the Pennsylvania Co., the Pennsylvania RR. Co. and the Girard Trust Co., under which provision was made for an issue of $20,000,000 of the Pennsylvania Co.'s 40-year guaranteed 3½ p. c., gold trust certificates, secured by the deposit of an equal amount of the 7 p. c. guaranteed special stock of the Pittsburgh, Fort Wayne and Chicago Ry. Co., by the covenant of the Pennsylvania Co. and the guaranty of this company, an issue was made Dec. 1, 1902, of the remaining $5,000,000, being Series "C" of these securities. The proceeds of these certificates were used by the Pennsylvania Co. in the purchase of securities and for its other corporate purposes.

A sale was also made of $2,000,000 of the consolidated mortgage 3½ p. c. bonds, Series "E" of the Pittsburgh, Cincinnati, Chicago, and St. Louis Ry. Co., to reimburse its treasury for expenditures on capital account and in the redemption and cancellation of prior lien securities.

24. Sinking Funds, Western System.—No further redemptions could be made of the 4½ p. c. bonds secured by the $20,000,000 mortgage of the Pennsylvania Co., so that the amount outstanding at the close of the year was $19,467,000. Fifty thousand dollars of the 3½ p. c. Series "A" guaranteed trust certificates of that company secured by the deposit of Pittsburgh, Fort Wayne and Chicago Ry. Co. guaranteed stock as collateral, were redeemed under the terms of the trust, and the amount of that series outstanding at the close of the year was $4,900,000. Of the $10,000,000 of certificates of Series "B," $102,000 were redeemed, leaving the amount outstanding at the close of the year $9,898,000. Under the provisions of the 3½ p. c. gold loan of the Pennsylvania Co. of 1901, $1,334,000 of the certificates of that issue were drawn, of which all but $27,000 have been presented for redemption, leaving the amount outstanding at the close of the year $18,693,000.

The report made by the trustees of the sinking funds of the 1st and 2d mortgages of the Pittsburgh, Fort Wayne and Chicago Ry. Co. shows that they redeemed during the year $124,500 of the first mortgage and $111,000 of the second mortgage bonds, making the total amount redeemed to Dec. 31, 1902:

First mortgage bonds	$3,044,000 00
Second mortgage bonds	3,257,500 00

With a balance of cash in the hands of the trustees, uninvested, Dec. 31, 1902:

On account of first mortgage sinking fund	$1,110,909 65
On account of second mortgage sinking fund	1,339,570 34
Total	$2,450,479 99

Under the terms of the sinking fund provided for the redemption of the consolidated mortgage bonds of the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co., $417,000 of these securities were redeemed and cancelled; and $2,000,000 thereof having been issued as heretofore stated, the entire amount outstanding at the close of the year was $35,985,000.

Under the provisions of the sinking fund established for the redemption of the first mortgage 7 p. c. bonds of the Jeffersonville, Madison and Indianapolis RR. Co., one of the constituent organizations of the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co., $2,212,000 of those securities have been redeemed and cancelled to Dec. 31, 1902, leaving $731,000 outstanding. Five thousand dollars of the 2d mortgage 7 p. c. bonds of the same company, and $119,000 of the 7 p. c. bonds of the Columbus and Indianapolis Central Ry. Co. were also purchased and cancelled.

25. Acquisition of New Lines, Western System.—The Columbus, Sandusky and Hocking RR. having been sold under legal proceedings, the portion thereof lying between Columbus and Sandusky was purchased in this company's interest and now forms a part of the Toledo, Walhonding Valley and Ohio RR., which it intersected at Carrothers. The acquisition of this property gives the Pennsylvania Co.'s Toledo line the advantage of another lake terminal at Sandusky, and thus increases its facilities for handling the coal and other traffic interchanged at Columbus. In order to furnish in part the necessary funds to pay for the 110 miles of road thus acquired, the Toledo, Walhonding Valley and Ohio RR. Co. issued Sept., 1902, $1,492,000 of its 1st mortgage 40-year 4 p. c. bonds (Series "C"), making the total amount outstanding $3,970,000.

For the purpose of acquiring the Middletown and Cincinnati RR., 14 miles in length, which extended from the Little Miami RR. to a connection with the Cincinnati, Lebanon and Northern RR. and thence to Middletown, and of acquiring additional terminal facilities in Cincinnati, the latter company made an issue of $900,000 of its consolidated mortgage 40-yr. 4 p. c. bonds under date Nov. 1, 1902.

General Mortgage Bonds.—Secured by first mortgage upon the main line between Philadelphia and Pittsburgh and upon the equipment and appurtenances thereof. Authorized issue, $35,000,000. Of the bonds outstanding $13,488,820 are sterling coupon bonds, $2,000,000 are dollar coupon bonds and $4,509,000 are dollar registered bonds.

Consolidated Mortgage Bonds.—Secured upon the entire property and franchises of the company, subject to the lien of the gen. mtge. bonds on the property covered by that mortgage. The consols are a first lien upon the company's leasehold interest in the United RRs. of New Jersey, and are further secured by deposit of bonds and stocks of an estimated cost value of $54,025,301.16. All consols are equally secured under the same deed of trust, although issued at different periods. The authorized issue is $100,000,000. A sinking fund of 1 p. c. is provided, which is applied to the purchase of consol. mtge. bonds whenever they can be obtained at par or under, but if the bonds are above par, the fund is allowed to accumulate. Bonds of the 6 p. c. issue to the amount of $200,000 and bonds of the 4 p. c. issue to the amount of $29,000 were retired by action of the sinking fund during the year ending Dec. 31, 1902.

Collateral Trust Gold Bonds.—Secured by deposit of $13,845,000 bonds of subsidiary companies. The bonds are not liable to be drawn or compulsorily retired before maturity, but a sinking fund of 1 p. c., and interest on bonds redeemed will be applied each half year to their purchase if they can be obtained at or below par and interest. The total issue was $10,000,000, but $100,000 of the bonds have been retired by action of the sinking fund.

Equipment Trust Gold Bonds.—Secured by mortgage upon the equipment purchased with their proceeds. There is provision in the mortgage for a sinking fund of 5 p. c. per annum, to be applied to purchase of the bonds at par and accrued interest or, if bonds can not be obtained at that price, to the purchase of additional equipment to be added to the same trust.

P., W. & B. Stock Trust Certificates.—For the payment of these certificates the faith of the Pennsylvania RR. Co. is pledged and they are further secured by deposit of 240,000 shares of capital stock of the Philadelphia, Baltimore and Washington RR. Co. The dividends received on the 240,000 shares of P., B. & W. RR. stock, after providing for the interest on the outstanding certificates, may be applied as a sinking fund for their purchase whenever they can be obtained at a price not exceeding par and interest, any certificates thus purchased to be cancelled. The amount of certificates originally issued was $10,000,000, but $2,298,000 of them have been retired by action of the sinking fund.

Convertible Gold Bonds of 1902-1912.—These bonds were issued to provide the necessary funds for the purchase of 19,000 50-ton steel cars and 260 locomotives, at a total cost of $24,000,000; for the construction of the tunnel extension of the system into the City of New York, and the purchase of real estate for passenger stations, the expenditures for which purposes during the years 1902 and 1903 are estimated at $20,000,000; and for other corporate purposes. They are dated Nov. 1, 1902, and will mature on Nov. 1, 1912, but may be converted into capital stock of the company at the rate of $70 per share, at any semi-annual interest period, on thirty days' written notice to the company. $29,302,500 of them were thus converted as of May 9, 1903. The bonds are subject to redemption by the company at 102½ p. c. and accrued interest at any semi-annual interest period beginning with May 1, 1904, on ninety days' notice, but when so called for redemption they may, at the option of the holder, be converted, on the day named for redemption, into stock as aforesaid, at the rate of $70 per share, on thirty days' written notice to the company.

Sunbury and Lewistown Ry. Bonds.—Secured by first mortgage on the Lewistown Division, from Selinsgrove Junction to Lewistown, Pa., 44.74 miles, and on the branch from Lewistown to Milroy, Pa., 11.14 miles. Assumed by the Pennsylvania RR. Co. in the consolidation effective as of April 1, 1902.

Sunbury, Hazleton and Wilkesbarre Ry. Bonds.—Secured in the order of their priority on the main line of the Sunbury Division, from Sunbury to Tomhicken, Pa., 43.44 miles. The 1st mtge. bonds, designated Series "A," are provided with a sinking fund of $5,000 per annum, the total amount in which fund on Dec. 31, 1902, was $120,000. The payment of interest on the 2d mtge. bonds is contingent on the earnings of the line. Both issues were assumed by the Pennsylvania RR. Co. in the consolidation effective as of April 1, 1902.

28. Authority for Additional Issue of Bonds.—At the annual meeting held March 10, 1903, authority was voted for an issue of bonds not to exceed $50,000,000 in amount, and to be convertible at the option of the holder into capital stock of the company upon such terms as the directors shall prescribe, or if not so converted to be payable not later than ten years from date of issue. Funded debt is authorized to an amount equal to, but not exceeding, the amount of full paid capital stock of the company issued and outstanding at any time.

29. Guaranteed Bonds.—The Pennsylvania RR. Co. guarantees bonds of other companies as follows:

Allegheny Valley Ry.: $5,892,000 gen. gold 4s of March 1, 1942, guaranteed as to principal and interest; $9,998,000 Low Grade Div. 1st 7s (or 6 p. c. gold) of April 1, 1910, interest and principal to be purchased as they mature.

Grand Rapids and Indiana Ry.: $920,000 1st gold 3½s of July 1, 1941, and $4,455,000 1st gold 4½s of July 1, 1941. The Pennsylvania RR. Co. undertakes to purchase the bonds and coupons, in case of default, such bonds and coupons to be held as a debt against the company.

Harrisburg, Portsmouth, Mount Joy and Lancaster RR.: $700,000 1st 4s of July 1, 1913, guaranteed as to principal and interest.

Indianapolis and Vincennes RR.: $1,700,000 1st 7s of Feb. 1, 1908, guaranteed as to principal and interest.

Pennsylvania Company: $19,467,000 1st gold 4½s of July 1, 1921; $4,950,000 guaranteed 3½ p. c. trust certificates, Series A, of Sept. 1, 1937; $10,000,000 guaranteed 3½ p. c. trust certificates, Series B, of Feb. 1, 1941; and $16,000,000 gold debenture 3½s of Nov. 1, 1916. All four issues are guaranteed as to principal and interest.

Pennsylvania Schuylkill Valley RR.: $5,000,000 1st 3½s of Dec. 1, 1935, assumed as of April 1, 1902, on purchases of Schuylkill and Juniata RR.

Philadelphia and Erie RR.: $19,823,000 gen. mtge. gold bonds of July 1, 1920, of which $8,680,000 are 6s, $5,263,000 5s and $5,880,000 4s, all guaranteed as to principal and interest.

Philadelphia, Germantown and Chestnut Hill RR.: $1,000,000 1st 4½s of May 1, 1913, guaranteed as to principal and interest.

Pittsburgh, Fort Wayne and Chicago Ry.: $5,250,000 1st 7s of July 1, 1912; $5,160,000 2d 7s of July 1, 1912; and $2,000,000 3d 7s of July 1, 1912. Under the terms of the lease the 1st mtge. bonds and the 2d mtge. bonds are guaranteed as to interest and sinking fund payments, and the 3d mtge. bonds as to principal and interest, by the Pennsylvania RR. Co. By the assignment of the lease to the Pennsylvania Co. the latter became a guarantor to the same extent.

Ridgway and Clearfield RR.: $491,000 1st 5s of Nov. 1, 1923, guaranteed as to interest and sinking fund under the terms of the lease.

United New Jersey RR. and Canal Cos.: $20,000,000 gen. mtge. gold bonds as per appended statement for U. N. J. RR. & C. Cos. assumed and guaranteed both principal and interest.

Western Pennsylvania RR.: $4,000,000 consol. gold 4s of June 1, 1928, guaranteed as to principal and interest.

30. Property Included in Cost of Road and Equipment.—The total line charged in construction account for road between Philadelphia and Pittsburgh includes the Harrisburg, Portsmouth, Mt. 38. General Remarks.

The report of the Managers of the Trust created Oct. 9, 1878, shows that there has been paid to this Trust by the company to Dec. 31, 1902, the sum of $5,146,319.49, that on that date securities amounting at par to $11,546,230 were held in the Trust, and that the total income therefrom has been $9,049,640.20. There was appropriated to the Trust for the year 1902 the sum of $129,428.63, and the interest received on securities held in the Trust during the year averaged about 4.6 p. c. on their cost.

The statement of the Insurance Fund (see Sec. 31) shows assets on hand at the end of the year of $4,968,636.43, being an increase, as compared with 1901, of $105,032.81.

The membership of the Employees' Voluntary Relief Department of the Lines East of Pittsburgh and Erie aggregated 70,307 at the close of the year, being a gain of 10,637 members as compared with the previous year. The statement of the operations of the Fund (see Sec. 32) shows that during the year the members contributed $1,061,103.01, while the Pennsylvania RR. Co. and its affiliated lines paid $164,446.29 for operating expenses. The total receipts of the Department, including interest and other items, were $1,310,604, which, with $357,269.45, the balance on hand at the beginning of the year, made an aggregate of $1,667,873.45, out of which $467,883.59 was distributed as death benefits (being an average in each case of about $560.34), and $652,857.05 in cases of disability arising from sickness and accident. After meeting its obligations for the year, a balance of $382,686.52 remained to the credit of the Fund, from which must be paid unadjusted claims for benefits growing out of sickness or accident during 1902 and previous years. In addition to this balance there is a surplus which has accumulated during the life of the Fund, amounting to $751,256.25, which has been invested in securities yielding a return of 4 per cent. upon their cost.

The statement of the Employees' Saving Fund shows that the number of employees who availed themselves of its benefits continued to increase, there being 7,997 at the end of the year, a gain of 942 over the preceding year. The amount received from depositors during 1902 was $958,060 and the balance in the Fund, at the close of the year, was $3,408,250.50. Of this amount, $3,300,000 has been invested in securities, bearing interest at an average rate of over 3½ p. c.

The Pension Department is fully meeting the purposes of its organization, and its requirements are satisfactorily met by the increased appropriation thereto authorized at the meeting of the shareholders in March, 1902. During the year there were retired 133 employees who had reached the seventy-year limit, and 94 employees between sixty-five and seventy years of age, who had been over thirty years in the service and were incapacitated for further active work. Of the employees who had been formerly retired 131 died during the year, so that there are now carried on the rolls 1,017 employees over seventy years of age and 184 between sixty-five and seventy years of age. The amount of allowances paid during the year was $265,112.65.

In accordance with the announcement made at the annual meeting in March, 1902, that a large expenditure would be required for the increase of the equipment, and also for the construction of the tunnel line to connect the system by rail with the city of New York, and the erection of a centrally located passenger station in that city, and with the view of providing funds for these and other corporate purposes, the privilege was granted, on March 12, 1902, to the shareholders to subscribe in proportion to their holdings for $50,000,000 of 3½ p. c. 10-yr. convertible gold bonds of the company, bearing date Nov. 1, 1902. In addition to the right then given to the holders of these securities to convert the same into capital stock of the company on May 1, 1904, or at any subsequent semi-annual interest period, at $70 per share, it has since been deemed proper to give them the privilege of an earlier conversion on the same basis, under which they may surrender their bonds and become shareholders of record May 9, 1903.

The tunnel extension into New York commences at a point on the United New Jersey RR., about a mile east of Newark, whence a double-track road will be constructed by the Pennsylvania, New Jersey and New York RR. Co. on an elevated line to Weehawken, and thence by tunnel under Bergen Hill and the North River to a connection on the boundary line between the States of New York and New Jersey, with the line of the Pennsylvania, New York and Long Island RR. The latter company is to complete the line from that point under the North River, the city of New York, the East River and Long Island City, to a junction with the Long Island RR. near Thompson Avenue in that city. It will also make connection with the New York Connecting RR., and through it with the New York, New Haven and Hartford RR., and thus provide an all-rail passenger route between the Pennsylvania RR. System and New England.

The necessary authority from the States of New Jersey and New York for the prosecution of this enterprise was readily obtained, but the inception of the work was delayed by the inability to procure the requisite legislation from the municipal authorities of the city of New York. The franchise for this purpose, which was promptly granted by the Board of Rapid Transit Railroad Commissioners, had also to be approved by the Board of Aldermen, but it was only on the 16th of December, 1902, that that body took affirmative action. The application to the Board of Rapid Transit Railroad Commissioners covered the construction:

First.—Of a railway consisting of two double-track lines, starting from adjacent points under the Hudson River, on the line between the States of New York and New Jersey, and running eastwardly through New York city, one under 31st Street and the other under 32d Street, and thence under the East River and Long Island City to a surface terminus near Thompson Avenue in that city.

Second.—The construction of a terminal station between 31st and 32d Streets, and 7th and 9th Avenues, in New York, and for that purpose the closing and occupancy of 32d Street between the avenues named.

Third.—The construction of a third double-track railway from this terminal station under 33d Street and to and under the East River to the terminus near Thompson Avenue.

Fourth.—The construction of additional tracks on 31st, 32d, and 33d Streets necessary for the operation of the railway and station.

Fifth.—The occupancy of ground under 33d Street and east and west of 4th Avenue for a local station.

Sixth.—The maintenance and operation of the necessary cables, wires, and conduits under and along the route of the railway for power, heating, light, and other necessary purposes.

Seventh.—The right to use private property, lawfully acquired, for its corporate purposes in connection with the construction and operation of the tunnel; and

Eighth.—The right to maintain and operate the railroad in perpetuity.

The conditions under which the franchise was granted are—

First.—That the tunnel company shall begin the construction of its road within three months after obtaining the needful municipal and other consents, and complete its construction within five years thereafter, except the portion under 31st Street, as to which an additional ten years is given, with the option to the company to abandon the construction of that section, or build it in whole or in part during said period; but such period of five years may be extended for a further five years upon reasonable cause shown, and shall be extended so as to cover any delays properly caused by legal proceedings.

Second.—That the tunnel company shall pay the city a compensation per linear foot for the tracks so laid under the cities of New York and Long Island, and a further compensation for the use, for station purposes, of the underground portions of the streets, other than 32d, which it so occupies. Such compensation is fixed for the first period of twenty-five years, and is subject to readjustment at the end of each like period. For the first period of twenty-five years, it is so adjusted that the tunnel company pays double the amount per annum for the latter fifteen years thereof that it does for the first ten, and on this basis the average for the entire period will be about $64,000 per annum.

Third.—That the tunnel company shall also pay $36,000 per annum for the portions of 32d Street vacated between 7th and 9th Avenues and occupied by the passenger station, with the right to commute such annual compensation by payment of $788,600 as soon as the city is authorized to convey said property to the tunnel company in fee.

Fourth.—That the power to be used shall be electricity or other approved power not involving combustion in the tunnel.

A large proportion of the real estate required for the construction of the terminal station has been purchased, and the residue thereof will be acquired through proceedings in condemnation. The necessary consents are also being obtained from the owners of the property abutting on the streets under or through which the railway runs, and in default of such consents, the determination of Commissioners appointed under the law to grant the proper authority in lieu thereof will be secured. The engineering work is now [March 1, 1903] in progress and the actual construction will soon be inaugurated. It is believed that the location of the terminal station is such that it will permanently and satisfactorily accommodate the passenger traffic of the system, and it is intended that the building to be erected and the facilities to be furnished at that point shall fully correspond with the requirements of the service. It will be necessary to provide additional capital for the prosecution of this work after the expiration of the current year.

In the extraordinary expenditure for the year is included a large amount of work upon the Main Line and the United RRs. of New Jersey. The most important work upon the United RRs. of New Jersey was in connection with the elevation of the tracks through Newark and New Brunswick, and the revision of the line through Trenton, for the purpose of eliminating the grade crossings in those cities. The change of line at Trenton involved the construction of a new four-track stone arched bridge over the Delaware River at that point, and a corresponding change in the location of the tracks of the Philadelphia and Trenton RR. on the western side of the river.

The other main expenditures upon that Division were in the substitution of masonry and embankment for trestles on the Harsimus Branch, the rebuilding of the Grand Street pier at Jersey City, the prosecution of the terminal improvements at Greenville on the New York Bay RR., through the construction of the bulkhead, the dredging of the channel, and the filling in of the property at that point, for the accommodation of traffic to and beyond Long Island and to New York harbor; and the completion of the train shed and other facilities connected with the new passenger station at Camden, New Jersey, for the use of the Amboy Division and seashore lines.

Upon the Main Line large outlays were required in the improvement of the coal piers at Greenwich, and of piers and freight stations at other points on the Delaware River front at Philadelphia. The changes in the line at West Philadelphia, which have involved a large amount of difficult work, were completed in the early spring of 1903. The elevated west-bound passenger track, which eliminates the former grade crossing of the company's freight tracks and yards at 52d Street, is now in service, as also the undergrade crossing connecting the main tracks with the Schuylkill Division. The revision between the Broad Street Terminal Station and Powelton Avenue, which includes the abandonment of the passenger station at the latter point, the use of a new local and transfer station at 32d and Market Streets, and the substantial reconstruction of the West Philadelphia passenger yard, is being vigorously prosecuted. The tunnel connections between the New York Division, the Main Line, and the Philadelphia, Baltimore and Washington RR. are practically completed, as are also the two additional bridges over the Schuylkill River.

At Harrisburg, the passenger station has been enlarged and improved, and the undergrade crossing at Market Street completed. The new four-track stone arched bridge over the Susquehanna River, above Harrisburg, was put in service on March 30, 1902. Heavy expenditures were made on the new passenger line at Marysville and on the completion of the four-track system between Duncannon and Aqueduct, Lewistown, Narrows and Mifflin, and Mount Union and Mill Creek, on the Middle Division.

At Altoona the shops were further extended, but the heaviest expenditure at that point was on the extensive gravity yard for receiving and classifying westbound trains. Heretofore the proper classification of this equipment has been prevented by the limited capacity of the present yard, and congestion has resulted whenever there was a pressure of traffic. But through the facilities which will now be furnished, not only will this tonnage be handled more promptly on the Main Line, but through the making up of solid trains for Pittsburgh and points beyond, its movement will be expedited upon the western system. It is therefore believed that the exceptionally large outlay upon this yard is fully justified.

On the Pittsburgh Division, the work on the new single-track tunnel at Gallitzin was pushed forward, the four-track system completed between Wilmore and Summerhill, and the larger portion of the work on that system finished between Latrobe and Beatty and Larimer and Stewart. The improvement of the Port Perry bridge and tunnel was also prosecuted, with the view of better accommodating the traffic to and from the Pittsburgh, Virginia and Charleston Ry.

The Pittsburgh station, and other facilities connected with the passenger service at that point, with the exception of a small section of the train shed, have been completed, and are now in service.

The total amount of these expenditures during the year upon the Main Line between New York and Pittsburgh and the branches operated in connection therewith, including $7,466,185.35 for equipment and shop tools and machinery, was $25,874,276.37. Of this aggregate the sum of $8,374,276.37 was charged to capital account, $5,000,000 were supplied by the fund set aside in 1901, and $12,500,000 were charged against the income of the past year. Additional expenditures upon the branch roads amounting to $5,341,630 were met by the several companies out of their own resources.

On the branch and auxiliary lines the heaviest expenditure was upon the roads specially engaged in the bituminous coal and coke traffic.

On the Southwest Pennsylvania and South Fork RRs. additional sections of double track were constructed to accommodate their increasing traffic, and on the Cambria and Clearfield, Tyrone and

Clearfield, and Ebensburg and Black Lick RRs. branches and extensions were built and necessary additions made to the yard, siding and other facilities. On the Western Pennsylvania RR., the outlay was mainly on double tracks and sidings and on a connection with the new stock yards on Herr's Island near Pittsburgh.

For the purpose of further developing the coal territory along the Monongahela River, the Monongahela RR. is being constructed from Brownsville Junction to the State Line between Pennsylvania and West Virginia, in the joint interest of this company and of the Pittsburgh and Lake Erie RR. Co., with branches up Middle and Cat's Runs, and also up Brown's Run to a connection with the Southwest Pennsylvania Ry. and the Masontown and New Salem RR. The construction of this line will be completed in the early summer. But the main expenditure in the Monongahela Valley was on the Pittsburgh, Virginia and Charleston Ry., where the demands of the traffic necessitated the most liberal expenditure in the acquisition of additional real estate and right of way, and in the construction of four tracks and largely increased terminals on the south side of Pittsburgh. Through this work and the revision of line and construction of additional tracks at that point by the company's southwest line, the Pittsburgh, Cincinnati, Chicago and St. Louis Ry., and the improved approaches to the bridge over the Ohio River, which forms a connecting link between the northwestern and southwestern systems, a large portion of the heavy coal, coke, and other traffic passing between the Main Line and branches and the system west of Pittsburgh is now carried around that city on easy gradients and under much more favorable conditions for its prompt movement.

The Philadelphia, Wilmington and Baltimore and Baltimore and Potomac RR. Cos., of which two roads this company practically owned or controlled the entire capital stock, were on Nov. 1, 1902, merged and consolidated into a corporation, known as the Philadelphia, Baltimore and Washington RR. Co., thus placing under one ownership the line between Philadelphia and Washington. That company is now rebuilding its bridge across the Potomac River at Washington, and as soon as legislation pending in Congress takes definite shape, will proceed to the erection of a new passenger station at the National Capital, and the elimination of the grade crossings of this company's line in that city.

In accordance with action taken at the meeting in March, 1902, the Trenton Cut-off RR. and Schuylkill and Juniata RRs. were duly absorbed by this company under agreements dated respectively June 12 and Nov. 27, 1901, and taking effect April 1, 1902. In further pursuance of the same policy resolutions were adopted at the annual meeting, March 10, 1903, for the absorption of the following railroads which connect directly with the Main Line, and in which this company is the sole shareholder: Western Pennsylvania RR., South Fork RR., Turtle Creek Valley RR., West Chester RR., Downingtown and Lancaster RR., and Riverfront RR. The Western Pennsylvania RR. diverges from the Main Line at a point about two miles west of Johnstown, and is also connected therewith further west, at Bolivar, and Blairsville Intersection. It furnishes the low grade line over which a large portion of the company's through traffic passes to and from the Pittsburgh, Fort Wayne and Chicago Ry. and other roads in the system northwest of Pittsburgh. The South Fork RR., which was created by the consolidation of that line with the Scalp Level RR. on Jan. 1, 1902, was built to develop a valuable coal territory on the western slope of the Alleghany Mountains. The West Chester, Turtle Creek Valley, and Downingtown and Lancaster RRs. are branches built to develop local territory. The Riverfront RR. is a short line, which furnishes valuable terminal facilities for the company's traffic along the Delaware River front of the city of Philadelphia. The consolidation of these roads with the Main Line will save unnecessary accounting, and is in the direction of economy and efficiency.

A further issue was made of the company's capital stock to the extent of $978,950, for the purpose of acquiring, on satisfactory terms, the stock of the Pennsylvania and Northwestern RR. Co. This road connects with the Main Line at Bellwood, and extends thence in a northwesterly direction towards the Punxsutawney District and the Allegheny Valley Ry., and develops a valuable coal territory tributary to the system. Its ownership by this company also enables this line to be used advantageously for the movement of the coal traffic originating on its other roads in the same district.

An additional amount of $123,800 of capital stock was issued in payment for stock of the Philadelphia, Wilmington and Baltimore RR. Co., and in the conversion of dividend scrip, making the total increase during the year $1,102,750.

The charges to capital account during the year were as follows:

Cost of Road: Being extraordinary expenditures in extension of four-track system, construction of additional tracks, new lines, yards, and terminal facilities	$4,781,130 65
Real Estate	415,133 72
Equipment: Locomotives, $2,713,012; Car Trust equipment, $465,000	3,178,012 00
	$8,374,276 37
Cost of Schuylkill and Juniata RR., absorbed April 1, 1902	16,496,546 26
Cost of Trenton Cut-off, absorbed April 1, 1902	61,042 50
Total charges to Capital Account for the year 1902	$24,931,865 13

The charges to capital on account of the Schuylkill and Juniata and Trenton Cut-off RRs. mainly represent a transfer on the balance sheet from the "Cost of Securities" to "Cost of Road."

In accordance with the requirements of the laws of the State of New York, the necessary notice has been given to the shareholders of this company and the Western New York and Pennsylvania Ry. Co. in order that the lease of the latter road to this company for a period of twenty years may be duly authorized.

The $1,000,000 of 6 per cent. bonds of the Belvidere Delaware RR. Co. originally issued June 1, 1852, and extended in 1877 for 25 years, having matured June 1, 1902, were paid off through the proceeds of a like amount of its 3½ p. c. consolidated mortgage bonds, running for 40 years from Jan. 1, 1903, and guaranteed principal and interest by the United New Jersey RR. and Canal Co.

The contract with the Western Union Telegraph Co., under which the use of a portion of this company's right of way was granted to it for its telegraph lines having terminated, a contract was entered into between this company and the Postal Telegraph-Cable Co., on July 1, 1902, for the term of 15 years, under which a larger compensation and more advantageous terms are assured to the system for the privileges granted.

The remarkable development of business throughout the country, and particularly in the sections served by this company's lines, created during the past year a demand for transportation which could not be supplied. For although the traffic carried over the roads composing this system east and west of Pittsburgh aggregated nearly 270,000,000 tons, being an increase of 26,000,000 tons, or more than 10 per cent. over the previous year, the necessities of the industries dependent upon this company's lines demanded a much larger movement. The inability to accommodate these industries was due mainly to lack of track and yard facilities. There were cars and locomotives enough to have moved a much larger traffic and possibly to have provided the transportation required if the movement had been free, but owing to the overcrowding of the running tracks and yards, it was impossible to use the equipment to its full capacity. It has been the policy of the management for years past to continuously increase these facilities so as to keep them up to the demands of the traffic; but although heavier expenditures have been made for this purpose since the beginning of the present period of business activity than ever before in the same time, the exceptional growth of the tonnage has outstripped the facilities that it was practicable to create.

The duty which the company owes to the public, as well as to the shareholders, clearly requires that the lines should be put in a condition to supply the legitimate demands of shippers. To do this, on a scale justified by past experience, will involve a large outlay, for it is clear that on some of the company's lines the limit of the capacity of the running tracks and yards has been reached. This is particularly true of the Main Line between Pittsburgh and Philadelphia, where the traffic has become exceptionally dense. The ton mileage of the Main Line, excluding branches, amounted to over 8,500 millions of ton-miles, and the density to 23,764,530 ton-miles for each mile of road. The earnings from freight traffic alone were $116,478.96 per mile, and the total earnings $149,127.88 per mile.

After careful consideration, the management decided upon the following improvements as absolutely necessary to promptly and economically handle the present volume of traffic, and meet the demands of the next few years of active growth:

First.—The building of a new connection, known as the Brilliant Branch, between the Main Line at East Liberty and the Allegheny Valley Ry. at Brilliant and the Western Pennsylvania RR. at Aspinwall, and the construction of a steel viaduct between the tracks of the Port Perry Branch and the Main Line at Brinton. These improvements will facilitate the interchange of traffic between the Pittsburg, Virginia and Charleston Ry., the Main Line, the Allegheny Valley and Western Pennsylvania RRs., and will complete the final links in a belt line around Pittsburgh. The passenger trains of the Allegheny Valley and Western Pennsylvania RRs. will be run into Pittsburgh Station by way of the Brilliant line, thus leaving the tracks of both roads west of their junction with that line exclusively for the movement of freight. Two large freight yards will be built respectively at the junction of this line with the Allegheny Valley Ry., and at Sharpsburg, the latter for interchange of traffic between the Western Pennsylvania RR. and the Pittsburgh, Fort Wayne and Chicago Ry. and to serve the local industries in Allegheny City. Another yard will be built on the site of the old stock yards at East Liberty for the classification and distribution of Pittsburgh local freight. The Western Pennsylvania RR. will be four-tracked west of the junction of the Brilliant line and will be elevated through Allegheny City to a connection with the Pittsburgh, Fort Wayne and Chicago Ry. An elevated double-track railroad will be built from the Main Line in Pittsburgh, along Duquesne Way, to connect with a freight station to be erected upon property already secured for that purpose west of 3d Street. This line will also afford a connection with the present Duquesne Station at the Point, and will permit of the removal of the tracks now at grade on Liberty Street, Pittsburgh. Large extensions will be made to the yard at Shire Oaks on the Pittsburgh, Virginia and Charleston Ry., and to the Ormsby yard in South Pittsburgh, and a new yard will be built at Thomson to serve the adjacent steel works. These improvements will add greatly to the facilities in the Pittsburgh district and will, it is hoped, relieve the chronic state of congestion which has existed there for the past two years.

Second.—The double-tracking of the Western Pennsylvania RR. and the reduction of its grades eastbound to 15.8 feet per mile.

Third.—The building of a new low-grade four-track line from Radebaugh tunnel, near Greensburg, on the Pittsburgh Division, to Millwood, east of Derry, a distance of nineteen miles, and the completion of the four-track system on that Division.

Fourth.—The construction of a double-track railway, via the roadbed of the New Portage Road, between the east end of the Gallitzin tunnel and Hollidaysburg, a distance of seventeen miles, and the double tracking of the Petersburg Branch, thus furnishing an alternate line about 50 miles in length between the summit of the Alleghany Mountains and Petersburg in the Juniata Valley.

Fifth.—The building of a large classification yard at Hollidaysburg, and another at Fairview on the Northern Central Ry., on the opposite side of the Susquehanna River from Harrisburg. Experience having shown that yards may become too large for the prompt and economical movement of traffic, these new yards will be used for coal, coke, and limestone, and through the relief thus afforded, the Altoona and Harrisburg yards will be amply sufficient for the general merchandise traffic.

Sixth.—The building in connection with the four-tracking of the Northern Central Ry. between the new Fairview yard and York Haven, of a new double-track low-grade railroad about 95 miles in length from the latter point, via Columbia, to Philadelphia. This line will cross the Susquehanna River by a stone arched bridge near Shocks', will utilize 5 miles of the Columbia and Port Deposit RR. from Columbia to Cresswell, where the new line leaves the Susquehanna to enter the valley of the Pequea, will run thence to the Main Line at Parkesburgh, which it will follow from Parkesburgh to Thorndale, and parallel it from Thorndale to Paoli, while the Main Line between Paoli and Philadelphia will be six-tracked.

Seventh.—The construction of a double-track elevated freight railroad through the West Philadelphia yards between the Main Line at 36th Street and the Delaware Extension and the Philadelphia, Baltimore and Washington RR. In this way coal trains will be run through between Fairview and Greenwich, on the Delaware River, and traffic between the Philadelphia, Baltimore and Washington RR. and the New York Division may be handled directly between the Shellpot yard, north of Wilmington, and Harsimus yard on the Hudson River, without detention at West Philadelphia.

The grades on the Trenton Cut-off between Glen Loch and Morrisville will be reduced from 29 to 15.8 feet per mile, the New York Division between Trenton and Newark will be six-tracked and the grades reduced to the same maximum, and the line through Frankford, Bristol, and Rahway straightened and elevated. A receiving and classification yard will also be built west of Frankford Junction, Philadelphia, to admit of solid trains for that section being made up at Harrisburg and run without stop through the West Philadelphia yard.

When these improvements shall have been completed, the maximum grade against the eastbound traffic, between Pittsburg and Jersey City by way of the Western Pennsylvania RR., will be reduced to 15.8 feet per mile, with the exception of the western slope of the Alleghany Mountains between Conemaugh and Gallitzin, a distance of 24 miles, where the grade is 52.8 feet per mile, and where the use of helping engines will have to be continued. On the Main Line between Radebaugh and Derry the opposing grade eastbound will also have been reduced from 52.8 to 15.8 feet per mile, so that it will be necessary on that end of the Pittsburgh Division to use assisting power only as far as Radebaugh.

The estimated cost of the improvements east of Pittsburgh for which the company will have to provide the means, and which will require from two to three years to complete, is as follows:

For the Brilliant Branch, the Sharpsburg, Brilliant, Shire Oaks, Ormsby and other yards, the connection between the Port Perry Branch and the Main Line at Brinton, the elevation of the Western Pennsylvania RR., the extension of the elevated railroad along Duquesne Way, and the cost of the new freight station at the Point, etc..	$9,500,000
For the new line between Radebaugh and Derry, and the completion of the four-track system on the Pittsburgh Division	13,000,000
For the double-tracking of the Western Pennsylvania RR. and other improvements thereon	2,000,000
For the new line on the New Portage roadbed, double-tracking the Petersburg Branch, and the Hollidaysburg yard	5,000,000
For completing the four-track system on the Middle Division and other improvements on that Division	3,000,000
For the new line between York Haven and Parkesburgh and Thorndale and Paoli, and two additional tracks between Paoli and Philadelphia	18,000,000
For the extension of the West Philadelphia yard, the elevated railroad connecting the Maryland Division and the Delaware Extension with the Main Line and the New York Division, and for other facilities in West Philadelphia	3,000,000
For reducing the grades on the Trenton Cut-off	1,500,000
For two additional tracks, making six running tracks in all, between Trenton and Newark, changes of line at Frankford and Bristol, elevating the road through Rahway, completing the elevation at Newark and New Brunswick and the change of line at Trenton, and other improvements on the New York Division	12,000,000
Total	$67,000,000

Extensive improvements will also be required on the leased lines west of Pittsburgh, a part of the funds for which will have to be supplied by this company. In addition to double tracking material portions of the existing roads, it is proposed to proceed at once with the construction of a new line about 60 miles in length between a point on the Fort Wayne Road near Enon and Red Bank, Pa., where it will connect with the Allegheny Valley Ry. This road will form, with the Low Grade Division of the Allegheny Valley Ry., the Philadelphia and Erie RR., and the Northern Central Ry., a low grade line from the West to Harrisburg, only 28 miles longer than the present line via Pittsburgh. Over this route the through traffic of the Pittsburgh, Fort Wayne and Chicago and Cleveland and Pittsburgh Roads can be moved without passing through Pittsburgh, and additional relief thus be afforded to the congested tracks in that district. For such portion of the capital expenditure west of Pittsburgh as this company may supply to the Pennsylvania Co., it will be reimbursed through the dividend-paying stock or other securities of that company.

In addition to the above expenditures, and to those required for equipment and for the work upon the tunnel line into New York, large outlays will be required upon the Philadelphia, Baltimore and Washington RR., the Northern Central Ry., and the Pittsburgh, Virginia and Charleston Ry., the means for which will be provided by those companies.

In this connection it may be well to call attention to the fact that the charges to capital account for the construction of tracks and roadbed in recent years have been comparatively small. From 1897 to 1902 inclusive, a period of five years, the increase in Cost of Road was only about $6,000,000, or a little over 11 per cent., for improvements of the character referred to, they having been substantially paid for out of Income, while the tonnage of the Main Line and branches has increased during the same time from about 47,000,000 to over 77,000,000 tons, or about 64 per cent., and while its Gross Earnings for the same period have increased from about $38,000,000 to $68,000,000, or nearly 80 per cent., and its Net Earnings from about $14,000,000 to $25,000,000, or over 78 per cent.

It will require from two to three years to complete these improvements, but the Board decided that the money needed should be provided in advance. As the law of Pennsylvania requires a vote of the majority of the outstanding stock to increase either capital stock or indebtedness, and as there is always difficulty in securing such a representation, owing to the capital stock being held by about 29,000 persons residing in this country and abroad, the approval of the stockholders was secured at the annual meeting in March, 1903, for an increase in the authorized stock to a total of $400,000,000, an amount sufficient to provide for the probable wants of the company for some years to come. The Board of Directors only propose to issue at this time the amount needed to provide for the improvements hereinbefore referred to; and no further issues will be made except for such purposes as the stockholders shall approve.

In the annual report for the year 1899 reference was made to the acquisition of interests in other railroads and to the good results which it was hoped to attain thereby, and the expectations of the Board in this respect have been more than realized. It is confidently believed that the results achieved, and the fact that it has been proven to be possible to carry on the business of the railroads under a strict adherence to tariff rates, as well as the determination shown by the Government authorities and the Courts to enforce the law (in which effort they will have the active assistance of all conservatively managed railroads), will prevent a return to old methods. The doing away with unjust discriminations and preferences between shippers, and the placing thereby of the transportation business of the country upon a stable basis, cannot fail to bring about better relations between the public and the railroad companies, and must also add largely to the value of railroad investments and to the security of the business interests which are dependent upon railway transportation. The management having accomplished what it sought to attain by the policy referred to, and having completed the investments then contemplated, it is believed that further acquisitions of this character will be unnecessary.

39. Railroads Absorbed by the Pennsylvania RR. Co. on April 1, 1903.

DOWNINGTOWN AND LANCASTER RR.—Downingtown to Conestoga Junc., 37.58 m.; total track (steel, 41.15 m.), 41.27 miles.

HISTORY.—Reorganization, July 30, 1888, after foreclosure, June 7, 1888, of the East Brandywine and Waynesburg RR. Co. (See Manual for 1893.)

Operated by the Penn. RR. Co. under authority of resolutions adopted by Board of Directors, dated from Aug. 1, 1888, and terminable on 30 days' notice; rental, net earnings. Absorbed by the Pennsylvania RR. Co., by consolidation effective April 1, 1903.

INCOME ACCOUNT.—Deficit, year ending Dec. 31, 1902, $10,464. Expenses and taxes, $3,935. Interest on bonds, $12,000. Total deficit for year, $26,340.

BALANCE SHEET, Dec. 31, 1902.—Capital stock, $405,650; funded debt (1st 4s of April 1, 1930), $300,000; interest accrued, $3,000—total, $708,650. Contra: Cost of road, $702,850; stocks and other investments, $4,639; profit and loss, $1,161—total, $708,650.

RIVER FRONT RR.—Lehigh Ave. to Dock Street, Philadelphia, 3.62 m.; branch to Norris St., 0.76 m.; branch to Laurel St., 0.24 m.—total, 4.62 m.; total track (steel), 13.37 miles. Rail, 56 to 88 lbs.

HISTORY.—Chartered May 5, 1876; road opened in 1882. Leased to the Penn. RR. Co. for 50 years from May 1, 1882; rental, $28,000 per annum and taxes. Absorbed by the Pennsylvania RR. Co., by consolidation effective April 1, 1903.

INCOME ACCOUNT.—Rental, year ending Dec. 31, 1902, $33,611. Expenses and taxes, $5,611. Net income, $28,000. Payments: Interest on bonds, $12,900; dividends (5 p. c.), $15,000—total, $27,900. Surplus, $100.

BALANCE SHEET, Dec. 31, 1902.—Capital stock ($50 shares), $300,000; funded debt (1st mtge. reg. 4½s of May 1, 1912), $212,000; interest accrued, $1,590; profit and loss, $33,890—total, $547,480. Contra: Cost of road, $541,213; other assets, $6,267—total, $547,480.

SOUTH FORK RR.—South Fork to Ashtola, Pa., 20.71 m.; sundry branches, 24.23 m.—total, 44.94 m.; total track (steel; 67 to 75 lbs.), 84.71 miles.

HISTORY.—Chartered July 2, 1890; road opened Aug. 15, 1891, and operated from that date by the Penn. RR. Co., under an agreement terminable on thirty days' notice; rental, net earnings. Canal owned: Bordentown to New Brunswick, and feeder, 66 miles. The United New Jersey Railroads, extending from Camden to Amboy, and from Trenton to Jersey City, with branches and connections, a distance of 468.79 miles; Hudson River Ferries, 1 mile and canal from Bordentown to New Brunswick and feeder, 66 miles, are operated as the United Railroads of New Jersey Division of the Pennsylvania RR. Co.

HISTORY.—The Delaware and Raritan Canal Co. and the Camden and Amboy RR. Co. were both chartered Feb. 4, 1830, the former to construct a canal to connect the Delaware and Raritan Rivers, and the latter to build a railroad from the Delaware River to Raritan Bay. In Feb., 1831, an act was passed authorizing the consolidation of the capital stocks of these two companies; they were thus practically consolidated, although nominally distinct corporations. Their affairs were managed jointly by the directors of both, and they were to share equally in profits. Under this joint management the construction of the works was begun. The main lines of the railroad and canal were completed in 1834, and the branches in 1838. In 1836 the joint companies acquired a controlling interest in the stock of the Philadelphia and Trenton RR. Co., and entered into an agreement with that company for an equal division of their joint profits. In Jan., 1867, an agreement was entered into between the United Cos. and the New Jersey RR. and Transportation Co., which owned the line between New Brunswick and Jersey City, forming a link in the through New York-Philadelphia route, for a consolidation of interests; and under this agreement the profits were equally divided between the four companies—the Delaware and Raritan Canal Co., the Camden and Amboy, the New Jersey, and the Philadelphia and Trenton Ry. Cos. On June 30, 1871, the entire property was leased to the Pennsylvania RR. Co. for 999 years, the lessee receiving all assets and assuming all obligations, and guaranteeing to the United Cos. an annual rental equal to 10 p. c. on the aggregate capital stock, and an equal rate of dividends to the Philadelphia and Trenton.

INCOME ACCOUNT, year ending Dec. 31, 1902.—Gross earnings, including Delaware and Raritan Canal, $26,582,639; expenses, railroad and canal, $18,840,271; net earnings, $7,742,368. Add interest from investments and other income, $253,543—total income, $7,995,911. Paid interest on bonds, on mortgages, and ground rents, organization expenses, etc., 10 p. c. dividends (paid Jan., April, July and Oct.), $7,937,249. Net profit to lessee, $58,661.

BALANCE SHEET, Dec. 31, 1902.—Capital stock (including fractional installments outstanding, $227.50; premium, $750,000), $21,990,627; funded debt (including overdue bonds), $20,001,625; bonds and mortgages, $463,143; advanced by Penn. RR. Co., $197,682; expended by Penn. RR. Co., real estate, construction, etc. (net), $16,712,262; premiums and discount, $46,848; balance of assets over liabilities, $472,455—total, $59,884,642. Contra: Cost of railroads, canals, real estate, equipment, etc., $52,895,485; stocks, $4,320,649; bonds, $1,105,600; advances, $494,136; other properties, $380,777; cash and cash items, $509,821; due by Penn. RR. Co., $178,174—total, $59,884,642.

41a. Leased and Operated Railroads Consolidated since Dec. 31, 1902.

CAMBRIA AND CLEARFIELD RY.—Consolidation, June 25, 1903, of the Pennsylvania and Northwestern RR. Co., the Millersburg RR. Co., the Cambria and Clearfield RR. Co., the Cresson and Irvona RR. Co., the Ebensburg and Black Lick RR. Co. and the Tyrone and Clearfield Ry. Co. The Millersburg RR. Co. was chartered Sept. 13, 1899, and built a line of railroad from Anita, Pa., to Schaller Coal Mines, a distance of 1.4 miles. Particulars as to the other parties to the consolidation will be found in the separate statements for them, appended hereto. The following statement shows for the several constituent companies the mileage owned by them at the date of consolidation, the amount of their capital stocks outstanding and the amount of stock of the consolidated company exchanged therefor; also their outstanding funded debts on the date of the consolidation:

	Miles Road.	Capital Stock.	New Stock Issued in Exchange.	Funded Debt.
		$	$	$
Penn. & Northwestern RR. Co.	77.24	2,250,000	1,687,500	2,247,000
Millersburg RR. Co.	1.40	20,000	13,087	....

The authorized capital stock of the consolidated company is $9,170,000 (in $50 shares), being the aggregate of the authorized capital stocks of the constituent companies. The balance of $4,634,000 remaining after the completion of the exchanges is reserved for the future use of the company; and it is provided that the authorized capital stock may be increased from time to time as needed. The consolidated company assumes the funded debts of the Pennsylvania and Northwestern RR. Co., Cambria and Clearfield RR. Co. and Tyrone and Clearfield Ry. Co. and $10,000 of the bonds of the Ebensburg and Black Lick RR. Co. It was provided that the remaining $340,000 bonds of the Ebensburg and Black Lick RR. Co. and the $500,000 bonds of the Cresson and Irvona RR. Co. should be retired in the consolidation. Provision has been made for an issue of $7,500,000 4 per cent. 50-year bonds to provide for the payment of the outstanding bonds of the constituent companies at or before their maturity.

1. History.—Chartered April 24, 1834; main line opened to Greenport, July 19, 1844. The other lines were acquired from time to time, by consolidation or otherwise, as shown in the MANUALS for 1888 and subsequent years. In May, 1900, the Pennsylvania RR. Co. acquired the control of this company through purchase of a majority of the capital stock. The property is operated independently by its own organization but under the general management of the Pennsylvania RR. Co.

On April 8, 1901, the Governor of the State of New York approved an act of the Legislature amending the original Atlantic Avenue Improvement Act so as to permit the work to proceed, and it is now under way. It is estimated this will cost $2,500,000, of which amount the City of New York will pay one-half. Ninety-one highway or foot grade crossings and nine electric railroad grade crossings will be eliminated by this improvement, and greater speed and safety will thereby be assured.

On July 24, 1902, the Board of Rapid Transit Commissioners of the City of New York awarded a contract to the Interborough RR. Co. to construct a subway and tunnel from

City Hall, New York, to Flatbush Avenue, Brooklyn, as an extension of the New York subway. The completion of this work, within three years, together with the completion of the Atlantic Avenue Improvement of the Long Island RR. Co., will provide a convenient and satisfactory route for Long Island passengers to and from Lower Manhattan Island.

The application for a franchise for the Long Island Extension RR. Co., to which reference was made in the MANUAL for 1902, has been withdrawn, the Pennsylvania RR. Co. having secured a franchise to build two single-track tunnels from its lines in New Jersey to a large central station to be located at Thirty-third Street and Seventh Avenue, Manhattan, and thence to Long Island City, with four single-track tunnels to a connection with the Long Island RR. It is intended that this tunnel shall also be used by the Long Island RR. Co.

Absorption of Leased Lines.—The Montauk Extension RR., the New York Bay Extension RR. and the Great Neck and Port Washington RR., shown as leased lines in the preceding statement, were merged with the Long Island RR. on Aug. 29, 1902.

The company controls the Prospect Park and Coney Island RR., by ownership of capital stock. The Prospect Park and Coney Island RR. is leased for 999 years from June 17, 1899, to the Brooklyn Heights RR. Co., a company controlled by the Brooklyn Rapid Transit Co., statement for which see.

The Long Island RR. is connected with the Brooklyn Elevated RR. by means of inclines at the Flatbush Avenue Station and at Chestnut Street, Brooklyn; and under a contract with the Brooklyn Elevated RR. Co., made in April, 1898, and to endure for fifty years, there is through train service from the Broadway Ferry, Brooklyn, to Rockaway Beach and to Jamaica, and from the Brooklyn Bridge to Coney Island and to Jamaica.

Besides its railroads the company operates ferry lines between Long Island City and the city of New York (Manhattan Borough), and controls the Montauk Steamboat Co., which operates a line of boats between New York City and North Shore points, and between Sag Harbor, Greenport, and New London. Also, the company owns the Huntington RR., Northport Traction, Nassau County Ry. and Ocean Electric Ry. trolley lines, whose statements will be found elsewhere in the MANUAL. (See GENERAL INDEX—STREET RAILWAYS.)

30, 1902, were held in reserve for the following purposes: $1,765,000 for the retirement, at maturity, of the $1,500,000 5 p. c. debentures of June 1, 1934, issued by the Long Island RR. Co.; $23,325,000 for the retirement of all prior liens on lines owned, leased, and controlled; $1,250,000 to provide for the company's one-half of the cost of Atlantic Avenue Improvements in the Borough of Brooklyn; $1,000,000 to provide for the cost of the abolition or change of grade crossings; $8,000,000 to provide for a change of motive power in case such change be deemed desirable by the company, the remaining $3,300,000, together with any of the bonds reserved for the purposes before mentioned, but not so used, to be issued at the rate of $400,000 per annum for permanent betterments and improvements and the acquirement of additional property. (See MANUAL for 1899, page 1418.) It is provided that all securities acquired by use of unified bonds shall be held by the trustee as additional security for these bonds, and that all property acquired by use of the bonds shall be subjected to the lien of the unified mortgage. The real estate mortgages (see general balance sheet) are held alive by the trustee under this mortgage. The company reserves the right to redeem any or all of the unified mtge. bonds, on any interest day, at 110 p. c. and accrued interest.

Long Island RR. Ferry Bonds.—The Metropolitan bonds are secured by first mortgage on the real and personal property formerly of the Metropolitan Ferry Co. (34th St. and James Slip Ferries). The company has the right to redeem any or all of the bonds at any time at 110 p. c. and accrued interest, or may purchase any or all of them at any time at or below the price stated. The Long Island Ferry 1st mtge. bonds are a direct obligation of the Long Island RR. Co., and are additionally secured by a purchase money mortgage on the property covered by the Metropolitan bonds, but subject to the lien thereof. The authorized issue is $2,750,000, of which $1,250,000 is reserved for the retirement of the Metropolitan issue. The interest on both issues of L. I. RR. Ferry bonds, amounting to $129,730 per annum, is paid out of the earnings of the ferries, and is not included in the amount shown in the Income Account as interest paid on the funded debt.

Stewart Line Mortgage Bonds.—Issued in the purchase of the Stewart RR. The authorized issue is $500,000, the trustee under the mortgage retaining the remaining $168,000. These will be issued only for double tracking and other important improvements.

Brooklyn and Montauk Bonds.—Secured on the lines from Brooklyn to Eastport, from Valley Stream to Rockaway Beach, and from Fresh Pond to the junction with the New York and Flushing RR.; in all, 76.43 miles. The rate of interest on the 1sts was originally 6 p. c., but after $250,000 of the bonds (1 to 250) had been issued, the rate was reduced to 5 p. c. All the bonds are guaranteed by the Long Island RR. Co., both principal and interest.

New York and Flushing Bonds.—Secured by first mortgage on the branch from Long Island City to N. Y. & F. Junction, 2.29 miles. The Long Island RR. Co. assumes payment of principal and interest.

Long Island City and Flushing Bonds.—Secured in order of priority on 15.84 miles of road, as follows: Long Island City to Main Street in Flushing, 7.85 miles; Woodside to Bridge Street in Flushing, 3.99 miles; and Whitestone Junction to Whitestone, 4 miles. The Long Island RR. Co. assumes payment of both issues, principal and interest. The authorized issue of consols is $1,250,000, of which $650,000 is reserved for the retirement of the 1st mtge. bonds.

8. Guaranties.—The Long Island RR. Co. guarantees, both as to principal and interest, $1,726,000 1st consol. 5s of the New York, Brooklyn and Manhattan Beach Ry.; $1,425,000 1st 5s of the L. I. RR., North Shore Branch; $600,000 1st 5s of the Montauk Extension RR.; $600,000 1st 5s of the New York Bay Extension RR.; $984,000 1st 5s of the New York and Rockaway Beach RR.; $340,000 1st 4½s and $96,000 of the 2d 4½s of the Prospect Park and Coney Island RR. It also guarantees the interest on $250,000 1st 7s of the New York and Rockaway RR., and guarantees as rental, or part rental, dividends of 5 p. c. per annum on the $650,000 preferred capital stock of the New York, Brooklyn and Manhattan Beach Ry., and dividends of 4½ p. c. per annum on the $50,000 capital stock of the Prospect Park and South Brooklyn RR., and on the $82,500 capital stock of the New York and Coney Island RR. (See separate statements for the companies named, appended hereto.)

NEW YORK AND ROCKAWAY RR.—Rockaway Junction to Far Rockaway, N. Y., 5.46 m.; 2d track, 4.11 m.; total track, 10.9 miles.

HISTORY.—Chartered Sept. 2, 1871; road leased to the Long Island RR. Co. in 1871. The rental to be paid was the interest on the outstanding 1st mtge. bonds of the lessor company. This rental was paid, not to the lessor, but to the holders of the bonds. The Long Island RR. Co. owns practically all of those bonds. Apparently no stock was ever issued by the lessor company, but for all payments made on account of subscription to stock the Long Island RR. Co. holds all the certificates of payment endorsed by the subscribers. The organization of the company does not appear to have been maintained. It has no directors or officers, no books of account, nor has it any office, as far as can be discovered. The railroad of the company between Rockaway Junc. and Springfield Junc. is in possession of the L. I. RR. Co.

FINANCIAL STATEMENT.—Capital stock ($100 shares), $40,000; funded debt (1st 7s of April 1, 1871), $250,000. Interest on bonds guaranteed by the Long Island RR. Co.

1. History.—Consolidation, Dec. 9, 1854, of the Baltimore and Susquehanna RR. Co., York and Maryland Line RR. Co., York and Cumberland RR. Co., and Susquehanna

RR. Co. (see MANUAL for 1885, page 261). The main line reaches the Elmira and Williamsport RR. and its northern extension by using, under a traffic arrangement, 40 miles of the Philadelphia and Erie RR. between Sunbury and Williamsport. The Shamokin Valley and Pottsville RR. and the Elmira and Williamsport RR. were leased in 1863, for 999 years. The Elmira and Lake Ontario RR. Co. is controlled through ownership of its entire capital stock. The York and Rockville Branches of the Pennsylvania RR. and the York, Hanover and Frederick RR. are operated under contracts. The operation of the York Branch and of the York, Hanover and Frederick was assumed as of June 1, 1902. The Lykens Valley RR. is operated at a rental of $35,000 a year, the agreement being terminable on sixty days' notice by either party. A traffic contract with the Stewartstown RR. Co. secures to this company all traffic controlled by the former and destined to and from points on this company's main line and its connections. A controlling interest in the capital stock of this company is owned by the Pennsylvania RR. Co., but the property is operated independently by its own organization.

3. Coal Tonnage.—The aggregate movement of bituminous coal during 1902 was 3,816,456 net tons, an increase of 866,861 net tons, and of anthracite coal, 2,748,173 net tons, a decrease of 2,436,563 net tons as compared with the previous year. The tonnage of both classes amounted to 6,564,629 net tons as against 8,134,331 for the preceding year, being a decrease of 1,569,702 net tons in the actual aggregate of coal transported, irrespective of the number of divisions over which it was moved.

4. Rolling Stock, Dec. 31, 1902.—Locomotives, 191. Cars—passenger, 112; baggage, mail and express, 49; freight (box, 2,253; stock, 14; gondola, 7,158; stone, 61; lime, 50; cabin, 109), 9,645; service cars, 330—total cars, 10,136. Also owns 1 tugboat. This statement embraces only the equipment absolutely owned by the company, and therefore does not include 270 freight cars, with a capacity of 10,820 tons, leased under the Pennsylvania Car Trust.

8. Capital Stock.—During 1900 the authorized amount of capital stock was increased to the sum of $12,000,000, for the purpose of providing funds to pay for $1,126,000 6 p. c. bonds of the company which matured April 1, 1900, and $2,804,000 6 p. c. bonds which matured July 1, 1900, and for other corporate purposes of the company, and an allotment of stock was made to the stockholders on April 3, 1900, of one-third of their then holdings, at the price of $70 per share, under which 50,098 shares were issued. For the purpose of acquiring interests in other transportation companies, a further issue was made, so that on Dec. 31, 1902, the outstanding stock was $11,462,300. Stock may be voted if owned sixty days previous to annual meeting.

9. Funded Debt.—The funded debt outstanding on Dec. 31, 1902, consisted of the following issues:

$394,000 Consol. £ & $ "A" & "B" 6s of July 1, 1904.
1,000,000 Consol. $ "C" 6s of July 1, 1904.
1,000,000 Consol. $ "D" 6s of July 1, 1904.
$1,757,000 Consol. $ "E" 4½s of April 1, 1925.
2,565,000 2d Gen. "A" 5s of Jan. 1, 1926.
1,000,000 2d Gen. "B" 5s of Jan. 1, 1926.

Further particulars respecting these bond issues are in the Ready Reference Bond List. The consol. general mtge. is for $10,000,000, and covers all previous issues of bonds and mortgage debts except the annuity of $90,000. In accordance with the terms of the mortgage, the amount of bonds outstanding thereunder was reduced July 1, 1902, through the operation of the sinking fund, by the drawing of $186,000 of the securities issued under Series "A" and "B" of that mortgage. The sterling bonds are provided with a sinking fund in the form of annual drawings of outstanding bonds.

10. Guaranteed Bonds.—The Northern Central Ry. Co. jointly with the Pennsylvania RR. Co. guarantees as to principal and interest, $4,500,000 1st mtge. 6 p. c. bonds of the Baltimore and Potomac RR. Co.

at such times, in such amounts, and the proceeds from sale of same used for such purposes, as the Board of Directors may from time to time authorize.

Issue of Guaranteed Trust Certificates.—A further issue of the 3½ p. c. guaranteed trust certificates, secured by deposit of Pittsburgh, Fort Wayne & Chicago Ry. Co. guaranteed special stock as collateral, was authorized, amounting to $5,000,000 and designated as Series "C," dated Dec. 1, 1902, payable Dec. 1, 1942, in accordance with agreements between this company, the Pennsylvania RR. Co. and the Girard Trust Co. of Philadelphia, dated Sept. 1, 1897, and Dec. 1, 1902. This completes the authorized issue of $20,000,000 of these certificates. There were retired through the operations of the sinking fund during the year, $50,000 of Series "A" and $102,000 of "B" of these securities, leaving outstanding on Dec. 31, 1902, $14,798,000 of those issues as shown by the general balance sheet.

Retirement of Gold Debentures of 1901.—Of the 3½ p. c. gold debentures issued in Nov., 1901, $1,307,000 of the $1,334,000 drawn under their terms have been redeemed, leaving $18,693,000 outstanding at the close of the year.

Purchase of Columbus, Sandusky and Hocking RR.—The Columbus, Sandusky and Hocking RR. having been sold under legal proceedings, it was deemed wise to acquire, in the interest of the Toledo, Walhonding Valley and Ohio RR. Co., that portion of the road lying north of Columbus, O., and extending to Sandusky, O., a distance of about 110 miles, including the shops at Columbus and the docks and terminals at Sandusky. The acquisition of this property gives this company the advantage of another lake terminal, and furnishes a valuable connection between its Northwest and Southwest systems. The Toledo, Walhonding Valley and Ohio RR. Co. increased its capital stock $500,000 and issued $1,492,000 Series "C" 4 p. c. bonds, dated Sept. 1, 1902, payable Sept. 1, 1942, secured by its mortgage dated July 1, 1891, and the proceeds from the sale of said additional stock and bonds were used to pay for the new line, which by proper conveyance became merged with and into the Toledo, Walhonding Valley and Ohio RR.

Purchase of Interest in Chicago and Southeastern Ry.—The company also joined in the purchase of the Chicago and Southeastern Ry., extending from Muncie to Brazil, Ind., a distance of 127.5 miles, including 9.3 miles of trackage rights over the Vandalia Lines. The Chicago and Southeastern Ry. Co. will be reorganized and operated under its own organization.

Purchase of Middletown and Cincinnati RR.—The Middletown and Cincinnati RR., extending from Middletown, O., to a connection with the Little Miami RR. at Middletown Junction, a distance of 14.43 miles, and crossing and connecting with the Cincinnati, Lebanon and Northern Ry. at Hageman, was purchased on June 1, 1902. This property was acquired in the interest of the Cincinnati, Lebanon and Northern Ry. Co. and has been transferred to it by deed of conveyance. It was operated independently until Jan. 1, 1903.

FREIGHT AND PASSENGER TRAFFIC.

The tonnage during the year 1902 of the lines directly operated by the Pennsylvania Co. was 57,194,515 tons, an increase of 7,862,532 tons as compared with 1901; of the lines operated directly by the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co., including the Indianapolis and Vincennes RR., 30,857,185 tons, a gain of 3,783,483 tons; and of the lines operated through their own organizations, including the lines operated by V. T. Malott, Receiver of Terre Haute and Indianapolis RR. Co., 16,493,345 tons, an increase of 2,485,357 tons.

The aggregate tonnage moved, therefore, upon the entire system during the year was 104,545,045 tons, an increase over 1901 of 14,131,372 tons, or 15.63 per cent. The aggregate tonnage mileage was 8,031,071,569, as compared with 7,460,865,482 in 1901, an increase of 570,206,087 ton miles, or 7.64 per cent.

The entire number of passengers carried was 25,409,678, an increase of 3,207,655, or 14.45 per cent. The number of passengers carried on the lines directly operated by the Pennsylvania Co. was 8,827,139, an increase of 1,063,274 or 13.70 per cent.; on the lines operated directly by the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co., including the Indianapolis and Vincennes RR., 10,161,296, an increase of 1,270,599, or 14.45 per cent.; on the lines operated through their own organizations, including the lines operated by V. T. Malott, Receiver of Terre Haute and Indianapolis RR. Co., 6,521,243, an increase of 873,782, or 15.47 per cent. The aggregate passenger mileage was 713,609,042 miles, an increase of 92,318,052 miles, or 14.86 per cent.

The average rate received per ton mile on all lines of the system was 0.65 cent, an increase of 0.02 cent as compared with 1901. There was an increase in the cost of movement from 0.45 cent to 0.49 cent, so that the net earnings were 0.16 cent as compared with 0.18 cent in 1901, a loss of 0.02 cent.

There was a loss of 0.02 cent in the average rate per passenger per mile, as compared with 1901, and an increase of 0.03 cent in cost, making the net earnings 0.04 cent, a decrease of 0.05 cent in 1902.

15. Funded Debt.—The funded debt outstanding on Dec. 31, 1902—total, $57,958,000 as per general balance sheet—consisted of the following issues:

$19,467,000 1*st gold* 4½*s of July* 1, 1921, interest Jan. and July, at National City Bank, New York, N. Y. Secured by first lien on the leases of the P., Ft. W. & C., Cleveland and Pittsburgh, and Erie and Pittsburgh RRs.; on the real estate of the company in Pittsburgh, Allegheny, and Chicago; and on stock and bonds at the par value of about $24,000,000, in the company's treasury. The company is to purchase every year, at not above par, at least 1 p. c. of the then outstanding issue. The total issue is $20,000,000, but $533,000 of the bonds are held in the sinking fund. Interest and principal are guaranteed absolutely by the Pennsylvania RR. Co.

$4,900,000 *guaranteed* 3½ *p. c. gold trust certificates, Series "A," of Sept.* 1, 1937, interest March and Sept., at the Union Trust Co., New York, N. Y., or at the Girard Trust Co., Philadelphia, Pa., Secured by covenant of the Pennsylvania Co., and pledge with the Girard Trust Co. of Philadelphia, trustee, of 50,000 shares of the guaranteed special stock of the Pittsburgh, Fort Wayne and Chicago Ry. Co., aggregating at par $5,000,000, and by the guaranty of the Pennsylvania RR. Co. These certificates, as well as those of Series "B" (see next paragraph), are issued under an agreement, dated Sept. 1, 1897, between the Pennsylvania Co., the Pennsylvania RR. Co., and the Girard Trust Co. of Philadelphia, trustee, said agreement providing for the issue by the trustee of not exceeding $20,000,000 guaranteed trust certificates of the Pennsylvania Co. The total issue of Series "A" is $5,000,000, but $100,000 of the certificates have been retired by action of the sinking fund. These trust certificates are entitled to the benefit of a sinking fund of 1 p. c. per annum, amounting to $50,000, which sum is to be paid annually to the trustee by the Pennsylvania Co., to be applied by said trustee to the purchase of said certificates at not exceeding par and accrued interest, with the provision that if said certificates cannot be so purchased, then the said fund, or so much thereof as may not have been thus used, shall be repaid to the Pennsylvania Co., and not thereafter form part of the sinking fund for any subsequent year. As a further security for these trust certificates, the Pennsylvania Co. has covenanted and agreed that until the same shall be fully paid, it will not exercise its voting power as a stockholder of the Pittsburgh, Fort Wayne and Chicago Ry. Co. to increase the bonded debt of that company beyond the amount of said bonded debt now existing, nor will it vote its said stock of said Pittsburgh, Fort Wayne and Chicago Ry. Co. in favor of reducing the dividend below 7 p. c. per annum on said guaranteed special stock of said company pledged to secure the said Series "A" trust certificates.

$9,898,000 *guaranteed* 3½ *p. c. gold trust certificates, Series "B," of Feb.* 1, 1941, interest Feb. and Aug., at the Girard Trust Co., Philadelphia, Pa., secured by deposit of $10,000,000 of the guaranteed special stock of the Pittsburgh, Fort Wayne and Chicago Ry. Co., and entitled to the benefit of a sinking fund of $100,000 (1 p. c.) per annum, under the same conditions as in the case of Series "A." The total issue of Series "B" is $10,000,000, but $102,000 of the certificates have been retired by action of the sinking fund. These certificates, as well as those of Series A, are issued under an agreement dated Sept. 1, 1907, between the Pennsylvania Co., the Pennsylvania RR. Co., and the Girard Trust Co. of Philadelphia, trustee, providing for the issue by the trustee of not exceeding $20,000,000 of guaranteed trust certificates of the Pennsylvania Co.

$5,000,000 *guaranteed 3½ p. c. gold trust certificates, Series "C," of Dec.* 1, 1942, interest June and Dec., at the Union Trust Co., New York, N.Y., or at the Girard Trust Co., Philadelphia, Pa. Secured by deposit of $5,000,000 of the guaranteed special stock of the Pittsburgh, Fort Wayne and Chicago Ry. Co., and entitled to the benefit of a sinking fund of $50,000 (1 p. c.) per annum, under the same conditions as in the case of Series "A." This issue completes the amount ($20,000,000) authorized under the agreement dated Sept. 1, 1907, between the Pennsylvania Co., the Pennsylvania RR. Co., and the Girard Trust Co. of Philadelphia, trustee. (See remarks on Series "A" and Series "B" in preceding paragraphs.)

$18,693,000 *gold debenture 3½s of Nov.* 1, 1916, issued under an agreement dated Nov. 1, 1901, between the Pennsylvania Co., the Pennsylvania RR. Co., and the Girard Trust Co. of Philadelphia, trustee, said agreement providing for the issue of $20,000,000 15-yr. guaranteed gold debentures, secured by deposit of $25,000,000 of preferred dividend-paying railway securities, by the covenant of the Pennsylvania Co. and by the guaranty of the Pennsylvania RR. Co. A sinking fund is provided in the agreement under which one-fifteenth of the entire issue will be redeemed annually at par, drawings to be by lot. Interest payable May 1 and Nov. 1, at the Girard Trust Co., Philadelphia, Pa.

16. Guaranteed Bonds.—The Pennsylvania Co. guarantees the bonds, or interest on the bonds, of certain of its subsidiary companies, as follows:

Cincinnati and Muskingum Valley RR.: $1,600,000 1st 4s of Aug. 1, 1948, guaranteed as to principal and interest by the Pennsylvania Co.

The $10,000 consolidated and sinking fund mtge. 7 p. c. bonds of Nov. 1, 1900, outstanding on Dec. 31, 1900, were paid off during the year 1901 through the operation of the sinking fund. The rate of interest on $439,000 of the Series B bonds has been reduced to 3½ p. c. per annum from April 1, 1902.

The gen. mtge. bonds were authorized in 1891. The lessee agrees to accept them for any betterments that may be made. A sinking fund of not less than 1 p. c. of the total amount outstanding is provided for their redemption, whenever they can be purchased at or under par and accrued interest. Principal and interest and installments for sinking fund are guaranteed by the Pennsylvania RR. Co., the guaranty being endorsed on each bond. In Aug., 1902, $220,000 additional gen. mtge. bonds, Series D, were issued for account of betterments to the property as settled to Dec. 31, 1901. * Includes 35 bonds drawn for sinking fund on which interest had ceased, but which had not been presented for redemption.

Consol. Mtge. Bonds.—The consol. mtge. bonds (Series "A," "B," "C," "D," and "E,") are secured on "the company's entire railway and estates, personal and mixed, acquired and to be acquired, also all franchises, including the franchise to be a corporation." Authorized issue, $75,000,000, which may be issued in different series on different dates, designated by the different letters of the alphabet, from time to time as the directors may determine; and the different series may bear different rates of interest. The authorized amount of Series "A" and "B" is $10,000,000 each; Series "C," $2,000,000; Series "D," $8,000,000, and Series "E," $12,000,000. Nos. 1 to 10,000 inclusive (Series "A"), of which $10,000,000 are outstanding, are dated Oct. 1, 1890, and run 50 years, to Oct. 1, 1940. Nos. 10,001 to 20,000 inclusive (Series "B"), of which $8,786,000 are outstanding, are dated April 1, 1892, and run to April 1, 1942. Nos. 20,001 to 22,000 inclusive (Series "C"), of which $1,379,000 are outstanding, are dated Nov. 1, 1892, and run 50 years, to Nov. 1, 1942. Nos. 22,001 to 28,000 inclusive (Series "D"), of which $4,983,000 are outstanding, are dated Nov. 1, 1895, and run 50 years, to Nov. 1, 1945. Nos. 28,001 to 40,000 inclusive (Series "E"), of which $10,837,000 were outstanding on Dec. 31, 1902, are dated Aug. 1, 1899, and run 50 years, to Aug. 1, 1949. A sinking fund of 1 p. c. per annum on the bonds outstanding is provided for their retirement, effective on and after Oct. 1, 1895; if, however, bonds are not obtainable at par or less, the 1 p. c. lapses into the treasury. Bonds of Series "E" to the amount of $417,000 were redeemed under the provisions of the sinking fund, during the past year, making the total amount of bonds secured by the consolidated mortgage, redeemed and cancelled to Dec. 31, 1902, $875,000. A sufficient number of consol. mtge. bonds is reserved for the retirement of prior lien bonds. The Pennsylvania Co. unconditionally guarantees principal and interest of these bonds, and the guaranty is endorsed on each bond. Upon the retirement of the $3,000 P., C., C. & St. L. Ry. Co. 7s past due, but outstanding Dec. 31, 1902, this consolidated mortgage of the P., C., C. & St. L. Ry. Co. will become a first mortgage on the property covered by the P., C., C. & St. L. 7s between Pittsburgh and Steubenville, and upon the retirement of the remaining $11,300,000 underlying bonds of the system (which cannot be extended) they will be a first lien on the entire property of the P., C., C. & St. L. Ry. Co.

Steubenville and Indiana Bonds.—Secured by first mortgage on the line from Steubenville to Newark, O., 116 miles.

C., St. L. & P. Consol. Mtge. Bonds.—Secured on 580.52 m. of railroad, as follows: Columbus, O., to Indianapolis, Ind., 187.13 m.; Bradford Junc., O., to Chicago, Ill., 230.98 m.; Richmond, Ind., to Anoka Junc., Ind., 102.22 m., and Logansport, Ind., to Illinois State Line, 60.19 m.—total, 580.52 miles. Authorized issue, $22,000,000.

Union and Logansport Bonds.—Secured by first mortgage on the road from Union City to Logansport, 93 miles.

Columbus and Indianapolis Central Bonds.—Secured in the order of their priority on the main line from Columbus to Indianapolis, 187 miles, and also on the 21 miles of road between Bradford Junc. and Union City, Ind.

Jeffersonville, Madison and Indianapolis Bonds.—Secured in order of priority on 222.35 m. of road as follows: Louisville, Ky., to Indianapolis, Ind., 108.40 m.; Columbus to Madison, Ind.,

44.90 m.; Columbus to Cambridge City, Ind., 63.04 m.; New Albany to Jeffersonville, Ind., and branch, 6.01 m.—total, 222.35 miles. A sinking fund of not less than $15,000 per annum is provided for the redemption of the 1sts, which can be drawn at 110; during the past year, $211,000 of the bonds were retired through the operations of the sinking fund.

CLEVELAND, AKRON AND COLUMBUS RAILWAY COMPANY (THE).

(Controlled by Penn. Co., but operated independently.)

1. Mileage Operated, Dec. 31, 1902.—**A.** LINES OWNED (total, 196.97 miles):

Main Line: Hudson to Columbus, O	144.00 miles.
Dresden Branch: Killbuck to Trinway, O	33.43 "
Coal Branches: Main Line to Coal Mines	10.48 "
Apple Creek Branch: Apple Creek Junc. to West Lebanon, O	9.06 "
TRACKAGE: *Cin. & Musk. Valley RR.:* Trinway to Zanesville, O	16.60 "
Total length of lines operated, Dec. 31, 1902	213.57 miles.

2d track, 17.17 m.; sidings, 58.42 miles. Gauge, 4 ft. 8½ in. Rail (steel, 250.06 m.), 67, 70 and 85 lbs.

2. History.—Organized Jan. 1, 1886 (charter dated Dec. 31, 1885), by the purchasers at foreclosure sale, June 9, 1882, of the Cleveland, Mt. Vernon and Delaware RR. (See MANUAL for 1885, page 538.) The Pennsylvania Co. acquired control of this company in May, 1899, and took possession of the property on June 1, 1899. The Apple Creek branch was completed in 1901, and placed in operation Jan. 1, 1902.

3. Trackage, Contracts, etc.—This company and the Baltimore and Ohio RR. Co. (as lessee of the Akron and Chicago Junction Ry.), are joint owners of the double track between Akron Junc. and Warwick, 16.05 m., and use it in common, this company maintaining the track, stations, etc., and charging proportionately to the B. & O. based on usage. For terminal facilities at the Norfolk and Western freight depot in Columbus, O., this company pays a rental of $811.48 per month, on a basis of 3 p. c. per annum on valuation of property, together with a proportion of expenses in accordance with usage. This company gains an entrance to the Union Passenger Depot at Columbus, O., by using the tracks of the Columbus and Newark Division, owned jointly by the B. & O. and P., C., C. & St. L. Cos., for a distance of 990 feet, for which a fixed rental of $1,500 per annum is paid; and also participates in the expenses of the Union Passenger Depot at that point on the basis of the number of passenger trains run in and out. It also runs its trains over the tracks of the Cincinnati and Muskingum Valley RR. Co. between Trinway and Zanesville, O., 16.6 m., and has the privilege of the use of depot and terminals at

Zanesville, paying therefor a rental of $992.03 per month, being 2½ p. c. per annum on valuation of property, and a proportion of expenses of maintenance of track and depot based on usage.

This company allows the Norfolk and Western Ry. Co. the use of right of way covering 2,500 feet in Columbus, O., for which it receives a rental of $250 per annum. On this right of way the C., A. & C. Ry. Co. maintains a track of 1,800 feet, one-half the expense of which is paid by the Norfolk and Western.

4. Rolling Stock, Dec. 31, 1902.—Locomotives, 31. Cars—passenger, 31; baggage, mail and express, 9; freight (box, 1,463; flat, 112; stock, 65; coal, 991), 2,631; service, 35—total, 2,706.

2. History.—Incorporated in Michigan, July 11, 1896, and in Indiana, July 13, 1896, to take over the railroad and property of the Grand Rapids and Indiana RR. Co., which was sold under foreclosure of the 2d mortgage on June 10, 1896. The property was transferred to the new company on Aug. 1, 1896 (see MANUAL for 1896, page 778).

The Traverse City, Leelanau and Manistique RR. Co. has been formed to construct a line from Traverse City to Northport, Mich., a distance of about 30 miles. The Grand Rapids and Indiana Ry. Co. has taken $75,000 of bonds of the new company, and has received 25 per cent. ($125,000) of its capital stock. The road was expected to be completed about July 1, 1903. It will be operated by the Grand Rapids and Indiana Ry. Co.

8. Capital Stock.—The capital stock authorized in the reorganization was $6,000,000, but during the year 1900 it was decided that no further exchanges of old 3d mtge. bonds shall be made and that the capital stock shall be fixed at the amount now outstanding.

9. Funded Debt.—The funded debt outstanding on Dec. 31, 1902, consisted of $920,000 1st mtge. ext. (guar.) gold 3½s of July 1, 1941, int. J. & J.; $4,455,000 1st mtge. ext. (guar.) gold 4½s of July 1, 1941, int. J. & J., and $3,962,000 2d mtge. (Ft. Wayne to Mackinaw City) gold 4s of Oct. 1, 1936, int. A. & O.

First Mortgage Bonds.—The 1st mtge. land grant bonds were issued under a mortgage dated Oct. 1, 1869, securing an authorized issue of $8,000,000 bonds and covering the railroad and appurtenances from Ft. Wayne, Ind., to Mackinaw City, Mich., and also the land grant of the company. Bonds numbered 1 to 4,000, inclusive, had attached to them an undertaking, assumed by the Pennsylvania RR. Co., to purchase the coupons at any time should default be made by the company, and also to purchase the bonds at maturity, if not paid off by the mortgagor. The remaining $4,000,000 bonds had no such guaranty, and $2,500,000 of them were retired by an issue of income bonds. Endorsed bonds amounting to $66,000 were also retired, leaving the total amount of 1st mtge. bonds outstanding, $5,375,000—endorsed, $3,934,000; not endorsed, $1,441,000. Of the unendorsed bonds, only $505,000 retained their security on the land grant, that security having been removed from the remaining $936,000. On March 18, 1891, an agreement was entered into providing for the extension of the entire $5,375,000 1st mtge. bonds for 50 years from July 1, 1891, the interest to be reduced to 4½ p. c. and the additional security of the land grant, together with the clause relating to purchase of bonds and coupons by the Pa. RR. Co. to be detached from the bonds, each extended bond to be endorsed with a new undertaking by the Pa. RR. Co. for the purchase of the bonds and coupons in case of default by the company, upon 60 days' notice by the holders of the bonds; such bonds and coupons to be kept alive and held as a debt against the company.

Second Mortgage Bonds.—The 2d mtge. bonds, issued as of Oct. 1, 1896, bore 2 p. c. interest the 1st year, 3 p. c. the second and third years, and have borne 4 p. c. since Oct. 1, 1900. The authorized amount is $5,000,000; the $1,038,000 of unissued bonds are reserved for future use.

ST. LOUIS, VANDALIA AND TERRE HAUTE RAILROAD COMPANY.

(Controlled by Penn. Co.; Operated under Lease by Receiver of T. H. & I. RR.)

1. Line of Road.—E. St. Louis, Ill., to Indiana State Line..........158.3 miles. Sidings, etc., 70.16 miles. Gauge, 4 ft. 8½ in. Rail (steel), 60, 70 and 85 lbs.

2. History.—Chartered Feb. 10, 1865; road opened July 1, 1870. Leased to Terre Haute and Indianapolis RR. Co. for account of itself and the P., C., C. & St. L. Ry. Co. Rental, 30 p. c. of gross earnings, increasing to 35 p. c. as expenses may fall below 70 p. c.; the profits and losses under the lease to be divided in the proportion of five-sevenths to the P., C., C. & St. L. Ry. Co. and two-sevenths to the T. H. & I. RR. Co. (see MANUAL for 1893, page 584). On Nov. 13, 1896, the T. H. & I. RR. and its leased lines were placed in the hands of a receiver (see page 793).

A suit has been brought by certain minority stockholders to have the preferred stock declared illegal and to recover the amount paid as dividends thereon, and Henry C. Begole has been appointed receiver by the lower court. The officers of the company, however, deny that these minority stockholders have any valid ground for such action, and are resisting in the upper courts the appointment of a receiver.

Sidings (owned), 96.10 miles. Gauge, 4ft. 8½ in. Rail (steel), 60, 70 and 85 lbs.

2. History.—Chartered in 1847 as Terre Haute and Richmond RR. Co., and road opened in 1852. At the State Line it connects with the St. Louis, Vandalia and Terre

Haute RR., which is leased to this company for 999 years, at an annual rental of 30 p. c. of its gross earnings, with a guaranty, jointly with the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co., of interest on the mortgage bonds. The Terre Haute and Peoria RR. is leased for 99 years from Sept., 1892, for a rental of 30 p c. of its gross earnings, taxes, rents and interest being deducted. The bonds of that road were guaranteed, but default was made in interest due Sept. 1, 1896, and a suit was brought by the Terre Haute and Peoria bondholders to secure the appointment of a receiver and compel an accounting by the lessee. As a result of this suit a receiver was appointed for the entire system on Nov. 13, 1896.

Extracts from the company's report for the year ending October 31, 1902:

"There has not yet been any adjudication of the question of the liability of the T. H. & I. RR. Co. on the guaranty of the T. H. & P. RR. bonds. The suit is now in the United States Circuit Court for the District of Indiana. The situation with respect to those bonds is as follows: Twelve coupons in default, $669,000; 6 p c. interest on defaulted coupons to Oct. 31, 1902, $117,075—total overdue coupons and interest to Oct. 31, 1902, $786,075; add interest for Sept. and Oct., 1902, accrued, but not yet due, $18,583.34—total due and accrued, $804,658.34. Balance of rental in hands of receiver, $537,418.03. Deficiency of rental to meet interest, $267,240.31. The receiver has in his hands a sufficient sum to meet this deficiency if the T. H. & I. RR. Co. should be found to be liable for it.

"During the term of the receivership, from Nov. 14, 1896, to Oct. 31, 1902, the result to the T. H. & I. RR. Co. of operating the T. H. & P. RR. on 70 p. c. of the gross earnings has been: Gross earnings, $2,915,964.84; expenses, $2,581,798.65; net earnings, $334,166.19. Rental to T. H. & P. RR. Co., 30 p. c. of gross earnings, $874,789.45. Loss to T. H. & I. RR. Co., $540,623.26. This loss in addition to any liability for the difference between the amount of the rental and the amount required to meet the fixed charges, as stipulated in the lease of the road. The loss of $540,623.26 has been charged against the T. H. & I. RR. Co. monthly as it accrued, and is not therefore an obligation to be met by that company.

"No decision has yet been reached in the matter of the petition of Central Trust Co. of New York, trustee for the bondholders, as to whether or not the balance of $34,013.81 remaining from the rental of the Indiana and Lake Michigan Ry. shall be applied by the receiver to the reduction of the loss in operating that road, or shall go to the bondholders. The case is now at issue in the United States Circuit Court.

"The suit of Mark T. Cox and others against the Terre Haute and Indianapolis RR. Co. is still at issue awaiting final hearing.

"The judgment of the Superior Court of Marion County, Indiana, in favor of the State for $913,905.01 was affirmed by the State Supreme Court on Nov. 25, 1902. The case will be taken to the United States Supreme Court."

Sidings, etc., 84.68 miles. Gauge, 4 ft. 8½ in. Rail (steel), 56 and 60 lbs.

2. History.—Consolidation, in 1902, of a company of the same name with the Morden and Northwestern Ry. Co.

The lines leased from the Northern Pacific and Manitoba Ry. Co. and other companies, an aggregate of 350.9 miles, are all amalgamated under the name of The Manitoba Ry. Co. They are sublet from the Provincial Government, for 999 years from May 30, 1901, at an annual rent of $210,000 for the first ten years, $225,000 for the second ten years, $275,000 for the third ten years, and $300,000 a year thereafter, with option to purchase at any time for $7,000,000.

3. Government Subsidies and Land Grants.—The Dominion Government has made a cash grant in aid of construction, of $6,400 per mile on 208 miles and $3,200 per mile on 63 miles, and has also made land grants of 6,400 acres per mile on the main line in Manitoba, and of 12,000 acres per mile on the main line in Saskatchewan. The total land grant will amount to 2,455,466 acres, but 533,333 acres will be retained by the Government as security for the carrying out of the contract for the transport of mails, supplies, etc., for which the Government will pay to the company $80,000 per annum for 20 years; fixed rates are to be charged for the carrying of such mails and supplies, and any difference between the yearly total of such charge and the $80,000 per annum will, if in favor of the company, be paid annually by the Government, but if in favor of the Government, need not be paid by the company till the expiration of the 20 years, the difference in either case bearing interest at 4 p. c. The company has the right to construct 200 miles from Erwood towards Prince Albert, in which case it would receive cash subsidy of $3,200 per mile. This line is now under construction.

The Dominion Government has approved of the issue of debenture stock to the extent of $13,000 per mile for about 720 miles, being from Grandview to Edmonton, 620 miles, and from Prince Albert easterly 100 miles, the principal and interest of which is guaranteed by the Government of Canada. The debenture stock when issued will be payable in 50 years from July 10, 1903.

4. **Rolling Stock,** June 30, 1903.—Locomotives, 67. Cars—passenger (1st class coaches, 11; 2d class, 11; comb. coach and baggage, 4; mail and express, 1; business, 2), 35; freight (box, 1,564; stock, 25; refrigerator, 9; flat, 527; caboose, 27), 2,152—total, 2,254.

5. **Operations,** year ending June 30, 1902 (1,247.2 miles).—Train mileage—passenger, 113,284; freight, 353,832; mixed, 251,158; work, 86,332—total, 804,606 miles. Passengers carried, 324,145. Tons freight moved, 715,692.

Earnings—Passenger	$262,174 06	**Expenses**—Maintenance of Way, etc.	$196,516 70
Freight	1,101,658 04	Expenses of Engines	320,629 50
Mail and Express	23,823 76	Expenses of Cars	159,158 50
Miscellaneous	13,314 57	General Operation	261,460 91
Total ($1,123.29 per mile)	$1,400,970 43		
Net earnings (33.06 p. c.)	463,204 82	Total ($751.89 per mile)	$937,765 61

6. **Financial Statement,** Dec. 1, 1902.—Capital stock ($100 shares), $24,750,000. Funded debt: £205,400 4 p. c. 30-year gold bonds of Aug. 1, 1926; £464,300 4 p. c. 30-year gold bonds of Feb. 1, 1926; £411,500 land grant 4 p. c. 30-year gold bonds of Feb. 1, 1919; £1,108,600 Ontario Division 4 p. c. 30-year gold bonds of June 30, 1930; £143,835½ 4 p. c. 30-year gold bonds of June 30, 1930; £72,000 Ontario Division 4½ p. c. gold bonds of June 30, 1930—total, £2,405,635½, say, $11,550,000.

7. **Funded Debt.**—The 4 p. c. Ontario Division 1st mtge. bonds were issued in Sept., 1901, to take the place of the issue in July, 1900, of similar bonds at the rate of 4½ p. c. This new 4 p. c. issue is secured by mortgage made to National Trust Co., Ltd., conferring charge similar to that of the old bonds, over (*inter alia*) the existing main line from Port Arthur to the Rainy River, and the existing main line and branch lines within the Province of Manitoba, but not including the company's land grant. It also carries the benefit of a charge over all the main and branch lines hereafter to be constructed in the Province of Manitoba (subject to the company's right to raise $10,000 per mile, in priority, on the security of said lines) and a charge over the company's lease for 999 years, with an option to purchase, the lines leased from the Manitoba Railway Co.; the company reserving the right, in case the option is exercised, of raising the purchase money by bonds with prior charge on the railways purchased. Both principal and interest are guaranteed by the Province of Manitoba, and are payable at The Canadian Bank of Commerce in London or Toronto. Bonds are payable to bearer, but may be registered or reconverted to bearer, and are repayable on June 30, 1930; interest payable June 30 and Dec. 30. All the 4½ p. c. bonds have been exchanged for 4 p. c. bonds with the exception of £172,000 Ontario Division bonds.

Their receipts and expenses are not included in the accounts of the Canadian Pacific Ry. Co., nor is that company subject to any rent charge in respect of them.

2. Lines Under Construction.—*Western Division:* West Selkirk Extension, from West Selkirk to Winnipeg Beach, 26 m.; Pheasant Hill Branch, from Kirkella northwest, 108 m.; McGregor Branch Extension, from Wellwood to Brookdale, 10 m.; Pembina Branch Extension, from Osborne southwest, 6 m.; Snowflake Branch Extension, from Snowflake to Mowbray, 10 m.; extensions of Souris Branch (from Waskada to Lyleton, 20 m.; from Lauder eastward, 6 m.; from Lauder westward, 6 m.), 32 m.; Yorkton Extension of Manitoba and North Western Ry., from Yorkton west, 40 m.; Forrest Extension of Great North West Central Ry., from Forrest to Lenore, 41.4 m.—total, 273.4 miles. *Pacific Division:* Vancouver and Lulu Island Ry., 17.2 m.; Kootenay and Arrowhead Ry., 33.6 m.—total, 50.8 miles. Total length of lines under construction, June 30, 1902, 324.2 miles.

3. History.—Chartered Feb. 17, 1881; main line opened throughout on May 26, 1887. The branches and leased lines were built or acquired at different periods. (See MANUAL for 1892; also, MANUAL for 1900, pages 778 and 779, and MANUAL for 1901, page 790). Particulars respecting the leased lines will be found in the separate statements therefor.

For the purpose of improving the company's position in the city of Ottawa and adjacent territory, and with a view to the ultimate shortening of the line between Montreal and Pembroke, an agreement was entered into during the year ending June 30, 1902, for the control of the Ottawa Northern and Western Ry. Co., the Pontiac Pacific Junction Ry. Co., and the Hull Electric Ry. Co., owning 151 miles of railway and the Interprovincial bridge across the Ottawa River. The terms of the arrangement are not given in the company's report.

An agreement has been made for an extension of the Montreal and Western Ry., one of the company's acquired lines in the Province of Quebec, a distance of 22 miles, on a basis that will involve the payment of practically no interest or rental for a period of 12 years.

A branch line, 105 miles in length, from Kirkella on the main line west of Brandon, to serve the country north of the Qu'Appelle River, and an extension of the Manitoba and North Western Ry., 40 miles in length, have been completed and put in operation since June 30, 1902.

The company runs a line of mail steamers monthly between Vancouver and China and Japan. In consideration of the service the British and Dominion Governments pay the company a joint subsidy of £60,000 per annum, under a contract to endure until April, 1906. The company also has lines of steamers running to Australia, to Hawaii, to San Francisco, to the mining districts of Southern British Columbia, to the Yukon, and from Fort William to Owen Sound on the upper lakes.

The company owns a controlling interest in the Duluth, South Shore and Atlantic Ry., 568 m., and in the Minneapolis, St. Paul and Sault Ste. Marie Ry., 1,409 miles. It guarantees the 4 p. c. consol. mtge. bonds, principal and interest of the former, and 4 p. c. interest on the bonds of the latter. (See separate statements for those companies.)

The Toronto, Hamilton and Buffalo Ry. Co. is controlled by the New York Central, Canada Southern, Michigan Central and Canadian Pacific Cos. (see GENERAL INDEX and MANUAL for 1897, page 853). This company's joint use of the Grand Trunk Line between Toronto and Hamilton went into effect on the opening of the Toronto, Hamilton and Buffalo line for regular traffic.

By an agreement dated July 26, 1892, between this company, the Grand Trunk Co., and the city of Toronto, this company secured in perpetuity land for station purposes in the city named at a specified rental, to be increased at the end of each fifty years at the rate of 25 p. c. on each previous rent; and a second agreement, made on the same day, between the two railroad companies, provided that the Union Station should be altered and extended, this company paying for joint use of the new station a rental equivalent to an agreed percentage of the value of the properties then supplied by the Grand Trunk, and also a percentage of the cost of rebuilding the station.

This company has a traffic agreement with the Northern Pacific Ry. Co. for the use of the Seattle and International line from a connection with this system at Huntington, on the International Boundary, southward through the Puget Sound country to Seattle, Wash. This agreement involves no financial responsibility on the part of this company.

An agreement has been made between this company, the Duluth, South Shore and Atlantic Ry. Co. and the Mineral Range RR. Co., whereby in consideration of certain traffic arrangements this company undertakes to guarantee interest at the rate of 4 p. c. per annum on $1,254,000 bonds of the Mineral Range RR. Co.

10. Common Stock.—The original share capital was $5,000,000, issued at par, which was increased to $25,000,000 on May 10, 1882, the $20,000,000 new stock being sold to shareholders at 25 p. c. at par. On Nov. 28, 1882, the capital was increased to $100,000,000, and $40,000,000 of the increase was sold at an average price of 52 p. c., the balance being deposited with the Dominion Government. In 1885 the $35,000,000 so deposited was cancelled and the common stock thus reduced to $65,000,000. All certificates of stock now issued are stamped so as to show this reduction. (See MANUAL for 1896, page 993.) Pursuant to resolutions adopted at a special general meeting of the shareholders held March 27, 1902, common stock of the company to the amount of $19,500,000 was offered to the shareholders at par and has all been subscribed for (see general balance sheet). The proceeds of the sale of this new stock will be expended for new equipment and for additions and betterments. Outstanding shares of ordinary stock of $100 each may be converted, at any time, at the holders' option, into sterling ordinary stock. Share registers are kept in London and also at the branch of the Bank of Montreal in New York. Shares on the New York register may be transferred to the London register free, and shares are also discharged from the London register without cost; but a small fee is asked for obtaining fresh certificates from New York in exchange for such discharged warrants, or for executing transfers on the New York register. Shares on the New York register commonly pass from hand to hand as if unregistered; any person holding shares not registered in his name must claim the dividend from the person in whose name the shares stand.

11. Preference Stock.—In 1893 an act was obtained of the Dominion Parliament by which sterling preference stock may, with the consent of the shareholders, be issued up to an amount not exceeding one-half the amount of the ordinary stock outstanding, such preference stock to rank for dividends up to 4 p. c., and to have the same voting power as the ordinary shares—one vote for every £20 or $100. Dividends on this stock are non-cumulative. During the past year £900,000 of 4 p. c. preference stock was created and sold, for the purpose of meeting expenditures for rolling stock, additions, and improvements, authorized by the shareholders.

12. Consolidated 4 p. c. Debenture Stock.—Amount outstanding, £13,054,606; issued for the following purposes: For general purposes, £3,933,748; for China and Japan steamers, £720,000; for Souris Branch, £1,004,000; for branch lines, £437,400; to retire Canada Central 1st mtge. bonds, £250,000; for acquiring mortgage bonds of roads of which the principal or the interest is guaranteed by the C. P. Ry. Co., £6,709,458. Interest is payable on the 1st of Jan. and July, by warrant from the company's London office. The stock is transferable in multiples of £1, at the London office only.

During the past fiscal year 4 p. c. consolidated debenture stock to the amount of £650,000 was created and sold on account of the construction of branch lines authorized, and for the purpose of acquiring 1st mtge. bonds, on which the interest is guaranteed by the company, of the Mineral Range RR. Co., the Columbia and Western Ry. Co., and the British Columbia Southern Ry. Co.

13. Funded Debt.—The funded debt outstanding on June 30, 1902, consisted of $47,238,086.33 of mortgage bonds and $16,430,000 of land grant bonds, as follows:

$34,998,633.33	(£7,191,500) 1st mtge. 5 p. c. gold 30-yr. sterling bonds, due in 1915.	
973,333.33	Canada Central 2d mtge. 6 p. c. bonds, due 1910.	
3,500,000.00	Bonds due Province of Quebec on Q.,M.,O. & O. Ry.	Interest $4\frac{1}{20}$ p. c., payable April and Oct.; principal payable 1904 and 1906.
3,500,000.00	" " " North Shore Ry.	
3,650,000.00	(£750,000) Algoma Br. 1st mtge. 5 p. c. bonds, due July 1, 1937, int. Jan. and July.	
616,119.67	North Shore Ry. 1st mtge. 5 p. c. bonds ($610,716.34 acquired by issue of debenture stock).	
1,430,000.00	Land Grant 1st mtge. 5 p. c. 50-yr. bonds, due Oct. 1, 1931, interest April and Oct.	
15,000,000.00	3½ p. c. Land Grant bonds, or inscribed stock, due 1938.	

NOTE.—The cash receipts from land sales for the year ending June 30, 1902, enabled the company to redeem and cancel 5 p. c. land grant bonds to the face value of $1,401,000, leaving in the hands of the public at the end of the fiscal year $1,430,000 of those bonds, all of which have since been called for redemption and cancellation.

First Mortgage Bonds.—These bonds are in denominations of £100, £500 and £1,000, and are in coupon form, with privilege of registration; principal and interest payable at office of Baring Bros., London—principal July 1, 1915, and interest Jan. and July. The Canada Central 2d mtge. bonds are due Nov. 1, 1910. The *mortgages* to the Government of Quebec were payable March 4, 1902-1904, interest 5 p. c. semi-annually. During 1894 an arrangement was concluded with the Quebec Government, by which these mortgages shall be paid in two equal installments on March 1, 1904, and 1906, interest being reduced to an average rate of 4.05 p. c. These mortgages apply only to the purchased lines they cover—the Canada Central, the North Shore and the Q., M., O. & O.—and are not a charge on the Canadian Pacific Ry. proper.

Algoma Branch Bonds.—Secured on the Algoma Branch, from Sudbury to the bridge over the River Ste. Marie. There are 250 bonds of £1,000 (numbers 1 to 250), 400 of £500 (numbers 251 to 650), and 3,000 of £100 (numbers 651 to 3,650), all bearing interest from Jan. 1, 1888, payable on Jan. 1 and July 1, at Baring Bros. & Co.'s, where the principal is also redeemable on July 1, 1937. The bonds may be exchanged for registered certificates at the same place. Sir Charles Tupper and Lord Revelstoke are the trustees for the bondholders.

Land Grant Bonds.—The company executed a mortgage and issued 5 p. c. bonds for $25,000,000 on its entire land grant of 25,000,000 acres. Of these bonds the Government accepted, in 1881, $5,000,000 as security for the maintenance and continuous working of the railway for ten years after completion, but $4,000,000 of them were returned in 1886, and were subsequently cancelled. A further $8,996,000 of the bonds were deposited with the Government as security without interest under the Loan Act, 1884, but were cancelled under the later agreement of March 30, 1886. The principal of the bonds is redeemable at Montreal, on Oct. 1, 1931, unless previously tendered in payment for lands at 110 p. c. and accrued interest, or redeemed out of the proceeds of land sales, either by purchase or by drawings, at 10 p. c. premium. Between Dec. 31, 1899, and June 30, 1901, $428,500 of the bonds were redeemed and cancelled; $1,401,000 additional were redeemed during the year ending June 30, 1902, and the remaining $1,430,000 having recently been called for redemption (see Sec. 18).

Land Grant Bonds, or Inscribed Stock.—These are secured by a mortgage on the unsold Canadian Pacific lands, subject to the lien of the 5 p. c. mortgage. The interest is guaranteed by the Dominion Government, and the net proceeds of the sales of land are to be deposited with the Government to constitute a sinking fund for the said bonds, and to bear interest at 3½ p. c. per annum, to be applied toward satisfying the interest on the bonds; and when the money thus deposited with the Government, whether from land sales or other sources, is sufficient to redeem the principal of the outstanding bonds, the mortgage on the land is to be discharged, and the Government will assume and pay all the future interest as well as the principal, the company being freed from any liability in respect thereof. The inscribed stock amounts to £163,800, and will be transferable in any amount divisible by £10. There are 800 A bonds of £1,000 (numbers 1 to 800), 2,000 B bonds of £500 (numbers 1,001 to 3,000), and 11,299 C bonds of £100 (numbers 5,001 to 16,299). Bonds to bearer may be at any time converted into registered stock at a fee of one-eighth p. c., but registered stock cannot be converted into bonds to bearer. Interest is payable on Jan. 1 and July 1, and the principal will become due on July 1, 1938.

14. Acquired Securities Held.—The acquired securities held by the company, the cost of which is shown on the general balance sheet, were as follows: Mortgage Bonds—Atlantic and North West Ry. Eganville Branch 1st 4s, $302,400; British Columbia Southern Ry. 1st 5s, $967,500; Columbia and Kootenay Ry. 1st 4s, $1,277,500; Columbia and Western Ry. 1st 5s, $5,691,000; Duluth, South Shore and Atlantic Ry. consol. 4s, $15,107,000; Great North West Central Ry. 1st 5s, $875,000; Minneapolis, St. Paul and Sault Ste. Railroads Operated by the Canadian Pacific Ry. Co. as Agent—Operations Reported Separately.

CALGARY AND EDMONTON RY.—Calgary to Edmonton, Dist. of Alberta, 190.97 m.; Calgary to Macleod, Dist. of Alberta, 104.96 m.—total, 295.93 m.; total track (steel, 295.93 m.), 305.73 miles. Gauge, 4 ft. 8½ in. Rail (steel), 56 lbs.

Arrangements for the merging of this road with the Canadian Pacific Ry. are in progress.

History.—Organized in 1890; road opened as above in Oct., 1892. The company is entitled to a subsidy of $80,000 per annum for twenty years from July, 1891, from the Dominion Government, for hauling Government traffic, and this subsidy is paid direct to the London agents, as trustees for the bondholders. The company is further entitled to a land grant of 2,176,000 acres, of which 1,481,046 acres have been sold, and about 407,402 acres are retained by the Government against the subsidy, and by the C. P. Ry. Co. on account of its undertaking to operate the road during the first five years. The C. P. Ry. Co. operated the road until July 1, 1896, and had the option at that date of acquiring the bonds at 110 p. c., and of having the capital stock transferred to it free of charge. This option was not exercised, and a new agreement was entered into whereby the C P. operated the road until July 1, 1901, at actual cost, without charge for general management or for interest on the value of the rolling stock used, and with certain arrangements for allowance to this company for traffic interchanged. By this agreement the total net earnings and the Government subsidy were applicable to the payment of interest on the bonds. Since the expiration of this agreement (July 1, 1901) the C. P. Ry. Co. has continued to operate the road on the same terms, but subject to a month's notice of termination by either company.

Operations, year ending June 30, 1902.—Trains run (passenger, 57,991; freight, 130,998; mixed, 92,740), 281,729 miles. Passengers carried, 65,876. Tons freight moved, 131,469. Earnings—passenger, $169,996; freight, $364,689; other, $13,141—total, ($547,826, less Government service included in foregoing, $11,305), $536,521. Operating expenses, $275,982. Net earnings, $260,539; other receipts, $2,269—total, $262,808. Payments: Interest, $138,670; London expenses, $1,097—total, $139,767. Surplus, $123,041; surplus forward, $77,365—total, $200,406.

General Balance Sheet, June 30, 1902.—Capital stock ($100 shares), $1,000,000; funded debt, $5,474,513; coupons due and not presented, $773 interest unpaid, $818,841; profit and loss, $200,406—total, $7,494,533. Contra: Cost of road, $6,472,013; cash and current assets, $202,285; interest deferred, $818,841; Southern Extension, $1,392—total, $7,494,533.

Funded Debt.—Funded debt consists of £1,124,900 1st mtge. 6 p. c. 20-yr. £100 bonds, due July 1, 1910, interest Jan. and July; principal and interest payable at the office of Chaplin, Milne, Grenfell & Co., London. When the bonds were issued the sale of a portion of the land had been concluded, the proceeds of which were paid over to the London agents, making, with the subsidy, a sum sufficient to meet interest to and including that due July 1, 1896. It is agreed that in future if any portion of the coupons cannot be paid in cash out of the net earnings and the Government subsidy, the deficiency will be paid in scrip, redeemable out of future surplus earnings; the Jan., 1897, coupon was paid, 1 p. c. in cash, and the balance in scrip; the July, 1897, coupon, 1¼ p. c. in cash and the balance in scrip; the Jan., 1898, coupon, 1¾ p. c. in cash, and the balance in scrip; the July 1, 1898, coupon, 2 p. c. in cash and the balance in scrip; the Jan. 1, 1899, coupon, 2 p. c. in cash and the balance in scrip; the July 1, 1899, coupon, 2 p. c. in cash and the balance in scrip; the Jan. 1, 1900, coupon, 1½ p. c. in cash and the balance in scrip, and the July 1, 1901, coupon, 2½ p. c. in cash and the balance in scrip.

The Dominion Government has granted this company a land grant of 1,625,344 acres, of which 1,126,230 acres have been sold, and 499,144 acres are retained by the Government against the subsidy. Equipment is furnished by the Canadian Pacific Ry. Co., free of charge for interest.

Operations, year ending Nov. 30, 1902.—Earnings—passenger, $65,419; freight, $178,599; other, $4,538—total ($248,556, less $5,712 Government service), $242,844. Operating expenses, $177,112. Net earnings, $65,732; and Government subsidy for year, $80,000—total, $145,732. Paid interest on bonds (on account coupons due Feb. and Aug. 1, 1902, £1 1s. p. c. each), $79,992; expenses, $496—total, $80,488. Surplus for year, $65,244. Deficit forward, $7,605. Net surplus, $57,639.

General Balance Sheet, Nov. 30, 1902.—Capital stock ($2,000,000 auth.; $100 shares), $201,000; bonded debt (1st mtge. 6 p. c. bonds), $3,809,140; interest unpaid, $977,044; coupons due, not presented, $1,568; sundry creditors, $3,665; profit and loss, $57,639—total, $5,050,056. Contra: Cost of road, $4,010,140; sundry debtors, $68,872; interest deferred, $977,044—total, $5,050,056.

Funded Debt.—The total issue of bonds is secured upon the entire property, excluding the land grant, and the proceeds have been applied toward the construction of the line to Prince Albert. The company is entitled to an annual subsidy from the Dominion Government, for transport of Government traffic, of $80,000 (£16,400) for 20 years from completion (1st section, July, 1890; 2d section, Oct., 1890), which is to be paid over direct by the Government to the agents of the loan, as trustees for the bondholders. As security for the annual subsidy the Government retained and now holds 499,114 acres of the company's land grant. The company is further entitled to a land grant of 1,625,344 acres of selected lands, a portion of which has been sold, and the proceeds paid to the agents of the loan to provide the balance of the interest on the bonds until and including the coupon due Feb. 1, 1896. The C. P. Ry. Co. had the option of paying off the bonds at 110 p. c. on that date, but it was not exercised. The bonds are redeemable Aug. 1, 1911, interest payable Feb. 1 and Aug. 1; all payments made by the agents for the loan—Chaplin, Milne, Grenfell & Co., London, Eng. It is agreed that in future if any portion of the coupons cannot be paid out of the net earnings and the Government subsidy, the deficiency will be paid in scrip redeemable out of future surplus earnings.

1. History.—Consolidation, Aug. 12, 1882, of a company of the same name with the Great Western Ry. Co. The company thus formed was united with the Northern Ry. Co. of Canada and its leased line, the Hamilton and Northwestern Ry., on Jan. 24, 1888, the consolidation taking the present style of The Grand Trunk Ry. Co. of Canada. Full particulars of both amalgamations were published in the MANUAL for 1892. (See also MANUAL for 1888, page 973). In 1892 the Northern and Pacific Junction Ry., 112 miles, and in 1893 certain auxiliary lines, having an aggregate length of 1,157.59 miles, were absorbed. A bill has been introduced in the Dominion Parliament for the incorporation of a company with powers to construct a railway through the Northwest Provinces of Canada to the Pacific, which it is proposed to work in connection and under traffic arrangements with the Grand Trunk Company.

This company owns $2,185,100 (out of a total of $3,000,000) of the capital stock of the Central Vermont Ry. Co., and guarantees the interest on the bonds of that company under a traffic agreement, by the terms of which this company agrees to provide for any deficiency up to an amount equal to 30 p. c. of the gross receipts from business interchanged between the two companies.

2. Mileage Operated, Dec. 31, 1902:

Grand Trunk Ry. and Leased Lines	3,558 miles.
Grand Trunk Western Ry	335 "
Detroit, Grand Haven and Milwaukee Ry	189 "
Toledo, Saginaw and Muskegon Ry. (including 21 miles of trackage)	117 "
Total length of lines, Grand Trunk Railway System, Dec. 31, 1902	4,199 miles.

2d track, 630 m.; sidings, 1,174 miles. Gauge, 4 ft. 8½ in. Rails all steel.

3. Lines Leased.—Included in the mileage of the Grand Trunk Ry. as above (3,558 miles), besides about six miles of trackage over lines not specified, are 564.15 miles leased and partly owned, and 9.77 miles leased or rented, as follows:

Atlantic and St. Lawrence: Portland, Me., to Island Pond, Vt.	149.58 m.	
United States and Canada: Canada Line to Massena Springs, N.Y.	22.18 m.	
Buffalo and Lake Huron: Fort Erie, Can., to Goderich	162.00 m.	
Owen Sound Branch: Park Head to Owen Sound, Ont	12.42 m.	
Chic., Det. & Can. G. T. Junc.: Port Huron to Detroit, Mich	59.37 m.	
Cin., Sag. & Mackinac: Durand to West Bay City, Mich	53.00 m.	
Michigan Air-Line: Lenox to Jackson, Mich	105.60 m.—	564.15 miles.
Lewiston and Auburn: Lewiston to Lewiston Junction, Me	5.41 m.	
Norway Branch: South Paris, Me. to Norway Village, Me	1.36 m.	
Montreal Wharf Branch	3.00 m.—	9.77 miles.

4. Controlled Lines.—This company controls the Grand Trunk Western, the Detroit, Grand Haven and Milwaukee, the Michigan Air-Line, and the Toledo, Saginaw and Muskegon Rys. through ownership of the entire capital stock of each, and controls the United States and Canada RR. and the Central Vermont Ry. through ownership of a majority of their capital stocks. It disposed of its majority interest in the capital stock of the Cincinnati, Saginaw and Mackinac RR. Co., but took a lease of that company's property, effective July 1, 1901. All of these lines, as also the Chicago, Detroit and Canada Grand Trunk Junction Ry., are operated by or in connection with the railroads of the Grand Trunk Ry. Co., but their operations are reported separately. See General Index for statements relating to those companies. There was a decrease of 3 miles in the length

16. ADDITIONAL INFORMATION RESPECTING CAPITAL STOCK AND FUNDED DEBT.

Four p. c. Guaranteed Stock.—Created by Act of 1884, and issued to holders of Great Western preference stock and ordinary shares, and is entitled to a non-cumulative dividend not exceeding 4 p. c. per annum of the net earnings of the company. Ranks next in priority to debenture stock. A bill has been introduced in the Dominion Parliament authorizing the company to increase this stock to an amount not exceeding £10,000,000.

First Preference Stock.—Under the Acts of 1873 and 1884 this stock is now entitled to a dividend of 5 p. c. per annum, in perpetuity, charged on the available net profits of each year after payment of dividend on guaranteed stock.

Second Preference Stock.—Ranking next to the first preference stock and otherwise identical in security with it. Full dividends were paid for the second half of 1863 and the first half of 1864, and a dividend of £1 13s. p. c. was paid for the first half of 1873, but no further dividend was paid till 1880, when the full dividend of 5 p. c. for the year was paid. The full dividend was also paid for the six half-years ending Dec. 31, 1883; no distribution then till 13s. 4d. per annum for the second half of 1887; in 1899, 3¼ p. c.; 1900, 3 p. c.; 1901, 4 p. c.; 1902, 5 p. c.

Third Preference Stock.—Under Acts of 1873 and 1884 this stock is entitled to a dividend of 4 p. c. per annum, in perpetuity, out of net earnings of each separate year, subject to the priority of the first and second preference stocks. The only distributions on this stock have been as follows: 1864, 4 p. c.; 1880, 1 p. c.; 1882, 3½ p. c.; 1883, 3¼ p. c.; 1902, 1 p. c.

Perpetual 5 p. c. Debenture Stock (Grand Trunk Section).—Created under powers of the company's "Consolidated Debenture Stock Act, 1874," passed May 26, 1874. Secured by 1st mtge. on all the company's property, as also upon the company's interest in the International Bridge and in leased and operated lines, subject, however, to the priorities of all other preferential charges existing at date of issue; ranks immediately after the Equipment Mtge. Bonds; interest 5 p. c. per annum, in perpetuity, payable Jan. and July.

Perpetual 5 p. c. Debenture Stock (Great Western Section).—This stock was issued in bonds of £100 each, with half-yearly coupons attached, payable to bearer on Feb. 1 and Aug. 1; or, at the option of holders, the stock can be registered in the books of the company. The debenture stock is defined by the "Gt. Western Co.'s Financial Act, 1871," to be, in common with the terminal bonds of that company, "a 1st mtge. and lien upon the railway tolls, lands, and other property which are hereby pledged, and shall stand pledged for the due payment of the said bonds and the interest thereon." In 1886, £17,000 of this stock was exchanged for £21,080 4 p. c. debenture stock; in 1887, £30,190 for £37,533 4 p. c. debenture stock; and in 1888, £3,630 for £4,488 4 p. c. debenture stock.

Perpetual 4 p. c. Consolidated Debenture Stock.—By the terms of the Grand Trunk Ry. Acts, 1887 and 1888, securities acquired by exchange for this stock are held alive for the benefit of the holders of the stock. The conversion into this stock of the pre-preference securities (including the 5 p. c. Grand Trunk and Great Western debenture stock), and the bonds of the controlled and subsidiary lines, will, from time to time, be proceeded with by an agreement with the holders. Interest payable Jan. 14, April 14, July 14, and Oct. 14, by warrant.

Second Equipment Mortgage Bonds.—Of these bonds, £127,000 had been acquired by the company to Dec. 31, 1902, and are held as security for the debenture stock, £123,700 having been acquired by the issue of 4 p. c. consolidated debenture stock, and £3,300 by issue of 5 p. c. debenture stock. These bonds are in denominations of £100, £500, and £1,000.

Four p. c. Perpetual Debenture Stock (North. Ry. of Canada.)—Is entitled to privileges and priorities of 2d preference bonds, which matured Aug. 1, 1884. Issued to July, 1884, 2d preference bonds being received in payment at £100 for £125 stock. Interest payable Feb. and Aug., in London.

Third Preference Irredeemable 6 p. c. Bonds, Class A (North Ry. of Canada).—Issued under the Companies' Act of 1868, and representing the third charge on the undertaking. Holders of these bonds are offered by the company, £125 4 p. c. debenture stock for £100 bonds.

Third Preference Irredeemable 6 p. c. Bonds, Class B (North. Ry. of Canada).—Issued under resolution of Feb. 10, 1869, and powers of Companies' Act of 1868, in substitution for the arrears of interest bonds, and ranking for dividends immediately after Class A bonds, and before the preference stock of 1876. The company offers £125 4 p. c. debenture stock for every £100 of these bonds.

Sterling 1st Mtge. 5 p. c. Coupon Grand Trunk, Georgian Bay and Lake Erie Bonds.—Total authorized amount, £310,200, of which £46,200 were set aside upon trust for extensions, etc., but £23,600 have been since expended in the construction of the South Norfolk extension and for other capital purposes. Of the balance, £51,300 had been already issued to the Grand Trunk Ry. Co. and others, leaving £212,700 available. The bonds are secured by a 1st mtge. deed of trust, dated April 25, 1883, on the Grand Trunk, Georgian Bay RR., together with all its land and property of whatever kind. Redeemable at par, in London, Aug. 1, 1903. Interest payable Feb. 1 and Aug. 1. The bonds are numbered 1 to 500 of £500 each, and 1 to 602 of £100 each. Those issued by the Scottish-American Investment Co. have been endorsed by them, and are numbered 001 to 0408 of £500, and 001 to 0060 of £100 each. The bonds are payable, principal and interest, at the offices of the Grand Trunk Ry. Co. They may be registered (at the same offices), as to principal or interest, or both; bonds registered as to principal only may be exchanged back again into coupon bonds, but bonds registered as to principal and interest must remain registered.

Midland of Canada 5 p. c. Consol. 1st Mtge. Bonds.—By the Act of Amalgamation of the Midland Ry. of Canada a consol. mtge. security was created for the purpose of (1) taking up and redeeming outstanding bonds of the companies then amalgamated, amounting together to £1,521,300; (2) making provision at the rate of £5,137 ($25,000) per mile, for the construction and equipment of the Toronto and Ottawa Ry.; (3) providing £60,000 for improvements on the Grand Junction section, and (4) £351,000, to be used as required for enlargements and extensions of the consolidated company's works. The bonds taken up are to retain their priorities on the sections in respect of which they were issued, and to be held by the trustees for the benefit of the consolidated bondholders until the existing bonds on all the sections of the Midland Ry. have been got in, when they will be cancelled, and the consolidated bonds will form the first charge upon the entire undertaking of the Midland Ry. The consols are secured by a mortgage, dated May 10, 1882, conveying to trustees the railway, lands, rolling stock, tolls, revenues, and all present and future real and personal property and effects. They are of £100 each, but may be of such other sums as the directors may deem proper. Interest payable Jan. 1 and July 1, and principal payable at par, in London, on Jan. 1, 1912.

Midland of Canada 5 p. c. Sterling 1st Mtge. Bonds.—Issued in 1878 by the old Midland Co., in lieu of outstanding mortgages. The coupon due May, 1878, was not paid till Nov., 1880, and the five following coupons were funded in 5 p. c. deferred interest certificates, which were included in the bonds to be redeemed by 1st mtge. consols. The subsequent coupons were paid at maturity. Both principal and interest are payable in London, and the bonds are redeemable in May, 1908.

The Wellington, Grey and Bruce 1st Mtge. Bonds are the outstanding balance of an issue of £532,000, the remainder having been retired either by drawings or by conversion into Grand Trunk 4 p. c. debenture stock. The bonds are a first lien on the Wellington, Grey and Bruce Ry. The line is operated by the Grand Trunk Ry. Co., which gives Wellington bonds 30 p. c. of the gross receipts as interest, and sets aside a further 20 p. c. of extra traffic interchanged for redeeming bonds by drawings in May and Nov. The 30 p. c. of the gross receipts has been insufficient to pay the full interest on the bonds, which is consequently in arrear £3 7s. on the coupon due July 1, 1891, besides the full amount of all subsequent coupons. All payments are made at the office of the Grand Trunk Ry. Co.

20. PROPERTIES OWNED, LEASED, OR CONTROLLED BY THE GRAND TRUNK RY. CO.

ATLANTIC AND ST. LAWRENCE RR.—Portland, Me., to Island Pond, Vt., 149.58 m.; Island Pond to Canadian Boundary, 15.64 m.—total owned, 165.22 miles. Leased lines: Norway Branch RR., 1.36 m.; Lewiston and Auburn Branch RR., 5.41 m.—total, 6.77 miles. Total operated, 171.99 miles. Gauge, 4 ft 8½ in. Rail (steel), 65 to 80 lbs.

HISTORY.—For history, see MANUAL for 1888, page 1. Leased Aug. 5, 1853, for 999 years, to the Grand Trunk Ry. Co. of Canada, the lessee assuming all outstanding obligations and guaranteeing 6 p. c. on the stock.

BALANCE SHEET, June 30, 1901 (latest rendered).—Capital stock ($100 and £100 shares), $5,484,000; funded debt (1st mtge. 5-20-yr. bonds of Oct. 1, 1884, £309,900 or $1,499,916; 2d mtge. 5-20-yr. bonds of May 1, 1871, £147,300 or $712,932; 3d mtge. 5-20-yr. bonds of July 1, 1889, £162,600 or $786,984; balance due on exchange of bonds, $168; 6 p. c. 30-yr. Island Pond debentures, dated Dec., 1882, $438,000), $3,438,000—total, representing cost of road, etc., $8,922,000.

The bonds, $3,000,000, are all held by the Grand Trunk Ry. Co., which issued against them its 5 p. c. perpetual debenture stock. The sinking fund for the redemption of the city of Portland bonds was finally closed Nov. 2, 1888, by the payment of $308,000 of those bonds, which matured on that date. By the terms of the agreement between the Grand Trunk and this company the lessor is required to issue stock to replace the debt to the city of Portland when the lessee demands such issue. The Grand Trunk Ry. Act of 1884 gave the lessee power to redeem the rental payable to the Atlantic and St. Lawrence Co. by the issue of 4 p. c. debenture stock.

CORPORATE OFFICERS.—Charles M. Hays, Pres.; F. W. Morse, Vice-Pres., Montreal, Can.; W. W. Duffett, Treas. & Clerk, Portland, Me. Office, Montreal, Que.

Lewiston and Auburn Branch RR.—Lewiston Junction to Lewiston, Me., 5.41 miles. Rail (steel), 65 lbs. Chartered in Maine, Feb. 19, 1872; road opened July 14, 1874, and leased to the Grand Trunk Ry. Co. for 99 years from March 10, 1874 (lease dated March 25, 1874), for $18,000 per year, being 6 p. c. on $300,000 stock owned by the cities of Lewiston and Auburn. E. G. Eveleth, Pres., Auburn, Me.; E. F. Scruton, Treas.; W. S. Keen, Clerk, Lewiston, Me. Office, Lewiston, Me.

Norway Branch RR.—South Paris to Norway, Me., 1.36 miles. Chartered April 23, 1879; opened in Dec., 1879. Leased to Grand Trunk Ry. Co. for 99 years from May 1, 1880, at a nominal rental of $1 per annum. Capital stock (all of which was paid to Grand Trunk Ry. Co.), $8,750. Freeland Howe, Pres.; Charles N. Tubbs, Treas.; H. J. Bangs, Clerk, Norway, Me. Office, Norway, Me.

BUFFALO AND LAKE HURON RY.—International Bridge, Can., to Goderich, Can., 162 miles. Chartered May 16, 1856; opened June 28, 1858. Leased Feb., 1870, in perpetuity, to the Grand Trunk Ry. Co., of Canada, at an annual rental of £70,000. The rent charge up to £42,500 takes precedence of the lessee's 1st equipment bonds, and the additional amount ranks after the 2d equipment bonds. The interest on the company's bonds absorbs £42,006 per annum, and the residue is available for dividends on the ordinary shares. The dividend for each of the thirty-five half years to Dec. 31, 1901, was 5s. 3d. per share. Rental under the lease, £70,000 per annum. Ordinary stock (£10 per share), £525,130; funded debt (1st mtge. £297,600; 2d mtge., £466,158), £763,758 5½ p. c. irredeemable bonds, interest March and Sept.—total stock and bonds, £1,288,888. The 1st mtge. bonds and the interest thereof are charged on all the railway and property of the company vested in the Grand Trunk Ry. Co. of Canada, and the 2d mtge. bonds are secured on the same as the 1sts, but subject to them. Of the 1sts, £400 are held over by the company, and of the 2ds, £11,367. TWENTY-TWO YEARS OF PROTECTION.

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second, the Period of the attempted Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period, of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature,—a return to the Protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—"Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

GREAT NORTHERN RAILWAY OF CANADA.

1. Mileage Operated, June 30, 1902 (owned, 174.25 miles).

Main Line of Road: Rivière à Pierre Junc., Que., to Hawkesbury, Ont.	168.00 miles.
Branches: To St. Jerome, Grand Mere and Shawinigan Falls, Que.	6.25 "
TRACKAGE: *Quebec & Lake St. John Ry.*—Rivière à Pierre, Que., to Quebec, Que.	58.00 "
Total length of lines operated June 30, 1902	232.25 miles.

Sidings, etc., 12 miles. Gauge, 4 ft. 8½ in. Rail (steel), 56 and 70 lbs.

2. History.—Chartered as the Great Northern Ry. by the Legislature of Quebec on March 30, 1883, and by the Dominion Government on July 9, 1892. On June 23, 1900, the title of the company was changed to Great Northern Ry. of Canada, and the charter made perpetual by Act of Parliament. The line was built from St. Jerome to Montcalm, 28 miles, in the fall of 1894; the extension to Shawinigan during the fiscal year, 1896-97, and the entire line completed as above, April 1, 1901. The Lower Laurentian Ry., extending from Rivière à Pierre to St. Tité, Que., a distance of 39 miles, was purchased, and forms a part of the main line (see MANUAL for 1900, page 819).

The main line operated by the company runs from a connection with the Canada Atlantic Ry. at Hawkesbury, Ont., to Quebec, Que., a distance of 226 miles, of which 168 miles are owned, the remaining 58 miles consisting of leased running rights over the Quebec and Lake St. John Ry., and affording connection with the Great Northern's own freight terminals and docks at Quebec. A cut-off, to be built during 1902-3, will reduce the mileage operated over the Quebec and Lake St. John Ry. to 22 miles. "In connection with the Canada Atlantic Ry., the Leyland Steamship Co. Manchester Line, and the Canada Atlantic Transit Co., the Great Northern Ry. forms an important part of a through line, lake and rail, between Duluth and Liverpool, over 800 miles shorter than via Buffalo."

The Great Northern Ry. of Canada has a contract running for twenty years with the Canada Atlantic Ry. for interchange of traffic on a mileage basis. The Great Northern owns the entire capital stock of the Great Northern Elevator Co. at Quebec.

The Chateaugay and Northern Ry., now under contract to be built from Montreal to Joliette, Que., has been leased for 99 years by the Great Northern Ry., and will form the entrance of the latter into the city of Montreal, where it will have its tracks direct to the wharves, and a connection with all the southern lines entering Montreal. This line will be 36 miles long, and is expected to be completed in the fall of 1903.

3. Rolling Stock, June 30, 1902.—Locomotives, 21. Cars—passenger, 15; baggage, mail and express, 16; freight (box, 496; flat, 179; gondolas, 69; stock, 2), 746—total cars, 777.

5. Financial Statement, June 30, 1902.—Capital stock authorized (common, $4,550,000; debenture, $3,000,000; preferred, $450,000), $8,000,000. Issued to date, $4,375,000 common and $1,503,353 debenture stock. Funded debt outstanding consists of (1) $4,002,000 1st mtge. 50-yr. $1,000 gold coupon (with privilege of registration of principal) sinking fund bonds due Jan. 1, 1950, interest Jan. and July at the office of the trustee, Central Trust Co., New York, N. Y.; (2) $158,000 Quebec Terminal 1st mtge. 50-yr. bonds, due 1950, interest at Montreal, Can., and (3) $350,000 equipment trust 6 p. c. bonds, dated 1901, due semi-annually till 1905, interest Jan. and July at office of Central Trust Co., New York, N. Y. Total stock and bonds outstanding June 30, 1902, $10,388,353. *Assets:* Cost of road, $7,942,903.99; equipment, $704,600.33; terminal property, $118,322.34; materials, etc., on hand, $23,499.43; cash on hand, $68,271.38; current accounts and balances, $68,263.03; stock and bonds in treasury, $4,144,850.04.

The $4,002,000 outstanding 1st mtge. bonds consist of two series—Series "A" for $3,502,000, and Series "B" for $500,000. The authorized amount of Series "A" bonds is $6,000,000, being at the rate of $20,000 per mile of completed railway, not exceeding 300 miles, provided, however, that bonds, not to exceed $20,000 per mile, may be issued upon completed railway mileage required in excess of said 300 miles, but only with the consent of the holders of 60 p. c. in value of outstanding Series "A" bonds. These bonds are secured by deed of mortgage, dated Jan. 1, 1900, to the Central Trust Co., New York, N. Y., of all railways, lands, rolling stock and franchises of the railway company. The $500,000 Series "B" bonds were issued on account of bridge over the Ottawa River at Hawkesbury. These two issues of 1st mtge. bonds (Series "A" and Series "B"), by special act of the Dominion Parliament in 1901, were made equal security and a first lien on the railroad and bridges. Beginning Jan. 1, 1910, a sinking fund of 1 p. c. of the outstanding amount of bonds is provided for their redemption; this sinking fund absolutely retires the entire issue at maturity. The authorized amount of Quebec Terminal mortgage bonds is $300,000; they were authorized by the stockholders on Oct. 16, 1900, to provide for improvements to the company's terminals at Quebec. The equipment trust bonds were authorized on July 17, 1901; they are a lien on the equipment, but are further secured by deposit of $300,000 of the 1st mtge. railroad bonds.

ALBERTA RY. AND COAL CO.—Lethbridge, District of Alberta, to Coutts, at International Boundary, 64.62 m.; total track (steel; 35 lbs.), 77.83 miles. Gauge, 3 ft. Chartered Jan. 20, 1889. On Dec. 31, 1889, the company leased the properties of the North Western Coal and Navigation Co. and purchased them outright in Feb., 1891. They included a railroad from Lethbridge to Dunmore in the District of West Assiniboia, 109.5 miles, which was sold Dec. 31, 1897, to the Canadian Pacific Ry. Co. (See MANUAL for 1898, page 896.) The line from Lethbridge to Coutts was built by this company. It was opened for traffic on Dec. 8, 1890. At the International Boundary Line connection is made with the Great Falls and Canada Ry., which is owned by an affiliated corporation, and at Lethbridge, with the Canadian Pacific Ry. Besides the railway from Lethbridge to Dunmore the properties purchased from the North Western Coal and Navigation Co. included coal mines, etc., about 10,640 acres of coal lands, of which the company paid for 2,972 acres, and agreed to purchase the rest from the Dominion Government at $10 per acre, now payable within nine years from Jan., 1894. The company also acquired in the North Western Coal and Navigation purchase 317,390 acres of farming land and obtained from the Dominion Government a grant of 418,736 acres, making a total of 736,126 acres. As the result of negotiations between the company and the debenture holders, all the town plots, farm lands, and mortgages were in Dec., 1891, released from the trust deed for the debentures, to enable an affiliated company to be formed for their purchase. (See Lethbridge Land Co. subjoined.) Locomotives, 12. Cars—passenger, 3; baggage, etc., 2; freight (box and stock, 22; flat, 7; coal, 258), 287; service, 19—total cars, 311.

Operations, year ending June 30, 1902.—Trains run (freight, 21,125; mixed, 28,066), 49,191 miles. Passengers carried, 6,774. Tons freight moved, 60,077. Earnings (passenger, $14,894; freight, $51,993; other, $73,149), $140,036. Operating expenses, $101,485. Net earnings, $38,551.

Financial Statement, June 30, 1902.—Capital stock authorized ($100,000 ordinary; $1,500,000 preferred; $100 shares), $1,600,000; paid in (ordinary, $100,000; preferred, $1,000,000), $1,100,000; funded debt, $4,551,676—total capital, $5,651,676. Floating debt, $43,481. Cost of road, etc., $4,881,269.

Funded Debt outstanding consists of $608,333.33 prior lien 4 p. c. debenture stock ($608,333.33 auth.), dated Dec. 10, 1895, redeemable at 110 p. c. until June 28, 1905, and at 105 p. c. thereafter, interest Jan. and July; $1,216,666.67 debenture stock "A," dated Dec. 10, 1895, and redeemable at par at any time at three months' notice, interest 4 p. c., payable Jan. and July only if earned until June 30, 1900; $3,184,362.29 debenture stock "B" ($3,650,000 auth.), dated Dec. 10, 1895, interest 5 p. c., payable in Dec. only if earned.

The Lethbridge Land Co. was organized in 1891 for the purpose of taking over the farm lands and certain other property of this company, and paying therefor in bonds, while the debenture holders of this company agreed to accept payment of their coupons in 1892, 1893, and 1894, partly in cash and partly in the bonds of the Lethbridge Land Co. This arrangement fell into default in 1893, and in 1895 the capital account was entirely reconstructed, the ordinary shares being written down by $1,650,000, while for the old debentures, with arrears of interest reckoned at £110,000, "A" debenture stock and "B" debenture stock have been issued, and prior lien debenture stock has been issued partly to provide for floating debts. The prior lien debentures, "A" debentures, and "B" debentures are secured in the order named on the railway, land, and other real property of the company, except the Dunmore-Lethbridge Line and purchase money payable for the same by the Canadian Pacific Ry. Co., and are secured as a floating charge on the other assets of the company. The "B" debentures are redeemable as to £100,000 out of any balance remaining from the sale of the Dunmore-Lethbridge Line after the repayment of a loan of £113,000, and as to the balance at any time, at par, at the company's option, on three months' notice. Trustee for debentures: The Trustees, Executors and Securities Insurance Corporation, Limited, London, E. C.

Lethbridge Land Co., Limited.—Chartered Dec. 22, 1891, to acquire from the Alberta Ry. and Coal Co. mortgages to the amount of about $800,000 on lands (which the Alberta Co. had sold) lying in the district of Alberta, N. W. T., Can., together with about 45,000 acres near the town of Lethbridge and 1,500 lots within that town. Capital stock (£10 shares), £100; funded debt, purchase money, 6 p. c. £50, £100, and £500 debentures, due Jan. 1, 1905, but redeemable at par on three months' notice, interest Jan. and July (£200,000 issued), £191,980. These debentures were issued to the Alberta Co., to be delivered by that company in part payment of interest on its debentures (see statement for Alberta Ry. and Coal Co.). In the agreement with the Alberta Co. it is provided that so soon as this company's bonds shall have been redeemed, all the remaining lands and properties hypothecated as security are to be retransferred to the Alberta Co. The company's report, dated Dec. 22, 1896, stated that negotiations were pending for the purchase outright of the major portion of the company's bonds. Interest on the bonds is payable at the company's office. The interest due July 1, 1894, and subsequently, is in arrear. Adrian C. F. Hope, Pres.; Geo. Edwards, Sec., 17 Old Jewry, London, E. C.

St. Mary's River Ry.—Stirling to Spring Coulee, District of Alberta, 30 miles. Gauge, 4 ft. 8½ in. Rail (steel), 28 lbs. Chartered in 1900; road built during fiscal year 1900-1901. Operated by the Alberta Ry. and Coal Co., which company provides rolling stock.

KINGSTON AND PEMBROKE RY.—Kingston to Renfrew, Ont., 103.10 m.; Bedford to Zanesville, Ont., 4 m.; branches to Iron Mines and Mills, 5.75 m.—total, 112.85 m.; total track, 133.85 miles. Rail (steel, 103.10 m.), 56 lbs.; iron, 50 and 84 lbs. Gauge, 4 ft. 8½ in. Chartered April 14, 1871; road opened June 17, 1875; extended to Renfrew in 1884. At the latter place and at Sharbot Lake connection is made with the Canadian Pacific Ry. and at Renfrew with the Canada Atlantic Ry. This company has running powers over the Canadian Pacific from Renfrew to Pembroke, about 35 m., and from Pembroke to Nipissing, a further distance of 140 miles. It also has the right to have its traffic carried, with the same diligence, dispatch, and care as the Canadian Pacific traffic, and at arbitration rates, from Nipissing to Sault Ste. Marie, a distance of 300 miles. These privileges are granted by the Government, and are settled by statute. The company received from the Dominion Government 30 acres of land in the city of Kingston for terminal facilities, and 60 acres additional under water for docks, at nominal figures. The company also owns 18 acres at Renfrew and 10 acres at Sharbot Lake. It is exempt from taxation for 20 years in Kingston and Renfrew. The Bay of Quinte Ry. Co. (see General Index) uses this company's line between Kingston and Harrowsmith, 19 miles.

Default was made on interest due on the 1st mtge. 6 p. c. bonds on Jan. 1, 1893, and on Oct. 15, 1894, a receiver was appointed. On June 13, 1898, the Parliament of the Dominion of Canada passed an Act authorizing the reorganization of the company on the following terms: (1) The exchange of its 6 p. c. bonds for 3 p. c. bonds, due Jan. 1, 1912, on payment of six and one-half years' 6 p. c. interest up to Jan. 1, 1899. (2) The reduction of the common stock 50 p. c. and for purpose of paying its indebtedness to issue $1,000,000 of 1st preference 5 p. c. non-cumulative stock. The company was also authorized to issue, for the benefit of the bondholders only, $150,000 2d preference 3 p. c. non-cumulative stock, to be given to the bondholders in lieu of 3 p. c. reduction of interest to maturity of bonds in 1912. The receiver has been discharged and the company has no floating debt. Locomotives, 9. Cars—passenger, 8; baggage, etc., 3; freight (flat, 50; box, 20; coal, 1), 71—total cars, 82. The main line and the Chaudière Valley and Angus branches were opened in June, 1881. (See MANUAL for 1895, page 994.) In March, 1881, the company purchased the Levis and Kennebec Ry., thereby securing an entrance into Quebec. The Tring Megantic Branch was completed in

Sept., 1895. Locomotives, 19. Cars—passenger, 18; palace, 1; sleeper (leased), 1; baggage, etc., 6; freight (cattle and box, 252; flat, 289), 541; service, 8—total cars, 575. Also 5 snow-ploughs, 1 steam shovel, and 1 flanger.

Operations, year ending June 30, 1902.—Trains run (passenger, 145,939; mixed, 440,952), 586,891 miles. Passengers carried, 203,296. Tons freight moved, 386,610. Earnings (passenger, $207,635; freight, $398,530; other, $22,075), $628,240. Operating expenses, $434,941. Net earnings, $193,299.

General Balance Sheet, June 30, 1902.—Capital stock, $3,381,603; 5 p. c. prior lien bonds, $739,733; 7 p. c. income mtge. bonds, $1,644,933; 4 p. c. debenture stock, $1,132,654; 3 p. c. debenture stock, $1,644,933; wages, month of June, $19,925; accounts due, $167,374; interest unclaimed to June 30, 1902, $71,517; net revenue balance, $88,093—total, $8,890,765. Contra: Cost of road, $8,607,123; materials and fuel, $69,407; accounts, etc., $159,074; cash in bank, $55,461—total, $8,890,765.

Capital Stock.—The capital stock consists of $3,381,603.33 fully paid shares, including Chaudière extension shares, of $125 (called first preference). The $1,132,654 debenture stock, issued to June 30, 1902, bears interest not exceeding 4 p. c. per annum, payable in London, the total interest upon which shall not at any time exceed the sum of £20,000 sterling per annum, and the principal whereof shall rank as a charge on the company's railways, rolling stock, property and undertaking, without registration, next after the outstanding prior lien bonds. Part of these debentures were issued for the retirement of prior lien bonds, reducing the amount of the latter from £350,000 to £152,000. The principal of the 1st debenture (4 p. c.) stock is payable only in case of default in interest continuing for six months, or in the event of liquidation, but the stock may be redeemed at 110 p. c. at any time after 20 years from date of issue, on six months' notice. In the event of liquidation before 20 years from date of issue, the 1st debenture stock will be redeemable at 110 p. c. The 2d debenture (3 p. c.) stock was issued in Oct., 1901, and subsequently in part exchange for old 5 p. c. income bonds. It ranks next after the 1st debenture stock, and is redeemable at par after Jan. 1, 1922, on six months' notice. Interest on it is contingent upon the net profits of each year after payment of prior charges, and is payable on Jan. 15 and July 15. The amount of 2d debenture stock authorized is £338,000 in bonds of £50; issued and outstanding, £329,700; reserved for the retirement of the outstanding 5 p. c. income bonds, £8,300.

Under act of 1886, authorizing the issue of 5 p. c. income bonds, the voting power of preference shareholders was partly suspended until the full interest of 5 p. c. per annum has been paid on those bonds for three consecutive years, and this is still in force with regard to the securities issued in exchange for the 5 p. c. income bonds (the 2d debenture stock and the 7 p. c. income bonds).

Funded Debt consists of £152,000 prior lien bonds of £100 each, due Feb. 1, 1908, coupons payable Feb. and Aug., in London. They are secured on the whole lien, lands, equipments, tolls, and revenues, etc. The bonds are to bearer, but may be registered (as to principal only), and registered bonds may be exchanged back again into bonds to bearer.

There are £8,300 of a total of £676,000 5 p. c. income bonds outstanding, £667,700 having been converted into 2d debenture stock and 7 p. c. income bonds under an agreement reached in Sept., 1901, under which each £100 income 5 p. c. bond was offered in exchange £50 in 3 p. c. 2d debenture stock and £50 in income 7 p. c. bonds. The authorized amount of income 7 p. c. bonds is £338,000. They are redeemable at par after Jan. 1, 1922, on six months' notice. Interest on them is payable annually, as soon as the available surplus net revenue is ascertained.

The income bonds carry voting power at rate of one vote for every £20, and elect six directors out of a board of nine; and the power to vote vested in preference shares is suspended until full interest shall have been paid on income bonds for three consecutive years. Subsidies amounting to £175,850 were received for the original line and £112,650 for the Tring Megantic branch.

TEMISKAMING AND NORTHERN ONTARIO RY.—Under construction: North Bay, Ont., on Lake Nipissing, to New Liskeard, Ont., on Lake Temiskaming, about 112 miles. Extension projected: New Liskeard, Ont., northwesterly about 80 miles to a connection with the Grand Trunk Pacific Ry. Gauge, 4 ft. 8½ in. Rail (steel), 80 lbs. This is a Government (Ontario) enterprise, authorized by act approved March 17, 1902, and amended June 12, 1903. The contract for the line from North Bay to New Liskeard was let in Oct., 1902, and work has been continuously in progress since then. Grading has been completed for more than 50 miles, ballasting for more than 25 miles, and track laying is in progress. A land grant of 20,000 acres per mile of road has been set aside by the government to assist in defraying the cost of the road. The funds necessary for its construction are to be raised from the issue of bonds described in the next paragraph.

Financial Statement.—An issue of $2,750,000 bonds has been authorized, to be issued at the rate of $25,000 per mile of road. The bonds will be dated Oct. 1, 1903, and will mature Oct. 1, 1933, interest at the rate of 3½ p. c. per annum to be paid on April 1 and Oct. 1. The issue will consist of 5,500 bonds, each for $500 or £102 14s. 10d. sterling. Both principal and interest will be payable in gold, in Toronto, Ont., New York, N. Y., or London, Eng., at the holder's option. The bonds are guaranteed by the Province of Ontario, and are specifically secured as a charge on the railway and on the proceeds of the sale of the land grant of 20,000 acres per mile, but not including the proceeds of the sale of timber or minerals on such land grant. It is provided that the proceeds of the sale of said lands, together with the surplus income of the Temiskaming and Northern Ontario Railway Commission from other sources, shall be paid over annually to the Provincial Treasurer to provide a sinking fund for the redemption of the bonds. Such sinking fund is to be invested in such securities as the Lieutenant-Governor in Council from time to time shall think proper.

Commissioners.—A. E. Ames, B. W. Folger, Edward Gurney, F. E. Leonard, M. J. O'Brien, Toronto, Ont. OFFICERS: A. E. AMES, *Chairman;* P. E. Ryan, *Sec.-Treas.;* D. E. Thomson, *Counsel,* Toronto, Ont.

Financial Statement, June 30, 1902.—Capital stock ($1,000,000 auth.), $991,000; funded debt, $2,258,133 5 p. c. bonds; subsidies (Dominion, $645,950; Quebec, $362,500; N. B., $66,000), $953,450; municipal aid, $25,000—total subscribed, $4,357,333; paid up, $4,348,333. Cost of road, etc., $2,022,001.

Funded Debt.—£320,450 5 p. c. 1st mtge. debentures of £50, £100, £500, and £1,000, in coupon form, with privilege of registration, secured on the road and property of the company. Interest payable Jan. and July, at Lloyd's Bank, Limited, 72 Lombard St., London, E. C. Bonds are guaranteed by the Province of Quebec, and mature in 20 years, but a sinking fund of 67 p. c. of the net earnings of the line, together with the annual subsidy received from the Government, are set aside for the redemption of the bonds by annual drawings at 105 p. c., or by purchase. The first redemption took place in 1889. Trustees: Lord Hatherton and the Trustees' and Executors' Co., Limited, of London.

Also, £140,000 guaranteed 5 p. c. sterling 1st mtge. debenture bonds (St. Francis Branch, Temiscouata Ry.), in bonds of £50 and £100. The interest on this issue is absolutely and unconditionally guaranteed (irrespective of the earnings of the railway) by the Quebec Government, for 10 years from March 1, 1890. Each bond is indorsed by the treasurer of the Government of Quebec. Interest payable by the London agents, in sterling, March 1 and Sept. 1; principal payable in gold, in London, March 1, 1910. A reserve fund will be formed for securing the regular payment of the interest after the expiration of the Government guarantee by setting aside 33 p. c. of the net earnings of the branch in each year for 10 years, to accumulate in the hands of trustees. The whole property of the new railway and the undertaking has been secured to the debenture holders by deed of mortgage and trust deposited with the Secretary of State of Canada. Bonds are numbered—Series "A," 1 to 1,000, of £100 each, and Series "B," 1,001 to 1,800, of £50 each. Trustees: Lord Hatherton, John Charles Salt, and C. A. Whitmore. Voting power will attach to bonds in case of default in interest payments.

Total length of lines operated, June 30, 1902	555.0 miles.

Gauge, 3 ft. Rail (steel), 50 and 56 lbs.

Additional Lines.—A link line from Cuautla to Chietla, a distance of 42 miles, connecting the Morelos and Matamoros Divisions, was opened in the summer of 1903. The Mexican Eastern Ry. Co.'s short line from San Nicolas to Oriental, 62 miles, has also been completed. The taking over of the Mexican Eastern Ry. (see Sec. 2), 139 miles, and the opening of the link line between Cuautla and Chietla, 42 miles, make the present operated mileage 736.

2. History.—Chartered April 30, 1888, and purchased all the concessions granted by the Mexican Government for a railroad from Vera Cruz to Amacusac, and contracted with the concessionnaire to build the lines necessary to complete existing links and to put the latter into repair. The concessions confer the privilege of operating the railroads for 99 years from Feb., 1883, after which they are to pass to the State, which will then recognize charges on them to an amount of not exceeding $10,000 per kilometer (about $16,000 per mile) bearing interest at 6 p. c. per annum until paid off; the rolling stock to be paid for at a valuation. The road was opened to Vera Cruz from the City of Mexico on April 1, 1891. In July, 1891, the company purchased the Matamoros Ry., extending from Los Arcos, near Puebla, to Matamoros Izucar, 48 miles. The extension from Jojutla to Puente de Ixtla, about 12 miles, necessary to fulfill the obligations of the company under its concession, was opened Aug. 1, 1894. A subvention of $160,000, payable by the Government in respect to this extension, has been received.

Interest due in 1893 and subsequently on the then 6 p. c. mortgage debenture stock was paid in cash only in part, and in 1896 a scheme for the reorganization of the debenture stocks was carried out, the company, for the purposes of the plan, being placed in temporary liquidation. An outline of the scheme of reorganization was published in the MANUAL for 1896, page 1510.

Mexican Eastern Ry. Co.—The Mexican Eastern Ry. Co., Limited, has been organized to purchase the Nautla Ry., a narrow-gauge line from San Marcos to Tezuitlan, 79 miles, and to construct a line from Virreyes to San Nicolas, about 62 miles. The company has a nominal share capital of £10,000, all of which has been allotted as fully paid to the Interoceanic Co., and a 5 p. c. debenture capital of £450,000 authorized. To pay the purchase price of the Nautla Ry., provide for the construction of the Virreyes-San Nicolas line, and the equipment of both, £400,000 of the debenture stock has been issued. Contracts have been made under which the Interoceanic Co. undertakes (1) to manage the Nautla Ry. for account of the Mexican Eastern Co. until the Virreyes-San Nicolas line is opened to

traffic; (2) to carry out certain improvements on the Nautla Ry. and the construction and equipment of the line from Virreyes to San Nicolas in consideration of the payment of £180,000 sterling, and (3) to lease and work both lines from the completion of the construction of the Virreyes-San Nicolas line until Jan. 1, 1984, at an annual rental sufficient to cover the interest on the debentures of the Mexican Eastern Co. for the time being outstanding as well as its general expenses. From Jan. 1, 1920, the rental is to include £2,000 per annum to provide a sinking fund to be set aside for the redemption of the debentures, which amount is to be proportionately increased if and when the remaining £50,000 5 p. c. debentures are issued. The Interoceanic Co. will have the right to purchase the property of the Mexican Eastern Co. at any time after June 1, 1914, upon giving six months' notice, the purchase price to be a sum sufficient to redeem the issued debenture stock of the Mexican Eastern Co. at the price of 105 p. c.

An agreement has been made with the Mexican Ry. under which all competitive traffic is being pooled as from March 1, 1902. This agreement is for a period of not less than seven years, subject to four years' notice if given as on March 1, 1905, or not less than five years' notice if given at any subsequent date.

The four lines, members of the Mexican Traffic Association, have entered into a new pooling agreement covering European goods imported into Mexico, which came into operation on May 1, 1902.

8. PARTICULARS RESPECTING THE COMPANY'S SECURITIES.

The ordinary shares are for £10, fully paid, and were issued to the vendors of the original concession, and the contractors, and £200,000 in part payment of the Matamoras Ry.

The 7 p. c. cumulative preferred shares are for £10, fully paid. Of this amount, £800,000 were issued to the public in July, 1888, at par, and the remainder (£200,000) was issued to the vendors of the original concession and the contractors.

The 5 p. c. prior lien debentures are for £50 and £100 each, of which £200,000 were issued in March, 1892, at 90 p. c., £100,000 in May, 1893, at 93 p. c., £60,000 in Feb., 1894, at 90 p. c., and £40,000 on Jan. 1, 1897, at 95½ p. c. Interest payable Jan. 1 and July 1, and principal due March 31, 1912; but the company reserved the right of repayment at par at any time after March 31, 1897, on six months' notice. A sum equal to the percentage paid as dividend on the preference shares is to be set aside each year as a reserve fund for the redemption of these bonds. These prior lien debentures are a 1st mtge. on the lines from Mexico to Vera Cruz, Mexico to Amacusac, and branches to San Juan, San Nicolas and San Lazaro to the Custom House in Mexico City, and upon the company's equipment and net revenue. Provision has been made for the repayment of these bonds by the issue of £450,000 4 p. c. debenture stock.

The 4 p. c. debenture stock ranks next after the prior lien debentures on the whole of the company's undertaking. Interest is payable March 15 and Sept. 15, and the principal matures on Sept. 15, 1950, the company, however, having the option of redeeming the stock at par at any time on six months' notice. Issued in accordance with a scheme of arrangement agreed to in 1896, as follows: £462,000 to holders of the 6 p. c. mtge. debenture stock, in the proportion of 33 p. c.; £54,450 to holders of the Matamoras debenture stock, in the proportion of 33 p. c., and £12,210 to holders of the Matamoras debenture stock, being the par value of the arrears of interest up to Sept. 15, 1895, not represented by deferred interest warrants. £450,000 stock is reserved for the redemption of the existing £400,000 prior lien debentures, and the remainder (£100,000) of the working capital was offered on Oct. 4, 1900, to the 4 p. c. debenture stockholders and was allotted. The stock is a first charge (secured by deed of hypothecation registered in Mexico in favor of the National Safe Deposit Company, as trustee) upon the whole of the company's undertaking, including the Matamoras Ry., subject only to the existing lien of the £400,000 5 p. c. prior lien debentures.

The 4½ p. c. 2d debenture stock forms part of a total authorized of £1,300,000, created in Nov., 1900, to rank as a charge on the company's undertaking in priority to the "A" debenture stock. The stock is secured by trust deed, and is repayable at par in 1950, with power to the company to redeem at 105 p. c. at any time after Jan. 1, 1911, on six months' notice. Interest is non-cumulative until Jan. 1, 1906, after when it will be payable half-yearly, on May 30 and Nov. 30. Of the total authorized of £1,300,000 it was provided that £200,000 should be applied to meet expenditures on capital account, £950,000 was reserved to secure the redemption of the 7 p. c. "A" debenture stock of the company, and the remaining £150,000 is to constitute a reserve for the future requirements of the company, but is not to be issued before Jan. 1, 1905. The £150,000 outstanding at the date of the general balance sheet was issued to the debenture stockholders and preferred shareholders of the company; £1,000,000 additional has been sold to the Mexican Government since the close of the fiscal year, and the proceeds have been or will be applied in part to the retirement of the 7 p. c. "A" debenture stock.

The 7 p. c. "A" debenture stock was called for redemption at the price of 110 p. c., on March 31, 1903, in accordance with the powers reserved by the company when the stock was created.

The 7 p. c. "B" debenture stock ranks next after the "A" debenture stock. Interest is payable only if earned, and is non-cumulative until for five consecutive years the revenue shall have been sufficient to provide the full interest on this stock. The stock is to be redeemed on Sept. 15, 1950, with power to the company to pay it off at any time on six months' notice at 120 p. c. This stock was issued in 1896 in part conversion of the 6 p. c. mtge. debenture stock and Matamoras debenture stock.

2. History.—Incorporated in Massachusetts Feb. 25, 1880, and in the same year purchased of the Guanajuato Ry. Co. 60 kilometers of narrow-gauge railway, which was widened and made a part of the main line. The entire main line was completed March 8, 1884, and opened April 10, 1884. For progress of construction up to the close of 1901, see previous numbers of the MANUAL. During the year 1902, the Zamora Extension was extended from Tinguindin to Los Reyes, a distance of 11.94 miles, and the Rio Verde Extension was completed to Rio Verde, a distance of 1.45 miles. Two spur tracks were built from points on the main line to the Dynamite Works and Sulphur Mine; the Dynamite Spur leaving the main line at Kilometer 1163 and running 6.21 miles to the Dynamite Works, and the Sulphur Spur leaving the main line at Kilometer 1228 and running to the mines, a distance of 3.25 miles.

The Monterey and Mexican Gulf Ry., which was purchased in Nov., 1901, and transferred to the Mexican Central Ry. Co. Feb. 1, 1902, was added to the operated mileage March 1, 1902 (see MANUAL for 1902, page 826).

The Mexico, Cuernavaca and Pacific Ry. (see MANUAL for 1902, page 843), between the City of Mexico and Rio Balsas, 181.25 miles, was acquired by purchase Nov. 10, 1902, and added to the operated mileage Jan. 1, 1903. The concession which was acquired with this road, provides for an extension from Balsas River to Acapulco via Chilpancingo, the capital of the State of Guerrero, and also a line down the Balsas River to the port of Sihuatanejo, on the southern coast of Mexico to the west of Acapulco. The concession carries with it a subvention of about $4,000,000 in 5 p. c. silver bonds of the Mexican Government, the amount to be earned depending upon the route and mileage constructed.

The Pachuca, Zacualtipan and Tampico Ry., from Sandoval northeasterly toward Tampico, a distance of 44.6 miles, with a branch from Tepenacasco via Tulancingo to Santa Ana, 17.2 miles, was purchased on April 9, 1902. Since the purchase of this property it has been connected with the main line at Lecheria, a station about 13 miles north of the City of Mexico, by the construction of 43.55 miles of new road, making the total length of the line at this time (May, 1903), 105.35 miles. It is expected to be opened for traffic in the summer of 1903. The concession acquired with this railway provides for the construction of a direct line connecting the City of Mexico and the port of Tampico, and carries with it a Government subvention of about $2,000,000 in Government 5 p. c. silver bonds.

The San Pedro Extension, from San Pedro to Paredon, is rapidly nearing completion, track having been laid (on March 21, 1903) on 64 miles, the total length of said extension being 136 miles. This extension will be completed before the end of 1903, and will connect the port of Tampico via the Monterey Division with the main line at Torreon.

3. Subsidies.—The company acquired a national subsidy of about $15,200 per mile ($9,500 per kilometer) covering the main line, the Tampico Division and the Guadalajara Division. It also acquired small subsidies from the State Governments of San Luis Potosi and Guanajuato. The Government of Mexico, on June 1, 1885, suspended the payment of its subsidy. Afterward a settlement was arranged with the company, as explained in previous numbers of the MANUAL. The following is a statement of the Subsidy Trust Fund, Boston Safe Deposit and Trust Co., trustee, for the year ending Dec. 31, 1902:

Balance in hands of Trustee, Dec. 31, 1901	$2,035,154 13

Showing the net income of the Trust during the year 1902 to have been		$102,801 90
An average of 5.05 per cent.		

At the time the settlement was made with the Government, $6,122,646.37 of the proceeds were invested in priority mortgage 5 p. c. bonds to the par value of $5,597,000. This is an investment by the trustee for the same purpose as the Subsidy Trust Fund, amounting, as stated above, to $1,812,794.69, so that the security at the end of 1902, for payment

The principal railways in Mexico being in the same condition as the Government, in the respect that they have a large foreign debt payable in gold, it was considered reasonable to ask the Government to authorize the railways to collect their tariffs on the basis of 200 exchange, which would be equivalent to 50 cents gold for the Mexican dollar. The principal railway lines joined in petition to the Government for this authority, and it is expected that early and favorable action will be taken by the Government in this most important matter.

The Mexican Government, with intelligent foresight, has appointed a commission to study the question of the best means for arriving at a stable basis of exchange with gold standard nations.

11. DETAILED DESCRIPTION OF FUNDED DEBT.

Priority Consol. Mtge. 5 p. c. 50-yr. $ and £ gold bonds, dated July 1, 1889, due Jan. 1, 1939, interest Jan. and July, in Boston and London. These bonds are coupon, with privilege of registration, and are redeemable at 110 p. c. They are secured by consolidated mortgage on the railroad and all other property of the company. Of the $7,000,000 issued, $1,403,000 have been redeemed and cancelled by the company, and $5,597,000 purchased by the trustee of the Subsidy Trust Fund (see Sec. 4). The remaining $1,000,000 of the authorized issue can be used only for the purchase of additional rolling stock.

Consol. Mtge. 4 p. c. 30-yr. $1,000 gold bonds, coupon, with privilege of registration, due July 1, 1911, interest Jan. and July, in Boston, Mass. These bonds are authorized at the rate of $32,000 per mile, and were issued at par to holders of 1st mtge. assented 4 p. c. bonds, who also received, upon exchange, $300 of 1st consol. income bonds. In March, 1901, $1,000,000 of these bonds were issued to provide the means for the constructon of new lines and improvements to the property. They are secured on same terms as the priority mtge. bonds. The total length of lines subject to the lien of the consolidated mortgage on May 15, 1902, was 2,689.13 miles. This mileage entitled the company to issue consol. mtge. 4 p. c. gold bonds at the rate of $32,000 per mile to the aggregate amount of $86,052,000, all of which had been certified and issued by the trustee at that date.

First Consol. Income 3 p. c. 50-yr. $1,000 coupon gold bonds, due Jan. 1, 1939, interest (non-cumulative) payable annually, July 10, if earned. These bonds were authorized at the rate of $9,600 per mile, and were issued to holders of 1st mtge. assented 4 p. c. bonds as a bonus of 30 p. c. on their holdings in consideration of their surrender of the right to additional interest to which they were entitled. The interest on these bonds must be satisfied before any interest can be paid on the 2d consol. income bonds. In 1890, 1891 and 1892 the full rate of interest was paid; in 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, and 1901 there was no interest paid. Trustee: American Loan and Trust Co., Boston, Mass.

Second Consol. Income 3 p. c. 50-yr. $1,000 coupon bonds, due July 10, 1939, but power reserved by the company to pay off the issue on or before July 10, 1929, at 50 p. c. Interest annually, July 10, if earned. No interest is being paid. These bonds were authorized at the rate of $6,400 per mile and were issued at par to holders of old income bonds. They are redeemable at any time previous to July 10, 1929, at 50 p. c. U. S. currency. The first incomes have preference over these bonds in payment of interest.

Registered Income Bonds are for $1,000 each, ranking on the income of each year for 3 p. c. interest, due July 1. They mature July 1, 1911, but may be converted into ordinary shares at par. No interest is being paid. This is the amount outstanding of the old income bonds not converted under the scheme of 1889.

Equipment and Collateral Bonds, 1st Series.—The equipment and collateral 1st Series gold bonds are for $1,000 each; are dated April 1, 1897, due Aprl 1, 1917; interest, 5 p. c. per annum, payable April and Oct., at the office of the Old Colony Trust Co., Boston, Mass., or at the office of Glyn, Mills, Currie & Co., London, Eng.; bonds carry privilege of registration, and are transferable at the office of the trustee, Old Colony Trust Co., Boston, Mass. Under date of April 1, 1897, an agreement was entered into with the Old Colony Trust Co., as trustee, for the acquisition of about $1,000,000 worth of new equipment, the cost of same to be covered by the issue of $1,000,000 5 p. c. equipment and collateral gold bonds, the bonds to be secured by the equipment itself (which remains the property of the Old Colony Trust Co. until the entire amount of bonds has been redeemed and cancelled) and also by a deposit with that company, as trustee, as collateral, of $1,500,000, par value, of Mexican Central consol. mtge. 4 p. c. bonds. The Ry. Co. pays to the trustee each year one-twentieth of the total amount of bonds issued, which sum is applied by the trustee to the purchase and cancellation of that amount of bonds. On each redemption and cancellation of equipment bonds, one-twentieth of the collateral bonds are released to the Ry. Co. On the final redemption and cancellation of all the equipment bonds, the equipment becomes the property of the Ry. Co.

Equipment and Collateral Bonds, 2d Series.—The equipment and collateral 2d Series gold coupon bonds are for $1,000 each, interest April 1 and Oct. 1, at the office of the Old Colony Trust Co., Boston, Mass., trustee, or at the office of Glyn, Mills, Currie & Co., London, Eng. These bonds are dated 1899, and mature Oct. 1, 1919, and beginning 1910, are redeemable at 102½ p. c. The Railway Co. will pay yearly to the trustee one-twentieth of the total amount of bonds issued, which sum is applied by the trustee to the purchase and cancellation of that amount.

Collateral Trust 4½ p. c. Bonds.—Issued under a trust indenture to the Mississippi Valley Trust Co., of St. Louis, Mo., trustee, dated Feb. 1, 1902, due Feb. 1, 1907, interest tax-free, payable Feb. 1 and Aug. 1, at the office or agency of the company in St. Louis, Mo., or, at the option of the holder, at the office or agency of the company in New York, N. Y. These bonds are subject to redemption, at par and accrued interest, at the option of the company on any interest day on thirty days' notice. They are for $1,000 each; in coupon form, with privilege of registration as to principal. To secure these bonds, the company has executed and delivered to the trustee a trust agreement dated Feb. 1, 1902, pledging thereunder 4 p. c. consolidated mortgage gold bonds of the railway company to the face amount of $16,129,000, bearing the coupon maturing July 1, 1902, and all subsequent coupons. Of the consolidated mortgage bonds pledged under the trust agreement, bonds to the amount of $6,879,000 were deposited with the trustee. The remainder of these bonds, $9,250,000, was held by National Shawmut Bank to secure an issue of $6,000,000 collateral trust notes (see general balance sheet, Sec. 10). These notes matured May 15, 1902, and since the execution of the trust agreement of Feb. 1, 1902, have been paid, and the consolidated mortgage bonds held against them deposited under the trust agreement. The entire issue ($10,000,000) of 4½ p. c. collateral trust bonds has been sold, and the proceeds used to retire the issue of $6,000,000 collateral pledge notes of the company which matured May 15, 1902, and the residue will be used for the payment of all other floating indebtedness of the company, for the construction of additional mileage and for other improvements for capital account.

12. Proposed Refunding of Income Bonds.—Under date of Aug. 10, 1903, a circular was issued by Ladenburg, Thalman & Co., of New York, on behalf of the Mexican Central Ry. Co., offering in exchange for the three issues of income bonds, gold collateral trust debenture certificates as follows: For each $1,000 1st consol. income bond, $230 in debenture certificates, for each $1,000 2d consol. income bond, $140 in debenture certificates; for each $1,000 registered income bond, $140 in debenture certificates. The debenture certificates are to bear interest from Oct. 1, 1903, at the rate of 3 p. c. per annum for three years and 4 p. c. per annum thereafter. They are to mature on Oct. 1, 1908, but may be redeemed at par on any interest day after thirty days' notice.

13. Construction and Equipment.—Expenditures during the year: Construction and equipment, main line and branches, $2,991,583.06; Mexico, Cuernavaca and Pacific Ry. purchase, $2,279,587.63; Pachuca, Zacaultipan and Tampico Ry. purchase, $624,302.45; discount, commission, etc., on sale of collateral 4½ p. c. bonds, $850,873.21; loss on branches operated for construction account, $14,521.04—total, $6,760,867.39. Less proceeds of sales of subsidy bonds, etc., $248,099.31. Net amount expended during the year, $6,512,768.08; add balance of account as of Jan. 1, 1902, $158,099,979.45—total, $164,612,747.53.

14. PROPERTY OWNED BY THE MEXICAN CENTRAL RY. CO., LIMITED.

THE TAMPICO HARBOR CO. (owned by the Mexican Central Ry. Co.)—Organized for the purpose of canalizing, by jetties, the harbor of Tampico. To aid this purpose a concession was granted by the Mexican Government. Work was begun March 13, 1890, and was completed in 1892. Under the concession the company is entitled as a subsidy to $3,000,000 of Government 6 p. c. bonds, of which $2,790,000 have been received. These $2,790,000 of subsidy bonds were sold in 1897 and 1898, and the proceeds used to redeem $894,000 of the Tampico Harbor Co. mtge. bonds held in the treasury of the Mexican Central Ry. Co. The net cost of the works amounted, Dec. 31, 1902, to $3,157,690.40, all of which has been advanced by the Mexican Central Ry. Co. On Jan. 1, 1901, the

Tampico Harbor Co. mortgaged its property to the Boston Safe Deposit and Trust Co., trustee, and issued under that mortgage to the Mex. Cent. Ry. Co. 5 p. c. bonds in payment of the advances made by the M. C. Ry. Co. up to June 30, 1900, which amounted to $3,138,260.25, leaving balance due the railway company, Dec. 31, 1902, $19,430.15, for which a further issue of bonds can be made to the railway company in settlement. Simultaneously with the creation of the mortgage a lease of the Tampico Harbor Co.'s property was made to the M. C. Ry. Co. at a rental equal to interest and sinking fund on the mortgage bonds. The outstanding bonds of the Tampico Harbor Co. are held in the treasury of the Mexican Central Ry. Co.

Pachuca Branch: Ometusco to Pachuca.......................... 28 m.—321 miles.
Sidings, 30 miles. Rail (steel, 321 m.), 62 and 82 lbs.

2. History.—Incorporated Aug. 20, 1864, as the Imperial Mexican Ry. Co., Limited. The State gave a subvention to the concessionnaire of $560,000 a year, of which $420,000 was the property of the company for 25 years from Nov. 11, 1868. The Government agreed not to subsidize any other railway between Vera Cruz and City of Mexico for 65 years from Nov., 1868. When the net revenue of the company exceeds 8 p. c. per annum on the ordinary stock, the Government may, in conjunction with the company, readjust the rates, etc. After providing for dividends of 8 p. c. per annum, 4 p. c. of the surplus goes to the concessionnaire, and of the balance then remaining 4 p. c. goes to the directors as extra remuneration, and 4 p. c. to the reserve. The extension from Ometusco to Pachuca was completed and opened Dec. 3, 1890. The concession (dated May 27, 1889) for this extension carries no subvention, and runs for 99 years, after which the Government may purchase the line at a price to be fixed by experts.

This company has agreed with the board of the Interoceanic Ry. Co., as from March 1, 1901, for a pool of all competitive traffic, both import and national, for a period of not less than seven years, subject to four years' notice if given as on March 1, 1905, or not less than five years' notice if given at any subsequent date.

The four lines constituting the Mexican Traffic Association have entered into a new pooling arrangement, dealing with European goods imported into Mexico. This pool went into operation on May 1, 1902.

8. FURTHER PARTICULARS RESPECTING THE CAPITAL STOCK.

First Preference Stock.—Created Nov. 11, 1874, and issued to creditors of the company (as fully paid up shares) in satisfaction of equal amounts of overdue and unpaid 8 p. c. bonds. Entitled to a preferential dividend of 8 p. c. per annum in perpetuity, out of the available net profits of each separate half-year.

Second Preference Stock.—Created Nov. 11, 1874, and issued to creditors (as fully paid up shares) in satisfaction of equal amounts of overdue and unpaid interest up to the end of 1873. Entitled to 6 p. c. per annum, in perpetuity, out of the available net profits of each separate half-year, and ranks after the first preferred stock.

Perpetual 6 p. c. Debenture Stock.—Created in Dec., 1879. Issued at par in 1880. Constitutes a first charge on the undertaking. The proceeds were applied to the redemption of outstanding bonds, in exchange or repayment, and for the improvement and development of the railway. Interest payable Jan. and July at the office of the company's bankers, Glyn, Mills, Currie & Co., London, Eng.

MEXICAN SOUTHERN RAILWAY, LIMITED.

1. Line of Road.—Puebla to Oaxaca, Mex........................227.9 miles Sidings, etc., 11 miles. Gauge, 3 ft. Rail (steel), 50 lbs.

2. History.—Registered May 9, 1889, to construct and operate a narrow-gauge line from Puebla to Oaxaca (as above), under a concession granted by the Mexican Government. In May, 1892, a Government subvention of $2,400 per kilometer per annum for 15 years was given up in exchange for a net sum of $8,000,000 Mexican Government 6 p. c. 50-yr. silver bonds, with a sinking fund of ½ p. c. per annum, commencing in 1895. The concession is for 99 years, at the end of which the line will revert to the Government without payment; but stations, rolling stock, etc., must be paid for. Road opened throughout, Dec. 8, 1892. During 1896, this company's capital was adjusted under the terms of a scheme of reconstruction which is outlined in the MANUAL for 1897, page 914.

The Tehuacan-Esperanza tramway, 31.7 miles in length, connecting the town of Tehuacan with the Esperanza Station of the Mexican Ry., was acquired by this company on Oct. 10, 1899, and has since been operated by it. Animal traction is used at present. The Tlacotepec Ry., from Tlacotepec to Huajuapam, 19 miles, was operated by this company during the fiscal year, but the line has since been restored to its owner.

NOTE.—MAIN LINE.—Upon the expiration of the 99 years of the Main Line Concession (June 8, 1990) the railway passes to the dominion of the Mexican National Government, subject to the obligation upon the part of the Government to purchase all stations, warehouses, workshops, rolling stock, plant, movables, and effects, which the company may have for the use and working of the road.

TEHUACAN-ESPERANZA TRAMWAY.—Upon the expiration of the 99 years of the Tehaucan-Esperanza Tramway Concession (Jan. 31, 1982) the line reverts to the Mexican National Government, subject to their paying for the line and improvements at a valuation.

TEHUACAN URBAN LINES.—Upon the expiration of the 50 years of the Tehuacan Urban Lines Concession (June 15, 1950), the Municipal Council has the option to acquire the lines, rolling and live stock and other appurtenances at an appraised value. Should the Municipal Council, after acquiring the property, decide to sell or otherwise dispose of it, the company will have the right of preference on equal terms.

8. Funded Debt.—Interest on the 1st mtge. debentures is payable Feb. 1 and Aug. 1, and the principal redeemable at 110, or by purchase in the market at less than 110, out of fund to arise from the redemption of the Mexican Government silver bonds, referred to on page 834. Interest on the 2d mtge. debentures is payable only out of profits Feb. 1 and Aug. 1, and the principal redeemable at par or by purchase in the market at less than par, within a period of ninety years by the operation of a sinking fund to be created out of profits. 2. History.—Organized under the laws of the State of Utah, Feb. 24, 1902, for the purpose chiefly of taking over the properties of the Mexican National RR. Co., whose affairs were then undergoing a readjustment (see MANUAL for 1902, page 836). The properties were taken over on April 10, 1902, but the transfer was made to be effective from Jan. 1, 1902. With the exception of the Guanajuato, San Luis de la Paz y Pozos Ry., 31.31 miles, which the company owned prior to taking over the Mexican National properties, and the Vanegas, Cedral and Matehuala RR., 28.2 miles, purchased and taken over on Oct. 9, 1902, this statement covers the same properties as were operated by the Mexican National RR. Co.

When the plan of readjustment for the Mexican National RR. Co., which made it possible for this company to take over its properties and provide funds for changing the gauge of the international line, was declared operative, steps were immediately taken to proceed with the work. The work involved was the changing of the gauge of the narrow-gauge line from Corpus Christi, Tex., to Gonzalez (junction point between Soria and Chamacuero), on the Mexican line, 232 miles north of the City of Mexico, and the changing of the gauge of the El Salto line from the City of Mexico to Huehuetoca, 30 miles from said city, and the construction of a new broad-gauge cut-off from Huehuetoca to Gonzalez, 166.5 miles. This cut-off shortens the international line from the City of Mexico to the northern frontier 36 miles, and avoids the heavy gradients lying between the City of Mexico and Gonzalez and which were impossible to remedy in the existing line. It was always the intention of the original company which promoted the building of the Mexican National lines to extend the El Salto Branch to a junction with the main line, cutting off distance and avoiding the heavy gradients above referred to. A survey of the proposed cut-off demonstrated the advisability of deflecting from the El Salto Branch at Huehuetoca 12 miles from its northern end, and the piece of track beyond Huehuetoca being thus thrown out of use has been abandoned and removed under the consent of the Government. Up to July 1, 1903, the work done consisted of changing the gauge from narrow to standard width on the line from Corpus Christi, Tex., to Gonzalez, Mex., and from the City of Mexico to Huehuetoca, and of partly finishing the cut-off from Huehuetoca to Gonzalez. It was expected that the track laying on this line would be completed not later than Aug. 1, 1903, and through standard-gauge train service inaugurated between Mexico City and Laredo on Sept. 1, 1903.

When the new line between Huehuetoca and Gonzalez is completed, the mileage operated by the company will be as follows:

Narrow-Gauge System.

City of Mexico to Uruapan	320.826
Acámbaro to Gonzalez	54.959
Vanegas, Cedral and Matehuala	37.282
Guanajuato, San Luis de la Paz and Pozos	31.441
Michoacan and Pacific (Leased Line)	56.927
Total narrow-gauge lines	501.435
Total mileage, both standard and narrow-gauge system	1,471.638

There is not included in the above the narrow-gauge line from Matamoros to San Miguel de Tamaulipas, 75 miles, and the Brownsville and Gulf Ry., one mile. The company has a very favorable concession from the Mexican Government for the building of the line from San Miguel to Monterey, which it is proposed to construct standard-gauge and in connection therewith broaden the gauge of the existing line between Matamoros and San Miguel, which will make the total distance from Matamoros to Monterey approximately 222 miles.

Also, it does not include the mileage of the Mexican International RR. Co., 880 miles, control of which was acquired by the Readjustment Managers in the exercise of the right reserved to them in the plan of readjustment. The property acquired was $15,786,100 of the capital stock of the company, out of a total issue of $20,708,200, and $4,499,000 income bonds (being the total issue of income bonds), which was paid for through the issue of $7,000,000 preferred stock and $7,000,000 4 p. c. consolidated bonds of this company, as provided for in the readjustment plan.

An agreement has been made with the Government of Mexico by which the latter will, on certain terms and conditions, acquire a large amount of the several classes of the capital stock of this company. The conversion of common stock into 2d preferred and deferred stocks (see Sec. 8) was made in connection with this agreement. The Government has consented to include, as part of the shares to be purchased, the total issue of deferred stock offered during a limited period, at the price of $10 per share in cash.

In the event of the purchase by the Government being consummated its holding of £1,000,000 4½ p. c. 2d debenture stock of the Interoceanic Ry. Co. of Mexico (Acapulco to Vera Cruz), Limited, will be sold to this company, and with the preference and common shares of the Interoceanic Company already owned, will give this company the practical control of the Interoceanic Ry. Also, the Government will procure from the Executive of the United States of Mexico, subject to legislative ratification, a concession to the effect that for twenty years from Oct. 31, 1902, no right, privilege or concession shall be granted by the United States of Mexico to any person or corporation, other than the National RR. Co., to construct, maintain or operate any railroad of any kind (except branch or local lines connecting only with the trunk lines of the National RR.) in a zone extending along the northeasterly boundary of Mexico bounded on the northeast by the Rio Grande and on the southwest by a line drawn 50 kilometers southwest of and parallel with that river, and lying between the Gulf of Mexico and the meridian running through a point on the Rio Grande distant 100 kilometers northwest from Ciudad Porfirio Diaz, in the State of Coahuila, measured along said river.

NOTE.—In "Cost of Property" is included the Mexican Government subsidy bonds which fell to the company as an asset in the readjustment. These bonds have been sold since Dec. 31 last, netting $1,831,890.28, which will reduce "Cost of Property" and increase the available funds by that amount.

8. Capital Stock.—The capital stock authorized and issued under the plan and agreement of adjustment was, as shown in the general balance sheet, $33,350,000 of common stock and $32,000,000 of preferred stock. By an amendment to the articles of association the capitalization of the company has been changed so as to consist of $32,000,000 preferred stock, $22,233,333⅓ 2d preferred stock and $11,116,666⅔ deferred stock, all of the par value of $100 per share. The 2d preferred stock and the deferred stock are to be issued only in exchange for and to retire the outstanding common stock at the rate of two shares of 2d preferred stock and one share of deferred stock for each three shares of common stock. On July 11, 1903, it was announced that all except $1,462,000 of the common stock had been retired and that $21,258,666 of the 2d preferred stock and $10,629,333 of the deferred stock had been issued. So much of the outstanding common stock as may not be exchanged for the new 2d preferred stock and deferred stock will remain outstanding, and the total amounts of 2d preferred stock and of deferred stock to be issued will be proportionately reduced from the amounts above stated.

Dividend Rights.—Preferred stock is entitled to non-cumulative dividends up to but not exceeding the rate of 4 p. c. per annum. The 2d preferred stock is entitled to non-cumulative dividends up to but not exceeding the rate of 5 p. c. per annum before the payment of any dividends on the deferred stock. After the payment in any year of dividends of 5 p. c. on the 2d preferred stock, that stock and the deferred stock rank, as among themselves, on an equality in the distribution of all net profits that may then be distributed in dividends, if and when declared. The 2d preferred stock and the deferred stock, as between themselves and the common stock, are entitled to receive such net profits distributed in dividends as would have been distributable to common stock had none of that stock been converted into 2d preferred and deferred stock, and in respect thereof shall rank with the relative priority and rights set forth above.

Authority Required for Issuing Additional Preferred Stock.—The amount of preferred stock can only be increased with the consent of the holders of a majority of the whole amount of the preferred stock then outstanding, and with the further consent of the holders of a majority of such amount of the other classes of stock collectively as shall be represented at the stockholders' meeting called for the purpose of considering such proposed increase, the holders of the preferred stock voting separately from the holders of the other classes of stock. No preferred stock of any other class, entitled to priority over the preferred stock either as to dividends or to capital, can be authorized except with like consent.

9. Voting Trust Dissolved.—The voting trust in which the common and preferred shares were deposited (see MANUAL for 1902, page 838) has been dissolved. The shares were delivered by the voting trustees on July 27, 1903.

10. ADDITIONAL PARTICULARS RESPECTING THE FUNDED DEBT.

Prior Lien 4½ p. c. Gold Bonds.—These bonds are dated March 15, 1902, and mature Oct. 1, 1926, interest, tax free (from Oct. 1, 1901), payable Jan. 1 and July 1 at the office of Speyer & Co., New York, N. Y., and are redeemable at the option of the company, on any interest date, on six months' notice at 105 and accrued interest. These bonds are of an issue limited (except as stated below) to the principal amount of $23,000,000 at any one time outstanding, and 4,000 of them (Nos. D 18,000 to D 22,000 incl.) are for $500 each, and the remainder (Nos. M 1 to M 18,000 incl.) are for $1,000 each. Any additional bonds will be for $1,000 each. They are in coupon form, with the privilege of registration as to principal, and are secured by mortgage to the Union Trust Co., New York, N. Y., trustee, covering the constructed railroads, terminals and equipment acquired from the Mexican National RR. Co. (as well as the securities acquired from that company), the El Salto cut-off, and the constructed line acquired from the Guanajuato, San Luis de la Paz y Pozos Ry. Co.

Under the prior lien mortgage, $3,000,000 additional bonds are reserved for issue; if previous to Jan. 1, 1904, only to meet any unexpected increase in the expenses in connection with changing the gauge of the mortgaged lines of railroad from narrow gauge to standard gauge and of building the proposed El Salto cut-off; if after Jan. 1, 1904, only for reimbursement of expenditures thereafter made for the enlargement or betterment of the mortgaged premises, including (provided a majority of the stock shall be obtained and pledged under the prior lien mortgage) the acquisition of the securities of other corporations owning additional lines of railroad. Provision is also made that, if the company shall at any time desire to unify the mortgage debt of the Mexican International RR. Co. with its own mortgage debt, the company may, for that purpose, issue additional bonds to an amount equal to the face value of the prior lien bonds of the International Co., then outstanding against the deposit with the trustee of the prior lien bonds of the International Co., at the rate of one new $1,000 prior lien bond for each £200 prior lien bond or each two £100 prior lien bonds of the International Co. so deposited with the trustee.

First Consolidated Mtge. 4 p. c. Gold Bonds.—These bonds are dated March 15, 1902, and mature Oct. 1, 1951, interest, tax-free (from Oct. 1, 1901), payable April 1 and Oct. 1, at office of Speyer & Co., New York, N. Y. They are in coupon form, with the privilege of registration as to principal, and are not redeemable before maturity. Bonds (Nos. M 1 to M 20,000 incl.) are for $1,000 each and bonds (Nos. D 20,001 to D 24,000 incl.) are for $500 each. They are secured by mortgage, dated March 15, 1902, to the Central Trust Co., New York, N. Y., trustee, and are a second lien on the railroads and property embraced and to be embraced in the prior lien mortgage of the company above described, and a first lien on other property of the company acquired, or to be acquired, subject, however, to any liens on such property at the time of such acquisition thereof by the company, and to any purchase money liens thereon created in the acquisition thereof. The trust deed securing these bonds provides for a total issue of $76,000,000 for the following purposes: Issued under the plan of adjustment (see MANUAL for 1902, page 837), $15,000,000; issued for improvements and betterments, $6,000,000; reserved for extensions and new property, $9,000,000; to retire prior liens, $23,000,000; for Mexican International capital stock and income bonds, $7,000,000; for Mexican International consolidated 4 p. c. bonds, $16,000,000—total, $76,000,000. The mortgage provides, that should the company desire to unify the mortgage indebtedness of the Mexican International RR. Co. with its own mortgage indebtedness, for the issue of additional bonds to an amount equal to the face amount of the outstanding consol. mtge. bonds of the International Co., and against the delivery to the trustee and pledge under the 1st consol. mtge. of the bonds of the International Co. so taken up.

Provision is also made for the issue, at the election of the company, of additional bonds, dollar for dollar, to an amount sufficient to provide for the payment or redemption at or before maturity of the prior lien bonds of the company, the prior lien bonds so taken up to be held by the trustee under the consolidated mortgage until not less than 97 p. c. in principal amount shall have been so deposited with the trustee, when, at the request of the company, they may be cancelled. Total amount of consol. mtge. bonds issued to June 1, 1902, $22,000,000, viz.: To take up old 6 p. c. 2d mtge. Series A bonds, $11,404,687.50; for the acquisition of securities of the Mexican International RR. Co., $7,000,000; sold for cash, $3,595,312.50—total, $22,000,000.

NOTE.—In "Cost of Property" is included the Mexican Government subsidy bonds which fell to the company as an asset in the readjustment. These bonds have been sold since Dec. 31 last, netting $1,831,890.28, which will reduce "Cost of Property" and increase the available funds by that amount.

The plan of adjustment provides that no additional mortgage shall be placed upon the property of the old company acquired under the plan, and no increase in the amount of the preferred stock authorized under the plan should be made except after obtaining the consent of the holders of a majority of the whole amount of preferred stock outstanding, given at a meeting of the stockholders called for that purpose, and the consent of the holders of a majority of such part of the common stock as should be represented at such meeting, the holders of each class of stock voting separately. Provision is made by the trust agreement that, during the existence of the voting trust, the voting trustees will not vote in respect of the stock held by them, to authorize any such additional mortgage, or for such increase in the preferred stock without similar consent of holders of like amounts of the respective classes of voting trust certificates, given at a meeting of such holders called in accordance with the provisions of the voting trust agreement.

11. "Other Investments."—These consist of the following: Mexican International RR. securities, $14,000,000; Texas-Mexican Ry. Co. (stock, $250,000; 1st mtge. 6 p. c. bonds, $1,380,000; C., C., S. D. & R. G. N. G. RR. 7 p. c. bonds, $960,000), $2,590,000; Brownsville and Gulf Ry. Co. stock, $12,500; Guanajuato y San Luis de la Paz Ry. Co., $174,466.50; Vanegas Cedral y Mathuala RR. Co., $221,422.68—total, $16,998,389.18.

12. Treasury Assets.—Common stock, $105,62; preferred stock, $3,167,000.50; 1st consol. mtge. bonds, $756,562.50—total, $3,923,668.62.

13. Railroads Leased or Controlled by the National RR. Co. of Mexico.

BROWNSVILLE AND GULF RR.—Rio Grande River through Brownsville, Tex., 1.01 miles. Gauge, 3 ft. Capital stock, $25,000. Controlled by the National RR. Co. of Mexico. See General Index, Department of Street Rys.

MICHOACAN AND PACIFIC RY., LIMITED.—Maravatio to Zitacuaro, 57.43 m.; all in the State of Michoacan, Mex. Gauge, 3 ft. Rail (steel), 40 lbs. Locomotives, 7. Cars—passenger and baggage, 4; freight (box, 94; flat, 36), 130; rack, 7; caboose, 2—total cars, 143.

HISTORY.—Concession granted Aug. 18, 1888, for a railroad from Maravatio through Zitacuaro, Temascaltepec, Sultpec, Zacualapan and Tasco to Iguala. The concession was for 99 years and provided for a subvention of $6,000 per kilometer. At the end of the concession the railway will revert to the Government, subject to a mortgage to the amount of $6,000 per kilometer, bearing interest at 6 p. c., the Government to pay a fair price for stations, rolling stock, etc. On Jan. 20, 1889, the Michoacan Ry. and Mining Co. was registered in London to acquire this concession and also to acquire mines of silver and other metals in the State of Michoacan. The railroad was completed from Maravatio to Ocampo, and a branch to Angangueo, together about 56 kilometers, in 1891. The original concession was superseded by a new one running from Aug. 29, 1893, on the same terms as regards period and subvention (subject to modifications involved by the Government debt conversion scheme of 1894) as the former one, but the company was relieved of any obligation to extend the line beyond the town of Zitacuaro, a distance of about 60 m. from Maravatio, and was given power to extend the line if so desired to Cuernavaca, or to join at a convenient point any railway going to the Pacific. By a further concession promulgated July 30, 1896, the right to build to Cuernavaca was relinquished, and authority obtained to build from Yurecuaro on the Mexican Central Ry., to Ario, about 250 kilometers, with a subvention of $6,000 per kilometer in 5 p. c. bonds of the Redeemable Interior Debt on 190 kilometers of line so constructed. The extension to Zitacuaro was completed in May, 1897. The line from Yurecuaro to Zamora has been taken over by the Mexican Central Ry. The line from Maravatio to Zitacuaro, as above, was leased to the Mexican National RR. Co. for a period of 25 years from Aug. 1, 1900; lease transferred to the National RR. Co. of Mexico.

FINANCIAL STATEMENT.—Cost of the 61 m. of road completed as above, about $800,000. Capital stock (£10 shares) authorized and issued, £60,000; £20,000 6 p. c. registered £100 prior lien debentures, due July 31, 1925, interest Jan. and July (first to be paid July 1, 1901); £60,000 6 p. c. registered £100 mtge. debentures, due July 1, 1907 (since extended to July 31, 1925), interest Jan. and July (first to be paid Jan. 1, 1898), in London, Eng.

MEXICAN INTERNATIONAL RAILROAD COMPANY.

(Controlled by the National RR. Co. of Mexico.)

1. History.—Organized Dec. 9, 1882, under special charter from the State of Connecticut. In 1883 it acquired certain concessions granted by the Government of Mexico under date of June 7, 1881, Nov. 4, 1881, and April 21, 1882, which authorized the construction and operation of a line of railroad and telegraph between the City of Mexico and the Rio Grande, terminating at or near Ciudad Porfirio Diaz (formerly

Piedras Negras), with the right to construct another line from a convenient point on the main line to some point on the Gulf of Mexico between Matamoros and Vera Cruz; also another line to the Pacific Ocean at some point between Mazatlan and Zihuatanejo, and also such branches of the lines just mentioned as the company may deem desirable, said branches to be subject to the approval of the Department of Public Works.

It is stipulated in said concessions that the road and its appurtenances shall be exempt from taxation for fifty years, and that materials required for the construction, operation and repair of the road shall be free from import or other duties. No subvention is granted, but the Government has obligated itself not to grant a subvention to any other line of railroad within 25 miles on either side of the lines so authorized.

On March 30, 1896, a contract was made between the National Government and the company, by which the period in which to build the uncompleted lines in the original concessions was extended for ten years from the date of the promulgation of that contract, and all the other franchises enjoyed by the company were confirmed.

On March 31, 1897, an amendment to existing concessions was secured, whereby the limitation contained in previous contracts in respect to the parties to whom, with the previous permission of the Executive, the company may transfer or rent its lines, rights, concessions and obligations, has been omitted and annulled. For terms of the rearrangement of the bonded debt of the company, see MANUAL for 1897, page 906, and MANUAL for 1899, page 909.

For history of progress of construction on the several lines of this company's system up to Dec. 31, 1901, see MANUAL for 1899, page 907, and MANUAL for 1901, page 846. Construction on the extension north from Durango toward Guanecevi was continued during the past year, and the section from Durango to Tepehuanes (135 miles) was opened for traffic on May 12, 1902.

This company is controlled by the National RR. Co. of Mexico through ownership of $15,786,100 of its capital stock (out of a total issue outstanding of $20,708,200) and $4,499,000 of its income bonds, being the entire issue thereof.

7. Capital Stock.—The authorized capital stock amounts to $25,000,000, in $100 shares.

8. Funded Debt.—The funded debt, as per general balance sheet, consists of $5,850,000 4½ p. c. prior lien sterling bonds, $6,983,000 1st consol. mtge. 4 p. c. gold bonds and $4,499,000 income bonds—total, $17,332,000.

The 4½ p. c. prior lien sterling bonds (£100 or £200) are dated Aug. 6, 1897, due Sept. 1, 1947, interest payable March 1 and Sept. 1; principal and interest payable in London. They are secured by first lien upon the completed railways of the company other than those covered by the 1st consol. mtge. as the first lien (see next paragraph). Trustee: Union Trust Co., New York, N. Y.

The 1st consol. mtge. gold bonds are dated Aug. 6, 1897, and will mature Sept. 1, 1977, interest being payable on March 1 and Sept. 1, at the office or agency of the company in the city of New York. Secured upon the same property as the prior lien bonds, but subject thereto, and secured by first mortgage upon the Tlahualilo Branch. Will also be secured by first mortgage upon the new lines referred to hereafter. The authorized issue is $16,000,000, of which bonds to the amount of $6,000,000 are reserved to take up prior liens, and bonds to the amount of $3,017,000 for extensions and betterments; the remaining $6,983,000 are outstanding. Under the provisions of the mortgage additional bonds may be issued, similar in all respects to the $6,983,000, for the following purposes: (1) At the rate of $10,000 per mile for the construction or acquisition of a line from Cuatro Cienegas to the vicinity of Sierra Mojada, about 107 miles, and a line from Santiago to Guanacevi or its vicinity, with a branch to Promontorio, about 83 miles, being about 190 miles of new line. (2) At the rate of $200,000 per annum up to the limit of $800,000, for additions, betterments and improvements to the property and rolling stock of the company. (3) At the rate of five dollars to the pound sterling in exchange, at the option of the company, for the outstanding prior lien bonds. It is provided, however, that in no case shall the total issue of bonds secured by the 1st consol. mtge. exceed the limit of $16,000,000. There have been issued $600,000 of the bonds provided for additions, betterments and improvements, and $1,748,000 of those provided for new lines—$718,000 thereof in payment for the main line extension from Reata to Monterey and $1,030,000 in payment for 103 miles of the Guanacevi Extension. The National Ry. Co. of Mexico guarantees as to principal and interest such of the 1st consol. mtge. bonds as are stamped with the proviso that they are subject to purchase at 95 p. c. and interest on or before March 1, 1907. On Dec. 31, 1902, $5,613,000 of the bonds had been so stamped. Trustee: Metropolitan Trust Co., New York, N. Y.

The income gold bonds are dated Aug. 6, 1897, and will mature Sept. 1, 1977. Interest at not exceeding the rate of 4 p. c. per annum, non-cumulative, payable Sept. 1, out of net earnings and income.

RIO GRANDE, SIERRA MADRE AND PACIFIC RR.—Ciudad Juarez, Mex., to Casas Grande, Mex., 156 miles. Construction commenced in Aug., 1896, and the road was completed as above in June, 1897. The line as projected will be about 400 m. in length, running from Juarez through the Corralitos mining district to Guerrero. The promoters of the enterprise are said to have secured valuable concessions from the Mexican Government, including a subsidy of $10,000 per mile. The road is being built by the Sierra Madre Construction Co., the directors and officers of which are practically the same as those of the railway company. The railway company was chartered in New York on June 11, 1897, with a share capital of $3,120,000.

TEHUANTEPEC NATIONAL RY.—Coatzacoalcos to Salina Cruz, Mex., 193 miles. Gauge, 4 ft. 8½ in. Rail (steel), 80 lbs. Locomotives, 36. Cars—passenger, 10; baggage, etc., 3; freight, 354. This railway is owned by the Mexican Government. It was completed in 1894, the cost of construction being met through a loan of £2,700,000 secured by mortgage on the property. That loan was converted into the 5 p. c. external consolidated gold loan of 1899, and the mortgage extinguished. In 1899 a contract was made with the British contracting company, S. Pearson & Son, Limited, of London, to rebuild the road, putting it into first class and permanent condition, and to construct harbor works at Coatzacoalcos and Salina Cruz. The cost of rebuilding the railway and constructing the harbors will amount to about $25,000,000 Mexican currency, of which $5,000,000 has been contributed by the Government free of interest and the balance provided by a loan secured upon the earnings of the railway and ports. The rebuilding of the railway will be completed in 1903 and the construction of the harbors in 1905. A partnership has been entered into between the Government and S. Pearson & Son, with a working capital of $5,000,000, one-half of which is found by each partner. It is provided that S. Pearson & Son shall work and manage the railway and harbors under a lease for 50 years from July 1, 1903, as managing partners for and on account of the partnership. The corporation of S. Pearson & Son, Limited, is capitalized as follows: £750,000 5 p. c. debentures, of which £500,000 issued; £500,000 fully paid 5 p. c. preference shares; £1,000,000 fully subscribed and half paid ordinary shares; and £1,000 fully paid management shares.

VERA CRUZ AND PACIFIC RR.—Cordoba to Santa Lucrecia, Mex., 202.6 m.; Vera Cruz to Tierra Blanca, Mex., 62.1 m.—total, 264.7 miles. Sidings, 12.3 miles. Gauge, 4 ft. 8½ in. Rail (steel), 56 lbs. This road is being constructed under a concession granted by the Mexican Government to Alfred Bishop Mason, for a railroad from Cordoba to Santa Lucrecia on the National

Tehuantepec Ry., with a branch from Vera Cruz to a point near the River Papaloapam, and another to the Valle Nacional; a total length of about 560 kilometers, say 348 miles. The Government agrees to pay $16,000 per kilometer of main line and $8,000 per kilometer of the Vera Cruz Branch, but with the proviso that the entire concession shall not exceed $6,000,000. By the terms of the concession 100 kilometers of the road must be completed before Dec. 5, 1900, an additional 100 kilometers before Dec. 15, 1901, and the entire road before Dec. 15, 1903; the dates mentioned being, respectively, two years and nine months, three years and nine months, and five years and nine months from the date of the concession, March 15, 1898. The company may build additional branches provided the routes are filed with the Government previous to Dec. 15, 1903; but for these there will be no subsidy. The concession is a modification of and supersedes one granted to H. V. R. Reed, of London, Eng., for a line in extension of the Mexican Southern Ry. from Oaxaca south. The company purchased the franchises of the Mexican Southern Ry., south of Oaxaca; also the Agricola RR., extending from Cordoba to Motzorongo, 26 miles, taking possession thereof on Feb. 18, 1899. From Jan. 1 to Feb. 15, 1902, 51 kilometers of track had been laid, and the main line and the Vera Cruz branch were completed during 1902. Locomotives, 21. Cars—passenger, 23; baggage, etc., 4; freight (box, 75; stock, 50; flat, 135), 260; service, 17—total cars, 304. Of this equipment, 9 locomotives and 15 passenger, 2 baggage, 50 box, 10 stock, and 90 flat cars are held under equipment trusts. Capital stock auth. ($100 shares), $500,000. WESTERN RY. OF MEXICO.—Altata to Culiacan, Mex., 38.5 miles. Sidings, etc., 3 miles. Gauge, 4 ft. 8½ in. Rail (steel), 45 lbs. Chartered Sept. 23, 1890, in London, to acquire the property and railroad then owned by the Sinaloa and Durango RR. Co. (See MANUAL for 1892.) Capital stock (£10 shares), £231,000. The company obtained a concession, dated May 17, 1895, for a railroad from Culiacan to Gutierrez, on the Mexican Central Ry., about 450 miles. This concession was modified in Jan., 1897, the government agreeing to grant a subvention of $8,500 per kilometer, payable in the 5 p. c. bonds of the interior redeemable debt, which the company is to take at par. The line is to be divided for subsidy purposes into four sections: (1) From Culiacan to the Papudos Heights in the Sierra Madre; (2) from the Papudos Heights to Santiago Papasquiaro; (3) from Santiago Papasquiaro to Durango; and (4) from Durango to Gutierrez. Locomotives, 2. Cars—passenger, 5; freight (box, 4; flat, 19), 23; other, 14—total, 42. Also 4 coasting steamers, 6 lighters, 1 steam launch, and 1 skiff.

PANAMA RAILROAD COMPANY.

1. Main Line of Road: Colon (Atlantic) to Panama (Pacific), Colombia....47.5 m.
La Boca Branch: Junction to La Boca.... 2.5 m.—50.0 miles.
Sidings, 23.6 miles. Gauge, 5 ft. Rail (steel), 56 and 70 lbs.

2. History.—This interoceanic line was chartered by the Legislature of New York, April 7, 1849. The road was opened from the Atlantic to the Pacific, Jan. 28, 1855. The immediate purpose was to provide a route to California, but the line has become a great commercial highway between the nations on the coasts of Western Europe and Eastern Asia, as well as between San Francisco and New York. The concessions from the United States of Colombia were granted in 1850, and, as amended and enlarged, run until the year 1966. They have continued for 54 years unimpeached and unquestioned, and represent a large cash investment, fully discharged, leaving payable only the annual subsidy of $250,000. By its concessions the company is exempted from payment of any tax.

3. Rolling Stock, Dec. 31, 1902.—Locomotives, 35. Cars—passenger (special, 5; 1st class, 8; composite, 1st and 2d class, 2; 2d class, 9; baggage, 7), 31; freight (box, 589; coal, 174; flat, 150), 913; miscellaneous, 56—total cars, 1,000.

4. Floating Stock.—Consists of the steamships "Advance," "Finance," and "Aliança," comprising the Panama RR. Steamship Line between New York and Colon, which makes connection at Panama for all points on the west coast of North, Central, and South America; also 2 steam tugs, 16 freight lighters, 3 coal lighters, and 1 floating pile driver.

9. ADDITIONAL PARTICULARS RESPECTING THE FUNDED DEBT.

The 6 p. c. gold sinking fund subsidy bonds were issued Nov. 1, 1880, and will mature on Nov. 1, 1910. To meet the indebtedness $225,000 annually of the Colombian Government subsidy was pledged till March 27, 1908, the same to be applied by the company, first, to the payment of interest, and then as a cumulative sinking fund for the redemption of the principal; the bonds to be drawn yearly, in Sept., to an amount equal to the then surplus of the subsidy sinking fund, the drawn bonds to be paid on Nov. 1 after each drawing, and thereby redeeming the whole issue in 1908.

The 1st mtge. 4½ p. c. gold sinking fund bonds are dated Aug. 15, 1897, and mature Oct. 1, 1917, interest payable April 1 and Oct. 1, at the office or agency of the company in New York, N. Y. The authorized amount is $4,000,000, of which $2,000,000 were issued and delivered to the company at the time of the execution of the mortgage, and were issued to retire (together with cash assets of the company) 2,681 sterling mortgage bonds of £200 each, which matured Oct. 10, 1897, and which remained in the hands of the public out of the original issue of 5,000 bonds. The remaining $2,000,000 were reserved to be issued only for the purpose of the acquisition or construction of property, steamers, vessels, wharves, harbors, piers, railroads, branches, warehouses, grain or other elevators, lands, double tracking, terminal facilities and other property, and for betterments and improvements of the corporate property, and only in such amounts as the Board of Directors may, from time to time, by a three-fourths vote of the entire board, determine to be necessary for any of said purposes. The bonds are redeemable at the option of the railroad company on any interest date after five years from their date, at 105 p. c. and accrued interest, in the manner and upon the notice provided in the mortgage securing the same. The provisions of the sinking fund are to the effect that the company shall apply the sum of $150,000 in gold each year to the purchase of such bonds in the market at a price not exceeding the principal and a premium of 5 p. c. upon the par value thereof and the accrued interest, or to the drawing of such bonds annually by lot, at the principal and a premium of 5 p. c. upon the par value thereof and the accrued interest.

All of the bonds authorized were issued previous to Dec. 31, 1902; and by the action of the sinking fund 701 bonds, amounting to $701,000, were retired and cancelled up to Dec. 31, 1902. Trustees: Central Trust Co., New York, and William Nelson Cromwell, New York, N. Y.

TWENTY-TWO YEARS OF PROTECTION.

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second, the Period of the attempted Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period, of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature,—a return to the Protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—"Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

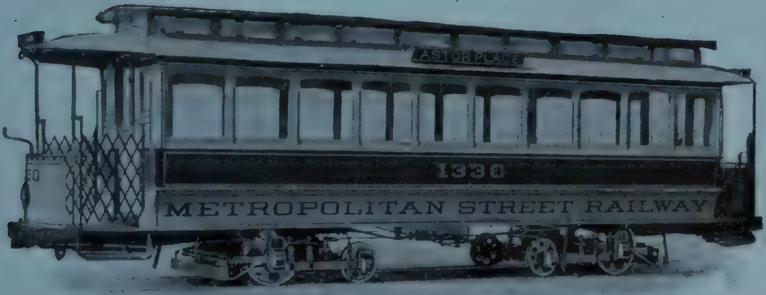
CITY AND INTERURBAN CARS OF EVERY DESCRIPTION. SPECIAL DESIGNS FOR SPECIAL CONDITIONS. CARS SHIPPED TO ALL PARTS OF THE WORLD.



BRILL CARS AND TRUCKS ARE STANDARD IN NEW YORK CITY.

THE CONVERTIBLE CAR (Patented), for City Service.

Large double-sash windows and flexible double-sheet metal water-proof and cold-proof panels slide into roof pockets. Metal trunnions and metal runways—no sticking. Car opened or closed in five minutes. Convertible cars for nine different companies are being built at date of writing.

THE SEMI-CONVERTIBLE CAR (Patented), for Suburban and Interurban Service.

This is the anti-wall window pocket car. Large double-sash windows slide with marvelous ease into roof pockets. Wall window pockets are used as cuspidors by careless passengers and become breeding places for disease germs; they also take 6 to 7½ inches from seats and aisle.

THE "NARRAGANSETT" CAR (Patented), for Summer Excursion Service.

The long open car to use with double-trucks. Z-iron sills, with step on outward-extending lower flange, thus providing with the running board a double step without exceeding the width over all of a standard single-step double-truck open car. Ingress and egress easy and safe. Seats longer than standard.

BRILL 27 TRUCK (PATENTED), SOLID FORGED FRAMES.

21-E TRUCK (Patented), for Four-Wheeled Cars.

Carries the car two inches lower than any other single-truck. Solid forged side frames with diagonal cross bracing at center—a frame that is always square. Semi-elliptic springs at the ends of the side frame extensions break the rhythm of the quicker-acting coil springs and prevent oscillation.

"EUREKA" MAXIMUM TRACTION TRUCK (Patented), for Low and Narrow City Cars.

Seventy-five per cent. of the load on the drivers on tangents and part of the weight transferred automatically to the pony wheels on curves. The truck starts rapidly and climbs heavy grades easily. Braking force graduated. The largest number in use of any truck built.

27-G TRUCK (Patented), for Fast and Heavy City and Suburban Service.

Every motion cushioned, Spring-link suspended semi-elliptic spring equalizers prevent jarring at the entrance of curves. Three sets of springs working in series. Can be used under low and narrow cars.

27 TRUCK (Patented), for High Speed Service.

The truck shown in the illustration. A perfectly equalized truck. Holds the world's record for speed. The only radical improvement over the so-called "M. C. B." truck in thirty years. Three sets of springs. Cushioned side swing. Absolutely non-tilting frames. In use on the principal high speed roads at home and abroad.

SOLID FORGED SIDE FRAMES.

We build all our trucks with solid forged side frames. Shocks and vibrations cannot crystallize them. No rivets, no built-up work. Frames that are always square.

Supplies of all Kinds for Cars and Trucks.

Oakland Transit 6 p. c. 20-yr. gold coupon, with privilege of registration, bonds, due July 7, 1918, interest Jan. and July, in New York, N. Y., or at the office of the trustee, California Safe Deposit and Trust Co., San Francisco, Cal.; (2) $15,000 Oakland RR. 1st mtge. 6 p. c. 20-yr. bonds, due June, 1903, (trustees, Volney D. Moody and B. F. Mann); (3) $1,585,000 Oakland Tr. Co. 1st consol. mtge. 5 p. c. 30-yr. $1,000 gold coupon, with privilege of registration, bonds, due July 1, 1931, interest Jan. and July at Wells, Fargo & Co.'s offices, New York, N. Y., and San Francisco, Cal., and at company's office, Oakland, Cal.; (4) $250,000 Oakland, San Leandro and Haywards Elect. Ry. 1st mtge. 6 p. c. 30-yr. $1,000 gold bonds, due March 1, 1922, interest March and Sept. by check; (5) $250,000 Twenty-third Ave. Ry. 1st mtge. 6 p. c. 30-yr. $1,000 gold bonds, due March 1, 1923, interest March 15 and Sept. 15 by check, and (6) $700,000 Oakland Transit Consolidated 1st consol. mtge, sinking fund 5 p. c. 30-yr. $1,000 gold bonds, due July 1, 1932, interest Jan. 1 and July 1 at Bank of Wells, Fargo & Co., New York, N. Y., and San Francisco, Cal., and at the office of the company, Oakland, Cal.—total, $4,200,000.

The authorized amount of Oakland Transit 1st consols is $3,000,000, of which $1,415,000 are reserved to retire underlying liens at maturity and $300,000 are issuable only when the net earnings shall exceed $100,000 per annum. A sinking fund beginning in 1912, will retire or provide for $2,020,000 of the bonds at or before maturity; trustee, Mercantile Trust Co., San Francisco, Cal. The mtges. of the Oakland, San Leandro and Haywards Electric, and the Twenty-third Ave. Rys. have sinking funds commencing ten years after date and increasing from 2 p. c. quarterly (of total bonds outstanding) for the first five years to 8 per cent. for the last five years; the bonds, however, are not subject to call before maturity.

The authorized amount of Oakland Transit Consolidated 1st consols is $6,500,000. They are secured by mtge. to the Union Trust Co. of San Francisco, Cal., and are absolutely a first lien on the entire rights, franchises, road, equipment, and property of every description now owned or hereafter to be acquired by the Oakland Transit Consolidated, subject to $3,500,000 bonds of prior lien bonds. Provision has been made for the sinking fund to begin in 1903 and to accumulate annually to 1931 by the terms of which the principal sum of $4,000,000 and the interest accruing thereon will be set aside to retire the bonds on this system previous to maturity. Of the total amount of bonds authorized ($6,500,000) there have been deposited in trust against outstanding bonds of subsidiary companies, $3,500,000; issued, $700,000; total amount of bonds outstanding on present property, $4,200,000; leaving $2.300,000 held for certain specific purposes, as follows: Held by the trustee for reconstruction, to be issued on the basis of 75 p. c. of cost price of completed reconstruction, $400,000; held by the trustee for a new road to Richmond and extensions in Berkeley and Piedmont, to be issued on the basis of 80 p. c. of cost price of complete construction, $210,000; held by the trustee for a new double track road from Oakland to Berkeley, and also a new double track road from Fortieth Street to the Piedmont district, and for a new power house, to be issued when the net earnings for six months are at least double the interest on the bonds outstanding and to be issued on the basis of 80 p. c. of the cost price of completed construction, $600,000; held by he trustee for new construction for lines which have not yet been located, to be issued on the basis of 80 p. c. of cost price of completed construction, but not until the net earnings for twelve months are at least equal to the interest upon the bonds proposed to be issued and also double the interest on the bonds outstanding, $1,090,000.

UNITED RAILWAYS INVESTMENT CO. OF SAN FRANCISCO.

HISTORY.—Organized Feb. 17, 1902, under the laws of the State of New Jersey. The original capital stock of the company was $2,500 (divided into shares of $100 each), of which $1,500 was preferred stock and $1,000 common stock. By resolution of the stockholders adopted April 23, 1902, the capital stock was increased to $25,000,000, of which $15,000,000 is preferred stock and $10,000,000 common stock, all of which is issued and outstanding. The increased issue of preferred and common stock was made for the purpose of acquiring the 200,000 shares preferred stock and 199,991 shares common stock of United Railroads of San Francisco, and has been applied to the payment of such purchase. The United Railways Investment Co. of San Francisco has acquired and holds in its treasury 200,000 shares of 4 p. c. cumulative preferred stock and 199,991 shares common stock of the United Railroads of San Francisco, being the total authorized issue, with the exception of nine shares held by directors.

INCOME AND PROFIT AND LOSS ACCOUNT, five months ending Dec. 31, 1902.—Income (dividend 1, 2-10 p. c. on 200,000 shares, par value $100 each, of the preferred capital stock of the United RRs. of San Francisco), $240,000. Expenses, $1,568; dividend (No. 1 on preferred capital stock; 1½ p. c. on 150,000 shares of $100 each), $225,000. Surplus, $13,432.

GENERAL BALANCE SHEET, Dec. 31, 1902.—Capital stock, (shares, $100)—preferred, $15,000,000; common, $10,000,000—total, $25,000,000; dividends, payable Jan. 3, 1903, $225,000; surplus, $13,432—total, $25,238,432. Contra: Investments (U. RRs. of San Francisco capital stock: 200,000 shares preferred; 199,991 shares common), $24,799,784; organization expenses, $109,462; cash on deposit, $329,186—total, $25,238,432.

The preferred stock is entitled to dividends out of the surplus net profits of the company from and after April 1, 1902, at the rate of but not exceeding 5 per cent. per annum, payable semi-annually, which dividends shall be paid in priority and preference to any dividends during such fiscal year on the common stock, and shall be cumulative, such 5 per cent. cumulative dividend being in full of all dividend rights on said preferred stock. All or any of the preferred stock may be redeemed at any time after three years from the issue thereof at 110 p. c., together with all dividends then accrued and unpaid on the stock so redeemed. "In the event of the liquidation or dissolution of the company, the holders of the preferred stock then outstanding shall be entitled to receive the par value thereof, any dividends at the rate aforesaid then unpaid out of the funds and assets of the corporation then remaining, before anything shall be paid therefrom to the holders of the common stock."

DIRECTORS.—Eugene Delano, Patrick Calhoun, New York, N. Y.; W. Gerard Vermilye, Englewood, N. J.; Arthur E. Newbold, Samuel L. Shober, Jr., Philadelphia, Pa. Officers: Eugene Delano, Pres.; W. The United RRs. of San Francisco is also nominally indebted to the constituent companies for the pro rata part of the purchase money accruing to it as the holder of the acquired stock. The liabilities have not been cancelled and are as follows: To the Market Street Ry.Co., $18,580,792; Sutter Street Ry. Co., $2,674,880; Sutro RR. Co., $228,510; San Francisco and San Mateo Electric Ry. Co., $1,650,000—total, $23,134,182. As they do not represent an actual liability or an actual asset, these items have been omitted from both sides of this general balance sheet in order to show the true financial condition of the company.

Preferred stock is entitled to 4 p. c. cumulative dividends, and is preferred both as to dividends and capital. All surplus income above 5 p. c. on the common stock otherwise applicable to payment of dividends thereon must also be applied as a sinking fund or for improvements.

RAILROAD CONTROLLED BY THE DENVER AND NORTHWESTERN RY. CO.

Denver City Tramway Co.—Length of line owned, 144.34 m.; operated (D. & N. W. Ry.), 2.33 m.—total, 146.67 miles. Gauge, 3 ft. 6 in. Rail (T), 45 to 72 lbs.

HISTORY.—Consolidation March 3, 1899, of the Denver City RR. Co., the West End Street RR. Co. and the Denver Consolidated Tramway Co. (see MANUAL for 1898, page 945.) The properties of the two first-named companies were sold under foreclosure of their respective mortgages on Dec. 16, 1898, and purchased on behalf of the bondholders in pursuance of a plan of reorganization. The property was then transferred to the Denver City Traction Co., which had been organized for the purpose of acquiring the property. For plan of reorganization, etc., see MANUAL for 1899, page 931. The present company is the successor by purchase, consolidation or otherwise, to all the properties, rights, and franchises of the following named companies: Denver Tramway Co., Metropolitan Ry. Co., Denver Consolidated Tramway Co., Denver City RR. Co., West End Street RR. Co., Denver City Traction Co., and Colfax Electric Ry. Co. Franchises run 50 years from Dec. 30, 1898.

In May, 1902, control of the company was obtained by the Denver and Northwestern Ry. Co. through exchange of the securities of that company for the capital stock of this company. St. Ry. 1st purchase money consol. mtge. bonds are a first mortgage on former Edgewood Ave. and a second mortgage on remainder of former New Haven St. Ry. lines. On Nov. 27, 1899, the capital stock was increased from $2,000,000 to $2,500,000 to retire the $500,000 one-year notes issued to complete the purchase of the New Haven Street Ry. On Oct. 1, 1901, it was again increased to $3,000,000 to provide the means for the payment of the floating debt and for an extension to Derby, Conn. In addition to the items shown in the above balance sheet, $840,000 of notes have been given by the company for the purpose of purchasing stock sufficient to control the Winchester Avenue RR. Co., which is operated independently.

On Oct. 1, 1901, the capital stock was increased to $3,000,000. An issue of $800,000 was authorized to be given in exchange, share for share, for Winchester Avenue RR. Co. stock, of which nearly all was exchanged. In June, 1902, the stock was increased to $3,790,400, and again in Oct., 1902, to $4,426,100.

On July 8, 1902, pursuant to authority previously vested in them by the stockholders, the directors voted to issue to holders of old stock one share of new stock for each six shares of old stock held by each shareholder, the proceeds to be applied to reduction of debt.

Under date of June 22, 1903, it was announced that:

"As a result of the purchase of a controlling interest in the Winchester Avenue Railroad Company through the New England Street Ry. Co., and the subsequent distribution of assets, this Company has come into the possession of 22,417 shares of its own stock. This stock, together with so much new stock to be issued under the vote passed by the stockholders May 1, 1902, as may be necessary to make one share of new stock for four shares of stock now outstanding, exclusive of that held as aforesaid, is offered at par to stockholders of record at the close of business July 6, 1903; the proceeds to be used for the purpose of paying in part, the floating indebtedness of this Company which has been incurred in the acquisition of the control of the Winchester Avenue RR. Co., as above stated, and for extensive additions of its railroad and equipment."

WASHINGTON RY. AND ELECTRIC CO.—Length of track owned (underground electric, 30.10 m.; overhead electric, 24.20 m.), 54.30 miles. Gauge, 4 ft. 8½ in. Rail (various), 58 to 96 lbs.

HISTORY.—Incorp. as the Washington and Great Falls Electric Ry. Co., July 29, 1892, by special Act of Congress; name changed to Washington Ry. and Electric Co. on Feb. 1, 1902. On Feb. 4, 1902, purchased the assets of the Washington Traction and Electric Co., which were sold under foreclosure on Nov. 24, 1901, in pursuance of a plan for the reorganization of that company's finances (see Manual for 1901, page 883). This plan of reorganization is dated Aug. 1, 1901; it provided for the foreclosure of the collateral trust mortgage of the Washington Traction and Electric Co., and the formation of a new company with authority to issue (a), $17,500,000 4 p. c. 50-yr. gold bonds; (b), $8,500,000 5 p. c. preferred stock, cumulative after June 1, 1904, and (c), $6,500,000 common stock. Holders of old collateral trust bonds received for each $1,000 bond $550 in new 4 p. c. bonds, $550 in new preferred stock and $200 in new common stock. Each $100 share of old stock on payment of $9 per share received $9 in new preferred stock and $30 in new common stock. It was also proposed to consolidate the United States Electric Lighting Co., and the Potomac Electric Power Co., and place a mortgage on the combined plants to secure bonds aggregating $2,500,000.

On Feb. 4, 1902, the properties of the Metropolitan RR. Co. and Columbia Ry. Co. were acquired by deed in fee, subject to their mortgage debt (see Manual for 1901, page 884). In addition to the mileage actually owned by this company (54.30 miles), as shown above, it controls, through stock ownership, other street railroads in the District of Columbia and State of Maryland, with an aggregate track mileage of 91.22 miles, making the total mileage of the system 145.52 miles. It also controls the Potomac Electric Power Co., the only electric light and power company in the city, and the Great Falls Power Co., which has valuable undeveloped water power rights at the Great Falls of the Potomac River.

In July, 1903, James Christy, Jr., Akron, O., and George Weems Williams, Baltimore, Md., were appointed receivers for this company. A plan for the reorganization of the company's finances is under consideration.

GEORGIA RY. AND ELECTRIC CO.—Length of line, 110 m.; of track, 140 miles. Gauge, 4 ft. 8½ in. Rail (T and grooved), 70 and 88½ lbs.

HISTORY.—Incorp. Jan. 29, 1902, as a consolidation of the Atlanta Ry. and Power Co., the Atlanta Rapid Transit Co., the Georgia Electric Light Co., and the Atlanta Steam Co. (see MANUAL for 1901, pages 886 and 887). On Feb. 8, 1902, the city of Atlanta passed an ordinance authorizing this consolidation, and in return for the privileges under the consolidation ordinance, the company has paid to the city $50,000 cash, and during the first three years of its existence agrees to pay one per cent.; during the next twenty years two per cent., and thereafter three per cent. of its gross receipts. The payment of these percentages is in lieu of any specific, occupation, license, excise, and special franchise taxes, and also protects the company from all money demands and charges of every description, except the regular property tax and the usual paving charges. On April 1, 1902, the new company assumed the operation of the property, which comprises the entire street railway, electric light, power, and steam heating interests of Atlanta and Fulton County. As of July 1, 1903, the entire capital stock of the Atlanta Gas Light Co., consisting of $600,000, par value, preferred stock, and $1,014,625, par value, common stock, was exchanged for $600,000, par value, of the preferred stock, and $1,014,600, par value, of the common stock of the Georgia Ry. and Electric Co. Cars (motor, 200; trail, 9; other, 3), 212. Power stations, 2; engines to generate power, 9.

CHICAGO CONSOLIDATED TRACTION CO.—Length of track, 205.71 miles. Gauge, 4 ft. 8½ in. Rail (Johnson girder), 75 to 85 lbs.

HISTORY.—Chartered Jan. 28, 1899, under the laws of Illinois "to construct, maintain and operate horse, dummy and street railways within the city of Chicago and the county of Cook and State of Illinois." Under date of Feb. 27, 1899, this company acquired, by purchase, the entire property and assets of the following named companies: Chicago Electric Transit Co., North Chicago Electric Ry. Co., Chicago North Shore Street Ry. Co. (leased to the N. C. E. Ry. Co.), North Side Electric Street Ry., Evanston Electric Ry. Co., Cicero and Proviso Street Ry. Co., Ogden Street Ry. Co. and the Chicago and Jefferson Urban Transit Co. The lines of this company extend over the entire north, northwest, west and southwest sections of the city of Chicago and connect at their respective terminal points with the lines of railroad of the North and West Chicago Street RR. systems.

On April 14, 1900, an operating agreement with the Chicago Union Traction Co. was authorized by the directors of this company. The Chicago Union Traction Co. paid $45 in Chicago's Consolidated Traction 4½ p. c. bonds, due Dec. 1, 1939, guaranteed principal and interest by the Chicago Union Traction Co., and $1.50 in cash for each $100 of stock (see statement of the C. U. T. Co.). Cars (motor, 269; trail, 62), 331; motor equipments, 208. Also snow-ploughs, sweepers, etc.

The 1st mtge. Chicago North Shore bonds are in coupon form for $500 and $1,000 each; other issues are for $1,000 each, in coupon form.

The company had no direct funded debt of its own on Feb. 27, 1899, but assumed the mortgage indebtedness shown in the above table, guaranteeing the bonds. Additional guarantee of the North Chicago Street RR. Co. has also been placed upon $1,228,000 of the above stated issues, and the guarantee of the West Chicago Street RR. Co. upon $3,058,000 thereof. In detail these guarantees are—By North Chicago Street RR. Co.: Chicago Electric Transit 1sts, $255,000; Evanston Electric 1sts, $130,000; No. Chicago Electric 1sts, $688,000, and No. Side Electric 1sts, $155,000—total, $1,228,000. By West Chicago St. RR. Co.: Chicago Electric Transit 1sts, $842,000; Chicago and Jefferson Urban 1sts, $208,000; Cicero and Proviso consols., $1,078,000; No. Chicago Electric 1sts, $180,000, and Ogden Street 1sts, $750,000—total, $3,058,000. By the terms of the several trust deeds of the mortgages securing the $5,435,000 bonds described in the funded debt statement, there cannot be any more bonds issued except for construction, and then only for 75 p. c. of the actual expenditures therefor. Registrar of stock—in New York, Central Trust Co.; in Chicago, Equitable Trust Co. of Chicago.

FINANCIAL STATEMENT, June 1, 1903.—Capital stock ($100 shares), $15,000,000; funded debt (1st mtge. 4½ p. c. 40-yr. gold bonds, due Dec. 1, 1939, interest June and Dec., at office of the trustee, Equitable Trust Co., Chicago, Ill., principal and interest guaranteed by the Chicago Union Traction Co.), $6,750,000—total stock and bonds, $21,750,000. For terms under which these bonds were exchanged for stock of the Consolidated Traction Co., see page preceding. For bonds of the constituent companies assumed by this company, see bond table preceding.

CHICAGO ELECTRIC TRACTION CO.—Length of track, 35 miles. Gauge, 4 ft. 8½ in. Rail (girder), 80 lbs.

HISTORY.—Successor, in Jan., 1898, to the Englewood and Chicago Electric Ry. (opened Jan. 19, 1897), whose property was sold under foreclosure on Oct. 12, 1897, and purchased for $260,000 on behalf of the reorganization committee (see MANUAL for 1897, page 929). New company took possession Jan. 2, 1899. During 1898 the railroad business of the Harvey Water and Light Co. (the Harvey Transit Co.) was sold to the Chicago Electric Traction Co. On June 13, 1900, a receiver was appointed on petition of the trustees of the 1st mortgage. A reorganization committee was appointed and all securities have been deposited, but no plan of reorganization had been issued up to May 1, 1903. Motive power was changed to overhead-trolley from storage battery in 1901. Cars (motor, 50; trail, 26), 76. Power stations, 2; engines to generate power, 3.

OPERATIONS, year ending Dec. 31, 1902.—Earnings (passenger, $109,600; other, $4,546), $114,146. Operating expenses, $91,223. Net earnings, $22,923.

FINANCIAL STATEMENT, May 1, 1903.—Capital stock ($100 shares), $2,000,000; funded debt outstanding (1st mtge. 5 p. c. 30-yr. gold coupon bonds, due Jan. 1, 1929, interest Jan. 1 and July 1, at office of Manhattan Trust Co., New York, N. Y.), $500,000—total stock and bonds outstanding, $2,500,000.

The bonds are secured by mortgage dated Jan. 2, 1899, to Manhattan Trust Co., of New York, and John Kean of New Jersey, and the $500,000 issued were to pay for the property acquired. Bonds in addition, to an unlimited amount, may be issued from time to time for extensions, betterments, etc., at a rate not exceeding $40,000 additional bonds for each mile of new track. They may be redeemed, on three weeks' notice, on any interest day, at 105. The plan of reorganization (see Manual for 1898, page 961) also provided for the issue of $2,000,000 consol. mtge. income 5 p. c. 20-yr. bonds, due Jan. 1, 1929, interest April and Oct.; none issued to May 1, 1903.

DIRECTORS.—Isaac L. Rice, J. S. Bache, Hoffman Atkinson, New York, N. Y.; Samuel R. Shipley, Henry Lewis, Philadelphia, Pa.; Charles R. Holden, Carl Meyer, E. R. Gilbert, Wm. C. Tibbs, T. A. Moran, Jr., A. S. Austrian, Chicago, Ill. Officers: Charles Henrotin, Rec.; Isaac L. Rice, Pres., 100 Broadway; Hoffman Atkinson, Vice-Pres.; Jules S. Bache, Sec. & Treas., 66 Exchange Pl., New York, N. Y.; A. E. Davies, Gen. Mgr., Chicago, Ill. General Office, 88th St. and Vincennes Road, Chicago, Ill. New York Office, 20 Broad St.

CHICAGO GENERAL RY.—Length of track, 30 miles. Gauge, 4 ft. 8½ in. Rail (girder), 80 lbs.

HISTORY.—Incorp. Oct. 31, 1893, and on April 3, 1894, leased the property of the West and South Towns Street Ry. Co. (For history of this company, see Manual for 1896, page 1090). On May 25, 1896, the property of the latter company was purchased by the Chicago General Ry. Co. Receiver appointed April 17, 1900, and again on June 14, 1901, under bill of foreclosure. Three bondholders' committees have been formed, as follows: For the West and South Towns Street Ry. Co. bonds, consisting of Granger Farwell, Herbert B. Davis, and Arthur Heurtley, with the Northern Trust Co. of Chicago, as depository; for the Chicago General Ry. Co. bonds, consisting of Erskine M. Phelps, John S. Runnells, and L. A. Goddard, with the Merchants' Loan and Trust Co. of Chicago, as depository; and a general committee for all bonds, consisting of James P. Black, Lyman M. Paine, and Glenn E. Plumb, with the Real Estate Trust Co. of New York, as depository. A stockholders' committee, consisting of Charles L. Bonney, Wm. A. Goodman, and Joseph P. Mahoney, has likewise been formed. Foreclosure proceedings are now (May, 1903) in progress. Cars, 23.

FINANCIAL STATEMENT, May 1, 1903.—Capital stock (auth., $10,000,000; $100 shares), $500,000; capital stock issued, but in litigation, $272,350; funded debt (gen. mtge. 5 p. c. 40-yr. $500 and $1,000 gold bonds, due Nov. 1, 1935, interest May 1 and Nov.), $1,438,000—total stock and bonds issued, $2,210,350.

The authorized issue of gen. mtge. bonds is $3,000,000, secured by trust deed to the Merchants' Loan and Trust Co., Chicago, Ill. Of these bonds, $625,000 (Nos. 2,076 to 2,700 incl.), were deposited with the trustee with power to sell the same and apply the proceeds in payment of 500 bonds of the old Towns Co., which is a lien on a portion of the property ($210,000 of the latter bonds have been paid off under this provision); $75,000 were issued to retire a like amount of debentures issued by the C. G. Ry. Co.; $500,000 were issued to purchase the property and franchises of the old Towns Co. (above stated). Default in payment of interest continuing for six months after demand empowers the trustee to declare the bonds immediately due, and the trustee may take possession on the written request of a majority of the bonds. The mortgage further provides that the trustee may foreclose the mortgage at the written request of holders of two-fifths of the bonds outstanding. In Jan., 1898, holders of the West and South Town Sts. Ry. 1st mtge. 6s were offered the right to exchange their bonds for Chicago General 5s, and all but $290,000 of these bonds have been exchanged. The coupons due May, 1900, and subsequently, of the general mtge. bonds, as also the coupons due Aug., 1900, and subsequently of the West and South Towns bonds, have been defaulted.

DIRECTORS.—Not reported. Edwin J. Zimmer, Rec., Chicago, Ill. General Office, 1496 West 22d St., Chicago, Ill.

CHICAGO UNION TRACTION CO.—Organized May 24, 1899, under the laws of Illinois, to construct, lease, own, maintain, and operate street railroads, to be operated by other than steam power, within the city of Chicago and the counties of Cook, Lake, McHenry, Du Page, and Will, in the State of Illinois. On July 1, 1899, this company acquired, by leases and agreements, the entire railroad and assets of the North Chicago Street RR. Co. and the West Chicago Street RR. Co., and the railroads and assets leased, owned, and controlled by said last named corporations, consisting of railroads, equipment, ordinance and contract rights, real estate, etc., etc., and also assumed the liabilities and contract obligations of the North Chicago Street RR. and the West Chicago Street RR. Cos. Under the terms of these leases, which are dated June 1, 1899, and run during the corporate existence of the lessor companies, the lessee agrees to pay 6 p. c. per annum on the capital stock of the West Chicago Street RR. Co. and 12 p. c. per annum on that of the North Chicago Street RR. Co., in addition to their fixed charges. By a tripartite agreement, dated June 1, 1899, the Chicago Union Traction Co.'s holdings of stock in the two companies, viz., $3,200,000 par of the West Chicago Street RR. Co. and $2,000,000 par of the North Chicago Street RR. Co. (equivalent to $10,000,000 in cash) are deposited in trust with the Illinois Trust and Savings Bank of Chicago as security for the leases. The total amounts annually payable by the Chicago Union Traction Co. on account of rentals, bonds, and other indebtedness assumed are: By lease of West Chicago Street RR., $1,742,940; of North Chicago Street RR. Co., $1,159,950—total, $2,902,890. The lines operated by this company extend over the entire north, northwest, west, and southwest sections of the city of Chicago, together with tracks, loops, and terminals in the south side of said city.

In April, 1900, an operating agreement was executed between the Chicago Union Traction Co. and the Chicago Consolidated Traction Co. (see statement C. C. T. Co., on page 913), of date December 1, 1899, to continue for fifty years. It provides for the adjustment of a number of older contracts between the parties, respecting the furnishing of electric current by one to the other, trackage rights, transfers, etc., the effect being, in general, to fix an equitable basis of compensation for current furnished, to maintain a number of existing transfer arrangements and certain trackage rights. It also gives to the Consolidated Company the right to operate its cars over a number of tracks of the Union Company running into the heart of the city, and over all electric tracks within the heart of the city, and provides that the Consolidated Company shall have like right to operate its cars over all the cable lines of the Union Company which intersect or join lines of the Consolidated Company, as soon as the cable shall be superseded by some other motive power. The Consolidated Company pays no repair, renewal or maintenance charges in respect of such tracks running down town; but it gives the Union Company 23 p. c. of the fares collected in its cars while being operated over such tracks. In consideration of this privilege the Consolidated Company gives the Union Company $6,750,000 of its 4½ p. c. 50-yr. gold bonds. These bonds were guaranteed by the Union Company and used by the trustee in purchasing on behalf of the Union Company the capital stock of the Consolidated Company at $45 in bonds for each $100 share. The Union Company agrees that it will not mortgage any of its property, owned at the date of this agreement, while these bonds are outstanding.

Under date of Jan. 20, 1903, a committee of which Walter G. Oakman, New York, N. Y., is chairman, requested the stockholders of the Chicago Union Traction Co., the North Chicago Street RR. Co., and the West Chicago Street RR. Co. to deposit their stock, with a view of arranging for a general reorganization providing for the expenditure of a large sum of money, and coming to an agreement with the city. On April 22, 1903, the property of the company was placed in the hands of three receivers, viz.: James H. Eckels, Chicago, Ill., representing the Western interests, R. R. Govin, New York, N. Y., representing the Eastern interests, and Marshall E. Sampsell, Chicago, Ill., representing the Court.

OPERATIONS, year ending June 30, 1902.—Earnings (passenger, $7,801,076; chartered cars, $4,265; mail, $19,779), $7,825,120. Operating expenses (maintenance of way and structures, $274,576; of equipment, $499,048; transportation, $2,794,000; general, $1,003,096), $4,570,719. Net earnings, $3,254,400; other receipts, $117,350—total income, $3,371,750. Deductions: Taxes accrued, $614,417; interest on loans, accrued, $117,784; rentals, accrued, $2,884,680; premium on bonds purchased, $2,397—total, $3,619,278. Deficit, $247,528.

Capital Stock.—The preferred stock is entitled to receive, out of the net earnings of the company, for each fiscal year beginning July 1, 1899, dividends at the rate of not to exceed 5 p. c. per annum, in preference and priority to the payment of any dividend on the common stock for such fiscal year. The dividends in each year are cumulative, and if in any fiscal year the dividends declared upon the preferred stock should be less than 5 p. c. the deficiency shall be made up in the dividend declared for the next succeeding year or years. In the event of the dissolution of the company or the distribution of any part of its corporate assets among its stockholders, the holders of the preferred stock shall be entitled to receive payment in full of the par value of their preferred stock out of any surplus of assets remaining after the payment of its corporate debts, before any distribution or payment shall be made out of the same to any of its common stockholders. The preferred stock and the common stock have equal voting power.

This company owns $3,200,000 par value of the stock of the West Chicago Street RR. Co. and $2,000,000 par value of the capital stock of the North Chicago Street RR. Co., both deposited under the tripartite agreement above referred to. It is the lessee by mesne assignment of $625,000 par value (out of a total of $1,250,000) capital stock of the Chicago West Division Ry., said stock being deposited with the Illinois Trust and Savings Bank of Chicago as collateral security (with other property) for $3,917,000 of the 1st mtge. 40-yr. 5 p. c. bonds of the West Chicago Street RR. Co. It is also the lessee by mesne assignment of $730,000 (out of a total of $1,340,300) of the Chicago Passenger Ry. Co., this stock standing in the name of Jesse Spalding, trustee for the Union Traction Co., and of $250,100 (out of a total of $500,000) stock of the North City Ry. Funded debt outstanding consisted, May 1, 1903: $3,864,000 (auth., $4,100,000) 1st mtge. 5 p. c. 40-yr. $1,000 coupon bonds, due May 1, 1928, interest May and Nov.; $6,136,000 consol. mtge. 5 p. c. 40-yr. $1,000 gold coupon with privilege of registration, bonds, due Nov. 1, 1936, interest May and Nov., and $497,000 debenture 6 p. c. 5-20-yr. $1,000 coupon, with privilege of registration, bonds, due Dec. 1, 1914, interest June and Dec.

The 1st mtge. bonds are secured by mortgage to the Illinois Trust and Savings Bank, Chicago, Ill., trustee of all the property of the company except the lease of the Chicago West Division Ry. and improvements thereon, now owned or hereafter to be acquired, and including the 6,251 shares of the stock of the Chicago West Division Ry. The mortgage provides for the assignment of these shares and all dividends declared thereon, to the trustee, which, after receiving all dividends on that stock and paying current coupons, shall invest the balance of said funds when and as they may be received by it in any of the bonds hereby secured, by purchasing the same at the market price, and shall cancel the bonds so purchased. The consols are secured by mortgage to the Central Trust Co., New York, and George Sherman, New York, N. Y. Of the total authorized issue ($12,500,000), $4,000,000 were held by the trustee for the purpose of retiring an equal amount of 1st mtge. bonds; $6,000,000 (purchased by a syndicate in Feb., 1897) were to be used for the purpose of retiring $2,700,000 outstanding 6 p. c. debenture bonds and the floating debt, amounting to about $3,000,000; and $2,500,000 were reserved to be issued only for permanent improvements on the property, or for the acquirement or construction of new lines at a rate not to exceed 75 p. c. of the cost of such additional acquisitions. The debenture bonds cannot be called until 1900; they are not due until 1914, but may be paid at the option of the company any time after 1899. John A. Rose, Pres.; H. F. Keegan, Vice-Pres.; F. E. Smith, Sec.; M. B. Orde, Treas., Chicago, Ill. General Office, Chicago, Ill.

Chicago Passenger Ry.—For history, see MANUAL for 1896. By an agreement made May 15, 1888, the Passenger Co.'s lines and tunnel are to be operated by the West Chicago Co., which is to pay therefor an annual rental equal to 5 p. c. on the stock of the lessor company, and guarantee principal and interest of bonds. Leases assumed by the Chicago Union Traction Co.

Financial Statement, May 1, 1903.—Capital stock (auth., $2,000,000); paid in, $1,340,300; funded debt outstanding, $2,000,000—total stock and bonds outstanding, $2,340,300. Funded debt outstanding consists of $400,000 1st mtge. 6 p. c. currency bonds, due Aug. 1, 1903, interest Feb. and Aug., at the Chicago National Bank; and $1,600,000 consol. 5 p. c. 40-yr. currency bonds, due Dec. 1, 1936, interest June and Dec. The 1st mtge. bonds are secured by mortgage dated Aug. 1, 1885, to John R. Walsh, trustee; they are $1,000 bonds, and pass by delivery and may be registered. They cover all the property, rights, and franchises of the company now owned or hereafter to be acquired. The consols are secured by mortgage to the Equitable Trust Co., Chicago, Ill., of all the company's property. A sufficient amount ($400,000) is reserved to retire the prior liens. They were issued to provide the means for funding the floating debt, and for improvements, etc. John A. Rose, Pres.; H. F. Keegan, Vice-Pres.; M. B. Orde, Treas.; F. E. Smith, Sec., Chicago, Ill. General Office, Chicago, Ill.

Chicago West Division Ry. — Chartered by a special act of the Legislature, Feb. 21, 1861; charter amended Feb. 6, 1865. Leased Oct. 20, 1887, to the West Chicago Street RR. Co. The lease provides for a guaranteed dividend of 35 p. c. on the $1,250,000 capital stock of the lessor, and also for the interest from Aug. 31, 1887, on the outstanding bonded debt, and provides for the principal of that funded debt by the extension or renewal thereof or by making new issues. The lease covers all the property of the Chicago West Division Ry. Co., including 7,300 shares of the Chicago Passenger Ry. stock, and provides that the lessor company cannot increase its capital stock during the period of the lease, which runs for 999 years. Preferred stock is entitled to 5 p. c. non-cumulative dividends, and shall have exclusive voting power for five years, subject to be terminated, however, when in any one year during that period dividends amounting to 5 p. c. shall have been paid on the preferred stock. The title to the common stock is vested for five years (unless in any one year during that period dividends of 5 p. c. shall have been paid on the preferred stock) in Frederic P. Olcott, Walter G. Oakman, and Samuel Thorne as voting trustees, who shall vote only for directors receiving a majority vote of the preferred stock. It is further provided that the voting trustees shall not vote to create any lien or charge upon or for the lease or sale of the property of the company without the consent of a majority in amount of the voting trust certificates. This company also guarantees the principal and interest of $407,000 1st mtge. bonds of the Union Consolidated Elevated RR. Co.

Funded debt outstanding, Feb. 28, 1903, consisted of $10,000,000 1st mtge. 4 p. c. 40-yr. $1,000 gold coupon and registered bonds, due Aug. 1, 1938, interest Feb. 1 and Aug. 1, at company's office, Chicago, Ill., or Central Trust Co., New York, N. Y., and $3,000,000 extension mtge. 4 p. c. $1,000 gold bonds, dated July 1, 1901, due July 1, 1938, interest Jan. 1 and July 1, at the company's office, Chicago, Ill., or Central Trust Co., New York, N. Y. All bonds are in coupon form, with privilege of registration.

Of the 1st mtge. bonds $192,000 were issued to the company by the reorganization committee of the old railroad company, and are still held in its treasury for future improvements. The bonds of this issue are secured by mortgage to the Central Trust Co. and George Sherman, of New York, N. Y., trustees, of all the lines and railway of the company above stated, "together with all lands, tracks, and roadway of said railroad and said branches, and all buildings and all structures of every character used in connection with the operation of said railroad and its branches, and all machinery and equipment of the said railway company." The authorized amount of extension mtge. 4 p. c. bonds is $5,000,000; they were authorized at a special meeting of the stockholders held April 8, 1901, for the purpose of building extensions to the present property of the company. The mtge. (trustee, Northern Trust Co., Chicago, Ill.) covers the extensions as a first lien and the remainder of the road as a second lien, subject to the $10,000,000 1st mtge. 4s. The company has sold $3,000,000 of these bonds to provide the means for the following extensions: 1.8 miles double track elevated Douglas Park branch from Campbell Ave. to South 40th Avenue; 0.5 miles elevated and incline on the Garfield Park branch from 48th Ave. to 52d Ave., and a terminal in the heart of the city as mentioned above. The remaining bonds authorized under the mortgage are to be issued from time to time as further extensions are built. The extension bonds are redeemable at 105 on any interest day by giving 60 days' notice.

Union Consolidated Elevated Ry.—Length of track, 0.5 mile. Gauge, 4 ft. 8½ in. Organized early in 1896 to build a double track elevated railway connecting the Metropolitan West Side Elevated RR. with the Union Elevated RR. Completed as above in 1898. The completed section in this road is leased to the Metropolitan Elevated Ry. Co., the lease providing that the lessee shall have exclusive use of the structure and paying as rental all taxes and charges, land damages, and $1 per annum.

Financial Statement, May 1, 1903.—Capital stock, $1,000,000; funded debt outstanding, 1st mtge. 5 p. c. Series "A" 40-yr. gold bonds, due Nov. 1, 1936, $407,000—total stock and bonds, $1,407,000. The authorized amount of 1st mtge. bonds is $1,000,000, secured by mortgage to the Central Trust Co., New York, N. Y.; interest and principal guaranteed by the Metropolitan West Side Elevated Ry. Co. (see preceding statement). The mortgage is dated Nov. 1, 1896, and authorizes the issue of bonds in two series, "A" and "B," of $500,000 each. Series "A" bonds are a lien on that part of the franchise and structure of the company in Van Buren Street between 5th Ave. and Market Street and in Market Street to a connection with the Metropolitan Elevated tracks, which section has been built. Series "B" bonds will be a lien on the franchises and structures in Van Buren Street west of Market Street should the road thereon be built. Up to May 1, 1903, none of the Series "B" bonds had been issued. W. G. Adams, Pres.; C. V. Weston, Vice-Pres.; W. V. Griffin, Sec. & Treas., Chicago, Ill. General Office, Chicago, Ill.

LOUISVILLE RY.—Length of track (electric), 145 miles on 90 miles of street. Gauge, 5 ft. Rail (C. B. and girder), from 35 lbs. iron to 109 lbs. steel.

HISTORY.—Chartered under a special legislative charter of the State of Kentucky on Jan. 22, 1867, to continue 30 years, and which was extended indefinitely on April 16, 1890. The city charter was renewed in June, 1891, for 30 years. This company was authorized to construct, maintain, operate and acquire, by purchase or otherwise, street railways in the city of Louisville, and in virtue of its charter acquired by purchase on June 19, 1890, all the railways, properties and franchises of the Louisville City Ry. Co., the Central Passenger RR. Co., the Kentucky Street Ry. Co., and the Beargrass Ry. Co., and subsequently the Crescent Hill Ry. These lines embrace all the street railways in the city of Louisville and its suburbs, except the Louisville Terminal Ry. The franchises thus owned and acquired from the Louisville City Ry. Co. were on April 9, 1886, extended for 99 years from that date, and those acquired from the Central Pass. RR. Co. were extended for a like period from March 3, 1886. The other franchises are perpetual. The Louisville and Interurban Ry. Co. has been organized in the interest of this company to construct a system of urban and interurban lines. Cars, 535. Power station, 1; engines to generate power, 6.

OPERATIONS, year ending Dec. 31, 1902.—Earnings (passenger), $1,771,887. Operating expenses and taxes, $1,127,716. Net earnings, $644,171. Payments: Interest on bonds, $338,880; dividends on stock, $300,000—total, $633,880. Surplus, $10,292.

NEW ORLEANS RYS.—Length of track (electric), 178 miles. Gauges, 4 ft. 8½ in. and 5 ft. 2½ in. Rail (various), 58 to 100 lbs.

HISTORY.—Incorp. Jan. 28, 1902, under the laws of the State of New Jersey with a capital stock of $5,000,000 to acquire control of certain street railway and lighting interests in the city of New Orleans, La., and on April 1, 1902, leased the property of the New Orleans City RR. Co. In May, 1902, the capital stock of the company was increased to $40,000,000, and authority given for the execution of a new mtge. to secure an issue of $40,000,000 sinking fund 4½ p. c. gold bonds. These new securities were created to provide for the acquisition and consolidation of the New Orleans City RR., New Orleans and Carrollton RR. Light and Power Co., St. Charles Street RR., Orleans RR., New Orleans Gas Light Co., New Orleans Lighting Co., Edison Electric Co., and Merchants' Electric Co. These comprise practically all the street railway and lighting interests in New Orleans, La. This plan of consolidation is dated May 5, 1902, and a synopsis of the same is given on page 900 of the MANUAL for 1902.

It was provided in the plan that the New Orleans Rys. Co. should take over by exchanging its securities the New Orleans Gas Light Co., the New Orleans Lighting Co., the Edison Electric Co., the Merchants' Electric Co., and the following street railway companies: New Orleans City RR. Co., about 115 m.; the New Orleans and Carrollton RR., Light and Power Co., about 35 m.; the New Orleans RR. Co., about 10 m., and the St. Charles Street RR. Co., about 18 miles, a total of about 178 miles of street railway lines (see MANUAL for 1902, page 900, et seq.). The company also acquired the rights and franchises of the New Orleans and Pontchartrain Ry. Co. The electric light companies were owned by the New Orleans and Carrollton RR., Light and Power Co., and the gas plant was owned by the New Orleans Gas Light Co., which is leased to and operated by the New Orleans Lighting Co., right to the control of all which companies, with the exception of the St. Charles Street RR. Co., has been obtained in the interest of the New Orleans Rys. Co. The outstanding mtge. bonds of these companies which cannot be retired under the plan are as follows: New Orleans Gas Light Co., $76,000; New Orleans City RR. Co., $6,521,000; New Orleans and Carrollton RR., Light and Power Co., $5,549,000; St. Charles Street RR. Co., $300,000; Orleans RR. Co., $400,000—total, $12,846,000. Equipment—Not reported.

OPERATIONS.—Not reported.

FINANCIAL STATEMENT, April 1, 1903.—Capital stock (shares, $100) authorized—common, $30,000,000; 4 p. c. cumulative preferred, $10,000,000—total, $40,000,000; issued—common, $22,246,200; preferred, $6,123,100—total, $28,369,300.

Funded debt.—The plan of consolidation provided for sufficient securities to take up all the bonds of the constituent companies which can now be retired; the following statement shows the bonds of the constituent companies that cannot be retired:

The authorized issue of N. O. Rys. Co. gold sinking fund is $40,000,000, of which $12,846,000 were reserved for the retirement of prior liens, and $7,154,000 for future extensions and improvements. The stocks and bonds that are acquired by the issue of these securities are to be deposited as security for the same. A sinking fund of ½ per cent. per annum of outstanding bonds begins July 1, 1909, and runs for 20 years; thereafter, 1 p. c. of outstanding bonds till maturity. This fund is to be used in purchasing the bonds at not exceeding 105 and interest. Bonds are in registered form, and in coupon form, with privilege of registration. The authorized amount of N. O. City general mtge. bonds is $3,250,000; they bear 4 p. c. interest for the first five years and 5 p. c. thereafter, and are a first lien on the lines of the old Crescent City RR., and a lien subject to the consols of 1943 on the lines of the New Orleans City and Lake RR., and they have also an equal lien with the consols on the equity in the power house. The N. O. C. & L. 1sts are subject to call for the sinking fund at 110 on and after July 1, 1898. Of the N. O. & C. RR. Light & Power consols $535,000 are reserved to retire a like amount of prior lien bonds. The Merchants Electric Co. bonds are subject to call at any time at par. A sinking fund of $10,000 per annum is provided for the redemption of the Orleans RR. bonds. The bonds of the St. Charles Street Ry. are not subject to call, but a proportionate amount will be yearly retired through purchase in the open market.

Voting Trust.—The stock of the N. O. Rys. Co. is to be held in a voting trust for five years to control the management of the property.

UNITED RAILWAYS AND ELECTRIC CO. OF BALTIMORE.—Length of track, 354 miles. Gauge, 5 ft. 4½ in. Rail (T and g.), 90 lbs.

HISTORY.—Consolidation, March 4, 1899, of the Baltimore City Passenger Ry., the Baltimore Consolidated Ry., the Baltimore and Northern Electric Ry., the Central Ry., the Baltimore, Gardensville and Belair Electric Ry., the Baltimore, Catonsville and Ellicott's Mills Passenger RR., the Maryland Traction Co., the Baltimore and Curtis Bay Ry., the Gwynn's Falls Ry. Co., of Baltimore City, the Shore Line Electric Ry., the Pimlico and Pikesville RR., and the Walbrook, Gwynn-Oak and Powhatan RR. Cos. (see MANUAL for 1898, pages 985–7). This company also owns all the bonds of the Baltimore, Middle River and Sparrows' Point RR. Co. The above lines constitute the entire railways of Baltimore City and Baltimore County, and extend into Anne Arundel County and Howard County. The company also controls, by ownership of stock, the York Road Turnpike, the Charles Street Avenue Turnpike, the Hartford Turnpike, and the Baltimore and Jerusalem Turnpike (see MANUAL for 1899, page 976). The Baltimore and Laurel Electric Ry. Co. was incorporated in the interest of this company in 1901, with a capital stock of $250,000 (all owned by the U. Rys. and Electric Co.) to build an electric road from Baltimore to Laurel, a distance of about 18 miles. The Baltimore, Sparrows' Point and Chesapeake Ry. is leased by this company on terms given in the subjoined statement. Cars, 1,591. Power stations, 9.

Interest on the City and Suburban 1st 5s, the Lake Roland Elevated Ry. 1st 5s, the 1st consol. 4s, and the income 4s is payable at office of Alexander Brown & Sons, Baltimore, Md.; on all other issues at National Mechanics' Bank, Baltimore, Md.

The authorized amount of the 1st consolidated 4 p. c. bonds of 1899 is $38,000,000, of which $25,231,000 had been issued to Dec. 31, 1902. Of the balance, $514,000 were reserved for construction, acquisitions, extensions, equipment, and expenses of organization. The remainder ($12,255,000) were reserved to retire at maturity the divisional bonds of the constituent companies in the bonded debt statement shown above. They are coupon gold bonds of $1,000 each, to bearer, with privilege of registration of principal, and cannot be redeemed before maturity; secured on all the real estate, franchises, and property of every kind now belonging to or which may hereafter be acquired by the company. The Baltimore Traction Co. 1st 5s are a first mortgage on the old Citizens' and People's Rys., and the improvements thereon. The North Baltimore system is complete in itself; the mortgage covers about 35 miles of electric road and certain real estate. The extension and improvement bonds are a 2d mortgage on the Citizens' and People's lines. The convertible bonds are secured by a deposit of the company's authorized stock, with the Mercantile Trust and Deposit Co. of Baltimore, trustee, payable in gold in five years, with the option of the company to pay in ten years, and convertible, at any time during their existence, into shares of stock at par.

Baltimore, Sparrow's Point and Chesapeake Ry.—Consolidation Jan. 21, 1903, of the Baltimore, Middle River and Sparrow's Point RR. Co., and the Dundalk, Sparrow's Point and North Point Ry. Co. of Baltimore County. The road is now (May, 1903) in course of construction, only the Baltimore and Middle River Division being in operation, but it is expected that a large proportion of the road will be in operation in the summer of 1903. Leased, Jan. 31, 1903, to the United Rys. and Electric Co. of Baltimore for a term of 999 years, the lessee assuming all indebtedness of leased property. Capital stock (auth., $2,000,000; shares, $50) paid in, $400,000. It is proposed to issue $2,000,000 4½ p. c. 50-yr. gold coupon bonds, dated Jan. 31, 1903, interest Feb. 1 and Aug. 1, principal and interest guaranteed by the United Rys. and Electric Co., of Baltimore, trustee, Maryland Trust Co., Baltimore, Md. HISTORY.—Chartered in 1894; charter amended June 10, 1897, under the laws of Massachusetts, to construct an elevated railway through certain streets of the city of Boston and Cambridge, Mass., a total of 10.29 miles. The company was further empowered to lease the property, franchises, etc., of the West End Street Ry. Co., and such lease was executed Dec. 9, 1897, taking effect as of Oct. 1, 1897, and expiring June 10, 1922. Under the terms of this lease the lessee agrees to pay 7 p. c. per annum on the common and 8 p. c. per annum on the preferred stocks of the lessor company, in addition to all interest, rentals, etc. Furthermore, in addition to regular street railway taxes, the Elevated Co. is to pay ⅞ of 1 p. c. of gross earnings if dividends do not exceed 6 p. c. per annum; all excess over 6 p. c. to be added to the ⅞ of 1 p. c. The lessee assumed operation of the property on Jan. 1, 1898. Construction of an elevated railway to be operated in connection with the Subway and the company's surface lines was begun early in 1899; the section from Dudley Street, Roxbury, to Sullivan Square, Charlestown, by way of the Subway, was completed and opened for traffic on June 10, 1901, and the Atlantic Avenue loop on Aug. 22, 1901.

On Sept. 25, 1902, by authority of an Act of the Legislature, a contract was executed between the Boston Transit Commission and this company which provides for the exclusive use by this company of a subway or subways to be constructed by the Transit Commission under or parallel with Washington Street. The contract gives the company a term of 25 years from the beginning of use, at an annual rental of 4½ p. c. on the cost.

HISTORY.—The Lynn and Boston RR. Co. was chartered April 6, 1859, and subsequently acquired by purchase the Lynn Belt Line Street, the Naumkeag Street, and the Essex Electric Street Rys. (see MANUAL for 1898, page 1000). The Mystic Valley Street Ry., the Reading and Lowell Street Ry., the Salem and Wakefield Street Ry., the Woburn and Reading Street Ry., and the Wakefield and Stoneham Street Ry. Cos. were consolidated on Dec. 31, 1899, under the title of the last-named company. On Jan. 18, 1900, the Gloucester, Essex and Beverly Street Ry. and the Rockport Street Ry. Cos. were merged into the Gloucester Street Ry. Co. On March 3, 1900, the Gloucester Street Ry. and the Wakefield and Stoneham Street Ry. Cos. were consolidated with the Lynn and Boston RR. Co., the latter company increasing its capital stock from $1,266,000 to $2,271,000. On April 10, 1901, the Beverly and Danvers Street Ry. and on May 6, 1901, the Lowell, Lawrence and Haverhill Street Ry. and the North Woburn Street Ry. Cos. were also consolidated with the Lynn and Boston RR. Co. (see MANUAL for 1901, page 929). On July 23, 1901, the title of the company was changed to the Boston and Northern Street Ry. Co. On March 3, 1903, the Gloucester and Rockport Street Ry. Co. was merged into this company (see MANUAL for 1902, page 914).

The company operates under lease, on terms given in the appended statements for the several companies, the Boston and Chelsea RR., the Boston and Revere Electric Street Ry., the East Middlesex Street Ry., the Nashua Street Ry. and the Winnisimmet RR. The following is a list of the several cities and towns in which the railways operated by this company are located: Andover, Arlington, Beverly, Billerica, Boston, Chelmsford, Chelsea, Danvers, Dracut, Essex, Everett, Gloucester, Groveland, Hamilton, Haverhill, Hudson, Ipswich, Lawrence, Lowell, Lynn, Lynnfield, Malden, Marblehead, Medford, Melrose, Methuen, Nashua, Newburyport, North Andover, Peabody, Reading, Revere, Rockport, Salem, Saugus, Stoneham, Swampscott, Tewkesbury, Tyngsboro, Wakefield, Wenham, West Newbury, Wilmington, Winchester, and Woburn.

On June 27, 1903, this company issued $1,5 7,000 additional capital stock in exchange for capital stock outstanding of the Middleton and Danvers and the Lawrence and Reading Street Ry. Cos. of like amount.

This company is controlled by the Massachusetts Electric Cos. (see General Index).

NOTE.—Bonds marked thus (*) are in coupon form, with privilege of registration. †Redeemable at 105, after March 1, 1900.

The Lynn and Boston RR. 1st mtge. bonds of 1894 were authorized in Oct., 1894, to the amount of $5,379,000, of which $2,711,000 were used to pay off the company's debts and the remainder to retire prior liens. On Sept. 30, 1902, $5,218,000 of these bonds were outstanding, of which $1,495,000 were held in trust to redeem other bonds. To provide the means for certain necessary enlargements, improvements and extensions, as well as to reimburse the company for similar work done during the fiscal year 1897, there were issued $1,250,000 6 p. c. 20-yr. gold coupon notes. The proceeds of $500,000 in amount of these coupon notes were used for the above purposes, and the proceeds of the remainder of the notes for further improvements, extensions and enlargements, as occasion may require, but not previous to 1899. The authorized amount of Lowell, Lawrence and Haverhill Street Ry. 1st mtge. bonds is $1,900,000, of which $350,000 are reserved to retire the Merrimack Valley St. Ry. bonds. They may be called for payment at 105 and interest, or purchased at less in the open market. It is provided under the mortgage that the company shall retire by purchase or call ½ p. c. of its outstanding bonds yearly from May 31, 1894, to 1898, inclusive: 1 p. c. in 1899 to 1903; 1½ p. c. in 1904 to 1908; 2 p. c. in 1909 to 1913; 2½ p. c. in 1914 to 1918, and 3 p. c. in 1919 to 1923. The Merrimack Street Ry. 1st mtge. bonds are redeemable at option at any time after ten years from the date of issue.

WORCESTER RAILWAYS AND INVESTMENT CO.

HISTORY.—This is a voluntary association formed in Massachusetts in July, 1901, managed by a board of trustees, in whom is vested the ownership of the entire capital stocks (except the qualifying shares held by officers of the constituent corporations) of the Worcester Consolidated Street Ry. Co. and of certain other corporations holding charters under Massachusetts laws, and are engaged in enterprises closely identified with that of street railway transportation. The company also controls other securities of these corporations and other property rights.

The agreement and declaration of trust under which the trustees hold title to the capital stock of the controlled companies provides (1) that all shares of this company shall be non-assessable, and that there shall be no personal liability on the part of the stockholders; (2) that no pledge or mortgage of its securities can be made without the consent of two-thirds of all its outstanding shares; (3) that all shares shall participate equally in the benefits of the company without preference of any kind; (4) that no additional shares can be issued without the consent of two-thirds of the outstanding shares, except for the purpose of taking up stock of the Worcester Consolidated Street Ry. Co. authorized by the Board of Railroad Commissioners of Massachusetts under an order dated July 18, 1901. The trustees have issued negotiable certificates or evidences of interest for 71,898 shares, each share representing a fractional beneficial interest in the property of the Trustees.

DETROIT UNITED RY.—Length of lines operated (single track), Dec. 31, 1902, 381.30 miles. Gauge, 4 ft. 8½ in. Rail (T and girder groove), 77 to 98 lbs.

HISTORY.—Incorp. under the laws of Michigan, Dec. 31, 1900. Organized for the purpose of purchasing, acquiring, constructing, owning, maintaining, using, and operating street railways in the city of Detroit, Mich., and in any or all of the townships, cities, and villages adjacent thereto. On Dec. 31, 1900, the company acquired by purchase with shares of its capital stock, all the properties, rights, privileges and franchises of the Detroit Citizens Street Ry., the Detroit Suburban Ry., the Detroit Electric Ry., and the Detroit, Fort Wayne and Belle Isle Ry. Cos. (see MANUAL for 1900, page 920). The company is also authorized and empowered to acquire by purchase or otherwise such property as may be necessary or proper for conducting its business, and also to enlarge, develop, equip and improve the same as may be deemed expedient. Its directors have the usual powers conferred by general law in regard to sale and disposition of property, but have no special privilege in regard thereto, either by charter or by-laws, and said powers are limited and restricted by the provisions of its mortgage.

During 1902, the following lines were added to the system: Wyandotte and Detroit River Ry., 10.98 miles; Detroit and Northwestern Ry., 58.77 miles; Detroit and Pontiac Ry., 36.52 miles; Detroit and Flint Ry., 85.31 miles; city mileage, 2.91 miles—total, 194.49 miles. The dates of and terms under which these lines were acquired are as follows: The Wyandotte and Detroit River Ry. (now the Wyandotte Division) was added on Feb. 20, 1901, and was paid for by assuming $200,000 of 6 p. c. bonds and $197,000 of outstanding 5 p. c. bonds and by paying $140,000 in cash; the Detroit and Northwestern Ry. (now the Orchard Lake Division) was taken over on May 1, 1901, by assuming and guaranteeing the payment of $855,000 4½ p. c. bonds; the Detroit and Pontiac Ry. (now the Pontiac Division) was added on June 1, 1901, the Detroit United Ry. Co. guaranteeing $500,000 of 5 p. c. bonds and $515,000 of 4½ p. c. bonds, and the Detroit and Flint Ry. (now the Flint Division) was taken over on Aug. 1, 1901, by guaranteeing the payment of $2,500,000 of 5 p. c. bonds. (For latest published statements of the three first-named companies, see MANUAL for 1900, page 924, and MANUAL for 1901, pages 942 and 943.) The Detroit and Flint Ry. Co. was a consolidation of the Detroit, Rochester, Romeo and Lake Orion Ry., the North Detroit Electric Ry., and the Detroit, Utica and Romeo Ry. Cos., after the purchase by the first-named company of the Detroit, Lake Orion and Flint Ry. (see MANUAL for 1901, pages 941 and 943). Under an arrangement made June 11, 1901, the company paid, including interest, $1,436,728 for the entire capital stock of the Detroit and Port Huron Shore Line Ry.; it also purchased 2,970 shares of the capital stock of the Sandwich, Windsor and Amherstburg Ry., and 180 shares of stock of the City Ry. of Windsor, this being all the capital stock of the said companies, and has paid for same, including interest, $247,679.59. The company also owns a majority of the capital stock of the Detroit and Howell Plank Road Co., formerly held by the Detroit and Northwestern Ry. Co., and has advanced the sum of $22,635 to the Electric Depot Co., a corporation organized to develop this company's express business in Detroit and on the suburban lines. During the past year the company purchased $88,000 bonds of the Detroit and Lake St. Clair Ry., as required by terms of agreement dated June 11, 1901, for the purchase of the capital stock of the Detroit and Port Huron Shore Line Ry., and for the sum of $8,000 the entire capital ($10,000) and all the bonds ($10,000) of the Rochester Light and Power Co., of Rochester, Mich.

* Since the date of the above funded debt statement the $200,000 Wyandotte and Detroit River Ry. 1st mtge. bonds have been paid off by the issue of a like amount of W. & D. R. Ry. consols (making a total of $425,000); and the amount of Detroit United Ry. 1st consolidated mtge. bonds has been increased $500,000 to $2,275,000, making the total funded debt outstanding, August 15, 1903, $17,880,000.

Of the authorized amount ($7,000,000) of Detroit Citizens' consols, $415,000 were originally reserved to retire a like amount of Detroit Suburban Ry. bonds. The Detroit Suburban Ry. 1st mtge. bonds ($275,000) matured Nov. 1, 1902, and were paid off and cancelled. Inasmuch as the Detroit United Ry. 1st consol. mtge. also provided for the same amount, viz., $415,000 for Detroit Suburban Ry. bonds, $275,000 of the Detroit United Ry. bonds were taken out of escrow in place of the $275,000 of bonds of the Detroit Suburban Ry., that matured Nov. 1, 1902, and are held as treasury bonds. The Detroit Ry. 1st mtge. bonds were issued on 56.34 miles of road completed and equipped; bonds numbered 1 to 600 mature in order of numbers at $50,000 per annum, beginning Dec. 1, 1912; numbers 601 and upward mature Dec. 1, 1924, and there is a sinking fund for bonds numbered 602 to 1,800. Of the authorized amount ($2,800,000) of the Detroit Electric consols, a sufficient amount is reserved to retire the 1sts. The Detroit, Fort Wayne and Belle Isle Ry. bonds are subject to call at 105 and interest on sixty days' notice. Of the Wyandotte and Detroit River consols, $200,000 are reserved to retire the 1sts. The Detroit and Northwestern Ry. bonds are guaranteed, principal and interest, by the Detroit United Ry., and are subject to call at 105 and interest on sixty days' notice after May 1, 1911. The authorized amount of Detroit and Pontiac Ry. consols is $1,100,000, of which $500,000 are reserved to retire a like amount of 1st mtge. bonds. They are subject to call at 105 and interest on sixty days' notice after June 1, 1911; principal and interest guaranteed by the Detroit United Ry. The authorized amount of Detroit and Flint Ry. consols is $3,000,000, of which $1,100,000 are reserved to retire a like amount of D., R., R. & L. O. Ry. 1st mtge. bonds, and $500,000 are unissued; they are subject to call at 100 and interest after Aug. 1, 1911, on sixty days' notice and are guaranteed by the Detroit United Ry. The Detroit Ry. and Detroit Electric bonds are in registered form and in coupon form with the privilege of registration; all other issues shown in the statement of funded debt above are in coupon form, with privilege of registration.

The authorized amount of Detroit United 1st consol. mtge. 4½ p. c. bonds is $25,000,000; $15,880,000 were reserved by the trustee to retire the prior liens; $3,000,000 are to be used for purposes agreed upon by the board of directors, and the remainder ($6,120,000) is set apart, to be issued from time to time for extensions, betterments, and improvements of the railroads, street railroads and railway property of the company now owned or hereafter to be acquired, and for the acquisition of additional railroads, to be operated by electricity, in connection with the existing system of the Detroit United Ry. The bonds are in coupon form, with privilege of registration; are tax-free, and are secured on "all the street railway and railway property, assets and franchises of the Detroit United Ry. now held or owned by it, or which may hereafter be acquired by it." They are redeemable, in whole or in part, on any interest day, at 105 and accrued interest on sixty days' notice.
